

Appendix E : names index

The index contains many acronyms as the original text does. In some cases acronyms hint to titles, some times to names. In some cases I wrote in the remarks when different names may refer to same people: with or without middle name , with full father's name or just first letter etc. The index is trying to keep the original form as appears in the book.

Index of abbreviations :

M – Mr.

So – Son of

T - my / our teachher

R – Rabbi

GTR my/ our great teacher, Rabbi X

HR – honorable Rabbi

H – honorable

Last letter is usually father's name first letter

** Please note that only 85% of the book is in Hebrew and included in my index. . In the Polish part there are some names, most of them in tax payers list from 1773 . The names from the Polish part do not appear in my index as for now (December 2012)
