H. BARNES, PRINTER, TRIBUNE OFFICE,

No. 52 Shelby Street.

# THE PREFACE.

---

Our Preface should consist in a half-dozen sentences, containing an apology for the unusual delay which has occurred in printing the Directory. We plead "not guilty" in the court of public opinion. Every body knows, too, how sadly we have suffered in the untoward calamity that befel the Tribune printing establishment, on the closing night of the old year, when the Directory was just being finished. The burning of a large printing establishment is a public misfortune, and we claim our share of the sympathy of a generous community, for the losses and embarrassments occurring to us on that occasion. Well!—No matter!

"Man wants but little here below,  
Nor wants that little long."

And as an intensely acquisitive habit must necessarily be of close kindred to covetousness, we desire to feel our dependence on the power that "weigheth the mountains in scales, and the hills in a balance"—and who munificently provideth for every living thing. Here we would close our Preface, but that Young America may be in turbid inquietude, expecting us to write something odd, startling or instructive. To act oddly has been part of our whole life's experience—yet we have never mistaken a loaf of bread for a beef-steak, nor a mill-stone for a cake of cheese. We wish much we had been the President of the United States, just for so long as would enable us to go in and occupy Cuba in the face of the grinning rage of all Europe, at so splendid a display of our mettle and temerity. We have, however, every expectation that our honorable President will enable Bancroft to connect the name of James Buchanan with the acquisition of this Sentinel Island, of so great and legitimate importance to the national glory and commercial security of the United States. To write instructively, we require to be more thoroughly educated—but, as it is fortunate no one man possesses all the knowledge, we may as well "pitch in," and amuse our young friends by dedicating the balance of the article to Poets and Poetry:

Few really appreciate, as they should, the memories of good and great men! It is a pleasant exercise to mould into verse the crowding ideas of a lively and prolific imagination. It must be sublime to create the harmony of music. The soul is in a condition of entrancing fervor. Byron, in appreciating the exalted and extatic inspirations of Poetry, alludes to the amorous misfortunes, trials, and persecutions of TASSO, and Byron loved and sung himself, annihilating arbitrary forms of verse—

"Played with the lightning's wing"——

transported in imagination to regions beyond mortal approach, realizing glories to gross minds unimaginable.

Then look at the imagery of Milton! He makes even devils of proud mein, and quotes language from the lips of Gabriel, the Arch angel need not be ashamed of. Where is the student of exalted declamation and poetic eloquence, who does not feel his soul subsultorating towards a goal of beatitude.

Tasso, who inherited the spirit of poetry from his father, endeavored, throughout a lifetime, a counterpoise to his sublime conceptions of misery—inconceivable to the tame and contented herd of mankind—the persecutions of pride and envy. And when, *on tomorrow*, the 25th of April, 1595, Clement was to place upon his brow the laurel wreath, emblematic of immortality, before the assembled thousands of Rome—Tasso remarked, while stretched upon his bed of protracted sickness—the acknowledged result of his persecutions and disappointments—"Tomorrow I shall be alike indifferent to honor or neglect—I am about to enter into another and a brighter world. The crown they offer me is but a faint type of the one that awaits me there." Tasso must have read the ineffably grand poetry of Paul, in the 15th chapter of his First Letter to the Corinthian christians. His merited honors reached him *too late!* Those who came to summon him to a triumphal coronation, found him asleep in the cold embrace of death.

MOZART, like Tasso, inherited the soul of song from his father. (yet it is through Torquato Tasso and Wolfgang Mozart, that their fathers are immortalized,) but Mozart's soul became too intensely absorbed in his musical heaven, and his numbers flowed too fast to allow him to appreciate corporeal wants—and he wrung from his heart its vitality in composing his celebrated *Requiem*, while both him, and his wife and their children were in circumstances of poverty. The offer of a benefice from Royalty arrived *too late!* He died in the meridian of his life, bequeathing to the world a legacy of imperishable fame and greatness.

There was another man, too, who died before he was well developed. Kind, jovial, social Burns—whose honors arrived *too late*; whose first burial—for he was *disinterred twice*—was regarded almost with indifference by the sober citizens of Ayr. The genius of Burns, in his song, is perpetually in the hearts and minds of men—a presentiment of immortality—while the grand achievements of Cyrus, Xerxes, Alexander, Napoleon, Wellington and Washington, are but tamely treasured in the prose of history.

Were Burns alive—or could his spirit appreciate the centennial jubilee of pardonable idolatry flung upon his shrine, by the spontaneous accord of a world amused and instructed by his incomparable poetry—he would advise *canny* men to beware of song and sentimentality—and while these should not be slighted, yet humanity would be better promoted, and vigorous constitutions of body and mind better attained, by accepting cheerfully the invitations of labor at the plow. With Burns, a practical philosophy was as kindred to his soul as was either his heroic or sentimental poetry. Many poets impair their physical constitutions by neglecting to develop them.

If Burns were to live over again, he probably might drink less porter, and possibly we should have, as a consequence, fewer of his inspiring rhymes. The 25th January, 1859, was a great day of intended honor to Burns—but it arrived nearly one hundred years *too late!* to be of use in shaping the destiny and fortunes of the bard. Well, we presume he died with the fortitude and faith of a Christian! Poets and Historians have ever been benefactors of humanity. Their legacies of thought pass in instructive exchange from generation to generation. Read the Book of Job entire—not in disjointed chapters—how replete it is with those grand and sublime poetic conceptions! It is noticeable in the colloquial declamations of his friends, that they all seemed to have been educated in poetry. Every body is familiar with the exalted poetry of the Book of Psalms, written chiefly by "The Sweet Singer of Israel." Then the Proverbs and Canticles of the rich, the astute and experienced Solomon, are the impersonation of poetry; every line and expression is poetic. There is poetry in motion, grace, symmetry, magnitude—and it is kindred to brutality, the not having the faculty to appreciate the poetry of life which pervades all creation—whether in the language of numbers—of flowers—the song of the birds—the life of vegetation, with the myriad phases of significant variety every where developed. The contemplation of countless worlds, like and of surpassing magnitude to our own glorious earth, rolling along in their orbits through illimitable space. To imagine whether their inhabitants are Poets, Philosophers, wellbred or illbred; whether they have similar pursuits, pleasures, pains, griefs and passions, to appreciate the variety of emotions called into experience by this supposed diversity. Whether they have bridled the iron horse and put him into locomotion. Whether they have rebelled against the code of moral government commanded by the Supreme Ruler of the Universe, and became transgressors like our progenitors in Eden—which once happy place Moses permits us to surmise was on the banks of the Euphrates. Whether in those distant spheres Redemption from the consequences of broken covenants, may not have been mercifully provided by the goodness of God in the development of so much of His generous character as it may be His will to impart to His creatures. Such poetry as this may be usefully studied and sung in the soul, inspiring pleasure and hope of realizing the fruition of that immortal happiness "which eye hath not seen, nor ear heard—neither hath it entered into the heart of man to conceive the great things which God hath prepared for those that love Him."

The subject is exhaustless, and presents itself with all its glorious attractions for eternal study. Ah! we should rise above the coarser cares of life betimes! For what is our life? It is even a vapor, that appeareth for a little time and vanisheth away.

"This life is all a fleeting show,  
For man's illusion given—  
The smiles of joy, the tears of woe,  
For ever shine, for ever flow:  
There is nothing real but Heaven."

## Collection Notice.

It is requested that no moneys be paid on account of the Directory, or for advertising, except printed receipts, signed by the publisher, or countersigned by authority to receive moneys, be presented.

Advertisers who desire to send to friends in business throughout the State, or elsewhere, copies of THE ADVERTISER'S POSTER, will please send in their orders, as it is issued gratuitously.

## Terms of Advertising in the Directory.

The terms of advertising in this Directory are, viz:

For one quarter page,.....	\$8 00
“ one half “.....	12 00
“ whole “.....	20 00

Extra charge, as per agreement, for selected pages.

A liberal commission is allowed to advertising agents, in all parts of the Union and the Canadas.

## Statistics of the Growth of the Population of Detroit;

Compiled from the Annual Enumeration of the Publishers of the City Directory:—

1830.....	2,222	1854.....	40,127
1840.....	9,102	1855.....	52,000
1850.....	21,057	1856.....	65,000
1853.....	34,436	1857.....	70,000
		1858.....	82,450

\* A large increase to the population has undoubtedly taken place since the enumeration was taken in 1858, and at this date, January, 1859, there cannot be less than 85,000 inhabitants of all ages. Unquestionably Detroit is the greatest North Western Centre of the United States, from its incomparable position in relation to commerce. In this particular it has only one drawback—its frontier position in relation to Canada. If Canada West knew its own interest, both present and prospective, it would separate itself at once from the lower province, erect itself into a separate sovereign state. If it entered the confederacy of the United States, the question of international tariffs would be settled for ever, and cordial reciprocation of all kinds of state relations with Michigan would follow, resulting in the increasing growth, wealth and importance of both states. Detroit, Windsor and Sandwich, would then have an unrestricted community of interests. In any view of this suggested plan, it is simply hinted that Detroit was nothing older when it was but the nucleus of its present gigantic proportions than was Windsor and Sandwich. There is a moral in all this, which we recommend Colonel Prince, to ask our patriot friend William Lyon M'Kenzie to solve! No city of the West has superior facilities of transportation—nor is there any offering a more inviting field than Detroit for the investment of capital in the erection of large manufacturing businesses. An Emigrant agency of the most efficient character is now being organised by the State government, to guide the restless but labor seeking millions of the old world to settle on the productive lands of Michigan. Capital, skill and numbers will speedily, through this instrumentality, be attracted to the Peninsular State.

### Low Pressure vs. High Pressure Engines.

We were never more pleased in the examination of machinery, than we were, recently, in a visit to the extensive Machine and Engine Building Works of Messrs. Jackson & Wiley, situated on the corner of Fifth and Woodbridge streets. The entire details of this really great establishment, is very evidently presided over by the genius of order. Every individual seems to know how to discharge his own special business in a very expert and quiet manner, yet there is, evidently, no arbitrary rule of severity employed—it is the result of a good, practical, business education.

We were invited by Mr. Sanford, (Mr. Sanford, by the way, is one of nature's gentlemen,) to examine their new and much admired *Low Pressure Engine*. The first glance at this engine—this Mechanical Giant, whose great powers are compressed into the least possible space—inspires one simply with a kind of wondering delight. The Low Pressure Engine is acknowledged to be the safer engine. From the examination of this beautiful production of mechanical skill, we should say it would be morally impossible to expect danger to arise from the active employment of this engine, its boilers, condensers, &c., within fifty years of the hardest labor.—High pressure engines are at an end!

This low pressure engine was recently built by Messrs. Jackson & Wiley, to drive their own machinery, and its examination will well repay any gentleman who appreciates advancement and improvement in steam machinery, to go, examine and admire for himself. We feel we could but imperfectly describe the engine, and its several parts, yet under the courtesy of Mr. Superintendent Sanford, we have been enabled to print the following

#### DESCRIPTION OF MESSRS. JACKSON & WILEY'S NEW LOW PRESSURE ENGINE.

It is a vertical engine, 20 inch cylinder, and 24 inch stroke. The cylinder stands between two fine columns, which support a beautiful and ingeniously constructed entablature, on which rests the main line of shafting, turned by the engine crank, that revolves within the entablature; thus making the engine direct acting, doing away with all intermediate gearing. The engine far exceeds the expectations of Messrs. Jackson & Wiley. It requires only one-fourth of the fuel, while it supplies more than double the power of the high pressure engine it replaces; and from the economy of fuel alone would pay the expense of its construction in a very short time. It is decidedly the most classic and usefully beautiful engine we have ever had an opportunity of beholding, and we became inspired to write this notice of it, that those whose attention may be attracted thereby, may go and judge for themselves.

### Composition Roofing.

This roof, it is believed, excels all others for durability, cheapness and comfort. Where slate is not readily obtainable, it is a positive economy to put on this Composition Roofing. Several of the Patent-Right owners of Detroit advertise in this *Directory*, which please see in Advertisers' Index.

**Erratum.**

On first page of "Preface," 12th line from bottom of the page, for "endeavored," read "endured."

**The Tribune Fire.**

Quite a large number of stereotypes, electrotypes, wood cuts and dies, entrusted to us by friends, to be used in the Directory, were burned up on the night of the burning of the Tribune establishment, where we were printing this Directory. Fortunately the largest portion of the work was at the Binders. We, nevertheless, suffered considerable loss, without any insurance; and we can find a reciprocation of sympathy extended towards us, by friends whose individual trifling losses of cuts, dies, &c., on the occasion referred to, would, if aggregated and the cost exacted from us, probably amount to several hundreds of dollars, and would prove a severe infliction. Gentlemen, set the engravers to work again! Take the loss as we do ours, good humoredly. We shall pay you in sorrowing acknowledgments. There is Morchous & Sinclair, who had sent for and obtained by express their cut of Sash, Doors and Blinds, only two or three days before the burning, which was peculiarly unfortunate. But there is no use in complaining. The burning of a printing office is a great local calamity.

**Charles Kellogg & Co.**

In consequence of the transfer, by sale, of the extensive works heretofore occupied by this firm, to the Detroit and Milwaukee Railway Company, Charles Kellogg & Co. now occupy new and capacious Works, erected on Atwater, between Hastings and Rivard streets, during the summer of 1858. This Company have the capacity to discharge any amount of work it should happen to be their convenience to contract for. We refer to their Card, on page 212.

**The Michigan Farmer.**

R. F. JOHNSTONE, Editor and Proprietor. This invaluable Agricultural Weekly has succeeded the periodical of the same name, issued monthly by Mr. Johnstone for many years. Mr. Johnstone, being Secretary to the State Agricultural Society, possesses every available facility to make this paper rich with the accumulated experience of our intelligent and progressive state farmers. Its columns present, in addition to the rich agricultural staple knowledge with which they teem, the usual variety of current news, particularly of commercial and intrinsic importance.

Ten Thousand copies of this work ought to be subscribed for in this State alone. (See Prospectus, on page 246 of this Directory.)

**Wyandotte Rolling Mills.**

See the card of this Company, on page 248. We notice that a Professor Johnson reports Lake Superior Iron as the most ductile, strong and durable of any in the world.

**John & William H. Dunham, Boiler Makers.**

On visiting Mr. Dunham's establishment, we found him enlarging facilities, and his brother William associated as a partner. Notwithstanding 'dull times,' (and when are people satisfied with the times?) the Machine and Boiler making shops, Foundries, etc., manifest considerable activity.

In this connection we would notice the surroundings of our friend,

**William Buchanan,**

Who has added to his Boiler Making business, Engine building and repairing. See advertisement, page 217.

**Duncan's Brewery—Located at Mich. Cen. R. R. Depot.**

We think that our opinion of Ale is worth some deference. Our notion of DUNCAN'S ALE is, that it drinks extremely like "*Fine Old English Ale*," and since the days of Queen Bess, when

"Before Coffye or Taye, or such flip flops was knowne,  
Theye toasted it rounde with a cupe of browne Yale."

The opinion in favor of English Ale seems to be the orthodox verdict of *good taste*. Yes, Mr. Duncan! *we* very much like your Ale. Two or three glasses of it every day, is very refreshing to sons of toil. Every true housekeeper should have her barrel or half-barrel of old Ale to cheer the family; it would keep *some* husbands from rambling around.

### The Painters who Advertise.

Alderman Truckey carries on the trade at his old stand, corner Jefferson avenue and Cass street; and his late partner, that well known artist, Caleb F. Davis, carries on the business on Randolph street, near the Second Methodist Church. Please refer to their advertisements.

There is, also, Levi House, of 163 Larned st. east, who wishes his card before the public in the Directory.

### The Plumbers who Advertise.

Please refer to the Advertisers' Index, for cards, advertisements, &c. Mr. Rielly's nice brass die was saved from burning at the late Tribune fire.

We notice that Mr. Ross is, after all, a Plumber and Gasfitter, and not a clergyman of the kirk. The mistake arose in consequence of Mr. Ross having invoked a blessing at the Burns Festival. Mr. Haddock, one of the Editors of the Tribune, having become a little fishy, reported our friend as *Rev.* Mr. Ross. Now mind, Ross, there's many a worse priest in the kirk.

### The Wool of Michigan,—Vagrancy.

It is hoped the Board of Trade will obtain statistics of the quantity shorn and exported. The whole crop is annually shipped east, and thence probably shipped to England, to employ the beggarly worshippers of monarchy. There are two or three miserable attempts to manufacture in the State—the seemingly most successful, at Kalamazoo. It is not attempted throughout the State to manufacture cloths of a fine texture. A manufactory established in Detroit could maintain one thousand hands profitably, if looms were but once well started.

It is deplorable to notice the squads of wild and ragged boys who now roam through the city, whose permitted idleness will cause many a sigh to their parents, and whose crimes, as they mature into man's estate, will cost the State many thousands of dollars. Our rich men of property and commerce, are plainly at fault in neglecting to provide something to do for these boys and girls, who, during the hours of their fathers' employment in the services of such men, are left without rigid moral control, and become each others' instructors in the lowest and most degrading crimes. Gentlemen, "property has its duties as well as its rights." Not one of you could be wealthy without a population. It can afford no happiness to allow these children to train for either the Juvenile Penitentiary or the State Prison. The duty of the community is to provide employment, and to see that the idle are employed.

### Doctor Oakley

Has removed to Cooper's Block, opposite Masonic Hall, Jefferson avenue.

### The Russell House,—A. F. Draper, Manager.

It is neither necessary to advertise or attempt an emblazonment of the character of this Hotel. It is far ahead of Western Institutions. The public may be somewhat inconvenienced by finding its card in the Directory. See Advertisers' Index.

### Iron Caps and Sills,

In a great variety of styles and designs, are always to be had at the extensive Foundry of Jackson & Wiley.

### Bird Cages.

Mr. Samuel Adams, at the *Michigan Wire Works*, No. 109 Woodward avenue, will please accept our regret, that his neat cut of a Bird Cage, which should have appeared with his advertisement, on page 243 of the Directory, was burned up at the Tribune fire. Mr. A. and his partner are cunning handicrafts in every variety of Wire Work.

### I. M. Singer's Sewing Machine.

We had the pleasure of witnessing the operations of these machines, at 133 Jefferson ave., Masonic Hall. The Detroit agency is under the management of Mr. William Porter. Samples of a variety of styles, patterns and prices, are on exhibition. This invention is a great blessing to mankind, but particularly to overtaxed, industrious madams of the household, as these machines execute all kinds of stitching with rapidity. We trust Mr. Singer will give his attention to the creation of a machine for knitting stockings, making beds, milking cows, and washing babies' faces; then the ladies will have little to do but to fly from the Sewing Machine to the piano forte.

**Farrell Brothers, 170 Jefferson Avenue.**

Visiting this establishment recently, we noticed some beautiful ladies' Shawls. They are novel in style, and decidedly rich in appearance.

**D. O. & W. S. Penfield, 103 Woodward Avenue.**

This General Agricultural Depot is constantly supplied with every new and improved implement of husbandry, Farming and Garden Seeds, &c. The brothers are very pleasant fellows to talk to, and farmers, even although not wanting to buy at the time, leave them a good deal instructed after a talk about new patent implements, &c.

**J. W. Johnston's Michigan Land Agency.**

It must convey to individuals who reside in sequestered villages at a distance from Detroit, some moderate idea of magnitude, when they are informed that the Real Estate Dealer above named, subdivided, within the last two years, 1794 city lots, and sold upwards of 1200. And these operations, be it remembered, are *only* those of Mr. Johnston, who begun to sell real estate but two years ago.

**The Great Western Railway.**

The capital of this company afloat in their stupendous works, is \$13,000,000! The Genl Agency for the United States is located at Buffalo, and superintended by that well known Railway man, JULIUS MOVIUS, Esq., who, prior to his appointment as *General Agent*, resided for many years at Detroit, in connection with the Michigan Central Railroad.

**George Schuler, 160 Jefferson Avenue.**

Mr. Schuler manufactures and imports, and necessarily sells, large quantities of superior Jewelry, Watches, Clocks, &c. We have to acknowledge Mr. Schuler's friendly present of a nice Gold Ring. He has an extensive variety of Rings, Bracelets, Broaches, etc. He wishes to be understood as selling cheap.

Mr. BLACK, at the same number, is extensively engaged in the manufacture and sale of Optical Instruments, Lenses, Spectacles, &c. See the advertisements of these gentlemen in this Directory, at pages 225, 237. They have on hand a very fine display of elegant goods.

**Squatter Sovereignty,**

Yes, the farmers of America, but more especially of Michigan, are better off, more comfortably clothed, and probably as well furnished in their houses with nice costly articles of furniture, as was "Alfred of England," or "Alexander the Great." The immense stock of fine, costly and durable furniture always on hand by our friend J. W. TILLMAN, 144 Jefferson Avenue, and his facilities and experience in the house-furnishing trade, enable him to compete successfully with any other similar establishment in the West. To attempt an enumeration of the exquisite articles to be found in his Warehouse, would be out of the question. See if he has advertised; read his card, and go and call upon him. He sells extensive to Retail Dealers.

**J. W. Hodgkin---153 Jefferson Avenue.**

We bought the nice cap we wear at this establishment, for two dollars and fifty cents—and we paid for it on the spot. This part is stated lest it should be supposed Mr. Hodgkin meant to pay us for putting his business. We never allow ourselves to be caught in a black-mail trap; but grateful expressions are always agreeable, and we must enjoy the pleasure of thus publicly thanking Mr. Hodgkin for the nice cane he handed us in so gentlemanly a manner—noticing that the Compiler's legs were as iron-like as Grimaldi's, but that they could not last forever without support. We accepted the favor good naturedly—but we beg that no body will take the trouble of thinking about our wants, as "we pass through this pilgrimage of woe."

**Iron Stairs, Balconies and Verandahs.**

This is one of the various branches of Messrs. JACKSON & WILEY's business, corner of Fifth and Woodbridge Streets; but there is a house on Michigan Avenue—GLENDINNING & GARDNER—which executes large orders in this line also. Decidedly, these iron fences, on the ground of ornament, utility, durability and beauty, are far preferable to decaying wood-work. Whoever sends first to build an iron fence before our house, 142 Cherry Street, we shall employ, if we be only permitted to get in debt to the builder. Who will come? We

know we can get the stonework executed by friend GEORGE SANDERS, from his works, corner Michigan avenue and Wayne street.

### Daguerrean Artists.

Ladies and Gentlemen—go in any where, every where, into these Galleries of Art, that are respectably conducted, and get your countenances and those of your children multiplied. We refer you to our Advertisers' Index, in the Directory. Of course we are naturally anxious to know that our patrons are patronized by the public.

### B. Douglas & Co.

We have been handed by Mr. J. M. Reilly—the agent at Detroit for the above named Company—a printed circular of statistics relative to the mercantile failures of 1857 and 1858. The view embraces the Upper and Lower Canadas, Nova Scotia and New Brunswick.

In 1857 there were 5,118 failures, with liabilities to the amount of \$299,801,000.

In 1858, there were 4,537 failures, with liabilities amounting only to \$100,187,571—or but comparatively little more than one-third of the previous year.

From appearances we may expect quickly to arrive at a healthy condition of credit, with a more generous circulation of hoarded money. It would be very desirable to throw into more extensive dispersion the large quantities of gold and silver uselessly accumulated during the panic at the East. A panic is at any time inevitable without the employment of extraordinary strategy if the masses are made to believe the country emptied of gold and silver coin. Foreigners who love to get the hard specie of the United States would be prevented the facility of buying it in large piles in Eastern cities if it were circulated generously throughout the several remoter regions of the Union. We are not much of a financier, but constituted as our Banking system is, (and rightly so far as *federal* executive control may be regarded—there is nothing easier than for the political financiers of Europe to place the entire country and its government, in a condition of great financial embarrassment at any time they please, by becoming possessed of the largely accumulated specie at the East. Our Banking system will never present to the country thoroughly satisfactory assurances of full security until each State has a *government bank* of its own—its securities predicated upon the stability and general solvency of each such State government. This, however, may be a queer idea of sovereign squatterism. The operations of banking in general, however, would be protected from fluctuation and paralysis. We are free to admit that all this steady security to bill-holders, might have a tendency to create and consolidate a kind of State aristocracy. Class distinctions under the existing *regime* are quite tangible enough, frequently eliciting censorious remarks on "Codfish Aristocracy," &c. As an observer we have decided there is as much of this objectionable element in one political party as another. A condition of financial individual equality is just as impossible of attainment and perpetuation, as is an equality of acquired knowledge, or even inherent natural intelligence.

### Building Inspector.

This is an office urgently required in the city. We felt when passing the corner of Third and Woodbridge streets a few days ago, that the Larned House, which, for a public business building is an *ill-countenanced* mass of masonry—would have fallen upon us if we were worth being killed that way.

### Steam Boiler Inspector.

The difference between being blown up at sea, instead of on land, is not much, *provided a man found himself killed when he fell*. We think a skilful machinist should be appointed for the periodical inspection of all stationary steam machinery.

### Scavengers.

There are several industrious men who could be usefully employed in driving hogs and stray cattle to pound. The ravages of those hogs and straying cattle are very vexatious. No animals of any kind should be allowed to roam at large within the city limits.

### General Cass.

We are glad to recognize that at last the protest of our veteran Statesman, in regard to the British "*right of search*" under the Quintuple treaty, has been acceded to. The General must have felt *comfortable*—as all his friends both on national as well as personal grounds were delighted. Now General please lets have our Cuban outpost. An experience in Europe

resembling that of 1848 would be all that is wanting to make the acquisition without much trouble. General, remember that an *infinite* quantity of civilization has got to be effected in the world. Time is on the wing!

#### Lafayette Society.

The officers of this Society were, with others, omitted to be printed in this Directory. Mr. Angelo Paldi, at the Water Works office, will, however, be happy to supply any necessary information relating to this benevolent Society.

#### Street Map of Detroit.

A neat map will issue in the summer. It will be, it is expected, ornamental and useful.

#### Mich. Sou. and Nor. Ind. Railroad—Detroit Agency..

L. P. Knight, Esq., has been appointed agent at Detroit, *vice* Dickinson transferred on promotion.

Mr. Knight's residence is 20 Lafayette street east. Received too late to insert in appropriate list. Both travel and traffic are increasing *with a rush* on all our railway lines.

We noticed a cavalcade of draymen pushing forward their horses at too much of a *Jehu-like* speed. There seemed to be a driving bustle in every department—the Agent himself breathing short and quick—to the prejudice of lungs and life. We fear we may be regarded, however, as impertinently personal.

#### Detroit and Milwaukee Railway.

We took a stroll on the 28th January to look at the gigantic improvements of this line—which may be regarded as the legitimate extension of the GREAT WESTERN to Grand Rapids, Port Huron, Lake Superior, Grand Haven, by branches—but its air line terminus will be the shores of the Pacific. The good folks of Wisconsin and Minnesota should feel immeasurably indebted to the enterprise of all concerned in creating this great way out *towards the light of the sun's rising*. The new depot offices, foot of Brush st., is a very superior building. We were unfortunate in not having had an interview with Mr. Muir, the General Superintendent, from whom we had hoped to have obtained a statistical summary of the several improvements and the cost of erecting them. The Company is, however, but begun, as it were, to build, and if they progress in the same ratio for three or four years we can readily imagine how extensive will be their establishments; and how incalculably the value of all neighboring property will increase. The immense docks the Company have recently erected, some 1500 feet in length and about 150 feet in width, would call up the idea that Detroit was advancing towards the commercial expansion of Liverpool. Southern friends, send some of your cotton this way that we may start our young idle population at the looms! You will want a new market, as China bids fair to have *Nankeen* made at Manchester! We want to manufacture as much as we can of our own raw material!

We think, relying on our imaginary estimate, that this Company must have expended \$300,000 in their establishments here. We noticed our old friend Harry Metz at his vocation of "roofer" on the large depot in progress of building.

#### The Detroit Daily Tribune.

We noticed the safe of this establishment being carted down Jefferson avenue—and seeing it turn into SHELBY STREET, and stowed away at NO. 52—we correctly concluded HON. HENRY BARNES had bought out our friends Palmer & Fisher. This office being well stocked with every variety of Job Type and Printing Material—the Tribune is enabled to hold its accustomed leading position in the printing and publishing business. We understand Mr. Barnes, whose unflagging energy as a man, a printer, and a legislator, is well known, is bringing on from the east a superior stock of the most modern styles of plain and ornamental Job Type. He has also ordered a new and beautiful dress for The Tribune, and a variety of cards, papers, &c. His hosts of friends will, of course, rally around him in his new position.

#### Ornamental Stucco Work.

Mr. James Muir, of 252 Jefferson ave., is a fine specimen of an artist. If he would employ a man named Henry Rice—an excellent workman—a reciprocal advantage might be derived. A sample of Mr. Rice's artistic ability may be seen under permission—which we know the principal of the Eighth Ward School has the bland courtesy to extend—at the residence of Mr. Bradford Smith, Howard street, west of Eighth street—whose name was omitted, by some oversight, from the general alphabetical list.

### Landsberg's Vinegar.

The card of this justly to be appreciated Vinegar Establishment, will be found on page 207. Its purity is certified by Samuel P. Duffield, Druggist, corner Woodward avenue and State street. The source from which Mr. Landsberg obtained this analytical certificate, leaves no doubt to be entertained by the public of its genuineness. Large quantities are daily manufactured at these works, the entrance to which is by the "Ocean Cable" Saloon—an establishment which seems to be in more effective operation than the great submarine enterprise, which seem to have received a shock like the great Babel scheme of vanity, from the angel in charge of the central galvanic battery, far away beyond Valentia harbor, in Ireland, and Trinity Bay, in America. This international and interoceanic confederacy of interests seems to involve "*entangling alliances.*"

### Dry Goods Jobbers.

A new wholesale Dry Goods Depot has been opened at No. 18 Woodbridge street, corner Griswold, by Mr. Ransom Gardner. This is just what the State wants. It wants large wholesale houses at Detroit—or any where else capital may prefer to invest itself—instead of sending all the money east, and to Leeds and Manchester. But, Mr. Gardner, my dear sir, when shall we manufacture our native American raw cotton in Detroit? We can get cotton from the South by steamboat and Railroad, with all desirable facility, and we have the labor in abundance.

### Lake Superior Iron—J. B. Wayne & Co.

Lake Superior Iron is proven, by indisputable tests, to be the toughest and most malleable in the world. Messrs. J. B. Wayne & Co., manufacture this iron extensively—almost exclusively—and as practical machine and engine builders, of long standing and successful advancement in business, they are as competent to judge of the merits of Iron as any body in the community. We recommend every one interested in the progress of the useful arts, to pay this enterprising firm a visit at THE FULTON IRON WORKS, Brush street, near the Detroit and Milwaukee Railway Depot. See advertisement, page 219.

All our Foundry and Machine Shops are growing gigantic—and there seems to be a concentrating of industry around the Detroit and Milwaukee Depot. After all, the wealth of princely good fellows—no matter where they were born, or where they choose to reside—is not a bad thing to employ in developing the boundless resources of this great continent. This kind of co-operation is purely cosmopolitan. The splendid Depots, Offices and Wharves, erected by the Detroit and Milwaukee Railway, along the extensive property of this Company, receives praise from every quarter—as does, also, the internal government and police arrangements of the Company, under the able superintendency of W. K. Muir, Esq.

### "Rough & Ready"—J. B. Wilson.

Close to the Detroit and Milwaukee Railway, foot of Randolph street, we found our friend J. B. Wilson just in the act of being complimented by the master of the Propeller Susquehana, one of the Lake Erie line of boats of which Col. James E. Pittman, foot of Cass street, is agent. The boat having become disabled in a gale, put in to Detroit in distress, and her services being imperative on the line, extraordinary efforts were made to repair her machinery. The master assured us, that in a trial of several establishments he could only get WILSON to undertake the repairs within the limited time, and the stipulation *was fulfilled to the letter*, with the utmost satisfaction. Now, Captain, do you not think our friend Wilson deserves the good old style of *Rough and Ready*, together with a prompt transfer of the "ready rhino?"

### Bnffalo Robes and Furs—F. Buhl & Co.

We observe that our constant friends F. Buhl & Co., 148 Jefferson avenue, have on hand a quantity of bales of these comfortable robes, sold by the bale to the retail trade. The firm, however, retail every variety of fine carriage robes, and are always supplied with the freshest supplies and neatest styles of hats and caps. The country trade will do well to remember the name and number of this establishment. There is no establishment west of New York we believe, sells so expensive and neatly manufactured Furs, Hats, Caps, and other similar goods. The card of this establishment, which positively *needs no advertisement*, will be found at page 221.

### Domestic Manufactured Cordage, Ropes, &c.

We are well pleased to notice the industry of ex-Alderman Gallagher rewarded in the extensive patronage extended to his factory. Assuredly our own local manufacturers has the first claim to patronage.

### Patent Composition Roofing.

Several of these enemies to the shingle machine advertise with us, and they are wise in doing so—see Advertisers' Index. We are convinced this is the only kind of roof that ought to be put on all flat-roofed buildings. They are decidedly economical safe and serviceable. We notice that the sand ought to be made firmly to adhere, and we think a better substitute than paper should be invented. It is too fragile. A thick coating of the tar alone with the sand spread on we are of opinion is better—we wish to set the roofers a thinking.

### The Distillers and Rectifiers.

This is a branch of trade that annually emptied out our city of goodly sums of money sent to Pittsburgh and Cincinnati. We have now in successful operation some eight or ten rectifying establishments, for which see the advertisements. Amongst the latest started is DENIS MURPHY, 23 Woodbridge street, who sends into the market a seemingly nice article of whisky, which he calls VALENTIA WHISKY. Let it be tested.

### Genuine Wines and Liquors.

Oliver Bourke, 122 Jefferson avenue and nearly opposite Masonic Hall, keeps constantly on hand choice and extensive supplies of wines, liquors and cigars, Scotch and Irish whiskies.

### Bryant, Stratton and Goldsmith's Commercial College.

This useful commercial school for the education of our young men intending to make commerce, accounting, or banking their profession in the world, we are glad to see is numerously attended. We found quite a large number of respectable, fine looking young men in attendance, presided over by Mr. Goldsmith, one of the principals. The accommodations are extensive and convenient, and the location, Waterman Block Woodward avenue, very central, so that young men may walk to study there from the remote suburbs of the city without inconvenience or fatigue. Such commercial institutes present the desirable advantages of perfecting young men of only ordinary acquirements in the speedy acquisition of an instruction fitting them to discharge the duties of the counting-room, saving them years of laborious study.

We found in another department of the College Mr. M. E. Barrett engaged in instructing pupils in the beautiful style of business writing, of which he is so superior an artist. Mr. B. has received a number of honorary testimonials from critical judges for his superior penmanship, several fine specimens of which are on exhibition in his room.

### Grelling's Daguerrean Gallery, 219 Jefferson Avenue.

We find it necessary to notice the removal of Grelling & Co. from Firemen's Hall across the avenue to 219. The new institution is in keeping with Mr. Grelling's superior taste. The impression received from the view of the gallery is one of respect for the artistic ability and gentlemanly courtesy of Mr. Grelling.

### Gardner R. Lillibridge.

This gentleman is an artist; dull care sits lightly on his brow, which always radiates the sun of a contented philosophy. He is just the man to be at the head of a first-class coffee and chop-house; this employment would probably afford him time enough to indulge in his well-known literary and poetic tastes.

### Sutton's Gallery of Fine Arts, 205½ Jefferson Avenue.

Our citizens should take a pride in treating friends from the country and acquaintances visiting from other cities, to a visit to our fine art galleries. Such a course would leave a very favorable impression of the many superior and agreeable attractions of Detroit. Mr. Sutton has sent out from his establishment many unexcelled specimens of the Daguerrean and Photographic art.

### C. C. Tyler & Co., 63 Woodward Avenue.

Messrs. Tyler & Cogswell having succeeded the old and well-known firm of T. K. Adams & Co. in the manufacture, wholesale and retail, of Boots, Shoes and Rubbers, are determined to relieve the wants of the *bootless* multitudes of Michigan. We feel obliged to Mr. Tyler for thinking of the Directory and its compiler so far away as Boston, and we are glad to present him with a copy to send to the Parker House.

### Brooks, Adams & Co.

We recently observed during a tour through the western extremities of the city the superior facilities this firm possess in loading their lumber to villages and cities on the line of the Michigan Central Railroad—which passes directly through their yard—as well as shipping East by the lakes from their docks.

### Firemen's Journal.

This spicy and influential weekly newspaper, has moved from Shelby street to 113 Woodward avenue, over Hornbeck's—entrance on Fort street at the Campus Martius. Mr. Pattison, we understand, intends enlarging the Journal shortly making it all its friends would desire. May success perch on his banner!

### Detroit Chemical Soap Works, Corner Michigan Avenue and First St.

Amongst the most enterprising institutions erected in Detroit during the year 1858, is the Detroit chemical soap works. We wish success may be inscribed on the standard of our friends Messrs. Davis and Sprague. They make, we understand, the best soap and candles in Michigan, and have the capacity of supplying the whole of the Canadas, Michigan, Ohio, and Indiana.

### The National Architect.

This work will be interspersed with engraved designs of every class and style of architecture ancient and modern. Mr. Smith is very evidently master of his profession, and this work will supply a desideratum needed by American builders. Mr. Smith will please accept our best wishes for the complete success of his splendid book.

### Lights and Shadows of Missionary Life—By Rev. H. Pitezel.

A well-printed octavo, good paper, bound in cloth, lettered, presented by the author. The work is sold at Raymond & Selleck's. It is descriptive of travels, sketches scenery, Indian habits and character, of Missionary incident and experience during nine years spent in the region of Lake Superior. The work is written in a pleasing style, and for its historical value alone it recommends itself to the patronage of the community.

Mr. Pitezel although purely *caucasian*, bears an extremely elongated Indian name:

WA-ZAH-WA-WA-DOONG!

Which seems to be a very circuitous way for his Indian acquaintances to call Rev. Mr. Pitezel “*Yellow Beard!*”

### Gentlemen's Shawls—Jackets at \$2 for Ladies.

Our dear brother Haddock, of the Detroit Tribune, who is the *officious compiler* and reporter of all the valuable commercial news in that paper, will do well to take our advice and cast that abominable shawl he wears into Detroit river—to the d—l or to the dogs. It makes him look like a whiskered woman. From the habit of gathering its ungraceful folds around him, his shoulder-blades will stick out like those of a rabbit. If we were either the proprietor of the Tribune, or the president, or even chairman of the Finance Committee of the Board of Trade, we should telegraph some merchant tailor to measure him for a surtout, if not for an entire suit, or send him to a dress maker for a petticoat. Let our friend live in a condition of *uprightness* like a puritan father, and, if he will, let him send his shawl—that hideous, unmanly shawl—for a *cradle blanket to one of the Queen of Ashantee*, together with a lock of his 'air, and a receipt for spicing the “*Scotch haggis.*” How well no one ever sees any of the bustling merchants of Detroit—such as Duncan Stewart, for example—in a cradle or horse-blanket. These men want the free use of their arms, as well as the use of their brains, and they get health by swinging them about like the arms of a windmill. Head up! Light Bob!

### Numbering Houses.

This important matter should receive more attention from the Common Council. Let everybody imagine Detroit, with its 30 square miles of area, and 85,000 inhabitants, and no numbers on the buildings, and, we will add, no Directory, to guide these 80,000 inhabitants; very few, comparatively, knowing more than a few dozen acquaintances.

### Note.

The Messrs. CURTIS, Last manufacturers, 215 Jefferson avenue, have moved dwelling to 223 Congress, east.

William L. Streeter (Streeter & Noble) has moved dwelling to corner Adams avenue and Brush street.

## A Succinct Gazetteer of the State of Michigan.

[This DIRECTORY AND GAZETTEER, involving annually increased expense in the publication, and the work itself having but an *annual life*, depending on a limited and precarious patronage, the Michigan community might expect that the State Executive would extend a liberal order for hundreds of copies, to be distributed for the advantage of the whole community, to public men and institutions outside the State.]

The State of Michigan is embraced between the parallels  $41^{\circ}$  and  $57^{\circ}$  North latitude, and between  $82^{\circ}$  and  $90^{\circ}$  West longitude. Its boundaries, as established by act of Congress passed 15th June, 1836, defining the northern boundary of Ohio and admitting Michigan into the family of the "States," are as follows:

"Beginning at the point where a line drawn direct from the southern extremity of Lake Michigan to the most northerly cape (called North cape) of Maumee (Miami) Bay, intersects the eastern boundary line of the State of Indiana, and running thence with the said line to the said most northerly cape of the Maumee Bay, and thence from the said North cape of the said Bay, north-east to the boundary line between the United States and the province of Upper Canada in Lake Erie; thence with the said boundary line between the United States and Canada through the Detroit River, Lake Huron and Lake Superior, to a point where the said line last touches Lake Superior (being the mouth of Pigeon River); thence in a direct line through Lake Superior to the mouth of the Montreal River; thence through the middle of the main channel of the said Montreal River, to the middle of the Lake of the Desert; thence in a direct line to the nearest head water of the Menominee

River; thence through the middle of that fork of said River first touched by said line to the main channel of the same, to the centre of the most usual ship channel of the Green Bay of Lake Michigan; thence through the centre of the most usual ship channel of said bay to the middle of Lake Michigan; thence through the middle of Lake Michigan to the northern boundary of the State of Indiana, at that line which was established by the Act of Congress of the 19th of April, 1816; thence due east with the north boundary line of the said State of Indiana, to the north-east corner thereof; and thence south with east boundary line of Indiana to the place of beginning."

The extreme length of Michigan, from the north-western point (the mouth of the River Pigeon,) to the south-eastern point, (the northern cape of Miami Bay,) is computed to be, in a direct line, 540 miles. Its breadth is various. The Peninsula proper is 282 miles long, from north to south. Its breadth in the southern part, from east to west, is 170 miles; south of Saginaw, 194 miles; average breadth, 140 miles. The Upper Peninsula, from the extreme point east, at Point de Tour, to the extreme western point (mouth of the River Montreal,) is 324 miles. Its breadth from north to south is 108 miles, and its minimum breadth is 60 miles.

It embraces within this area 56,243 square miles, equal to 35,595,520 acres.

The male population, as appears by the State census of 1853, over 21 and under 45 years, capable of bearing arms in the military service of the State, amounted to 92,160.

Michigan contains forty-five counties at present. The quantity of territory not yet settled may make three times as many more.

The principal cities and towns of the State are described in the pages following.

The surface of the Lower Peninsula embraces as much rich farming lands probably as any country of equal area. It is rolling and diversified with limpid rivers and handsome lakes. It wants—what the Upper Peninsula possesses in superabundant measure and magnitude—some mountain scenery to gratify the hungry eye of true lover of the picturesque and beautiful. The Lower Peninsula is well wooded and watered, with occasionally extensive and more limited prairie openings. In this division of the State there are several mines of iron, plaster and coal, of great value. The forests abound also in game of every variety, except the usually dreaded savage animals. The climate is genial to the successful growth of the grape, if properly cultivated. Fruit trees of all kinds—except the tropical—produce abundantly the finest flavored fruits.

The Upper Peninsula of Michigan has a health-bracing and invigorating climate, the exceptions to settlement being cogent with the emigrant, that while lands are obtainable two or three hundred miles nearer market in the Lower Peninsula, with more genial seasons and a shorter winter, why go settle so much more north? The population comprised within the Lake Superior country consists mostly of miners, their officers, and those generally who are maintained by mining operations. It is by no means of a tendency to encourage the more speedy development of the incalculable mineral wealth of the Upper Peninsula to discourage the settlement there of a permanent local population, who, becoming familiarized with the peculiar circumstances around them, would, as many sensible money-making people do, determine to select their homesteads there. Agriculture, although subordinate to mining employments, is still extensively attended to, and excellent crops of vegetables obtained.

The General Government (during successive administrations), as well as the government of the State, seem to obtain general condemnation for neglecting to make appropriations to expedite winter intercommunication with this highly interesting northern outskirt of the Union. Four Lines of Railway are, however, now in prospective construction in the Upper Peninsula of Michigan.

White fish and trout are caught on the shores of Lake Superior in great abundance; are cured and packed for eastern, southern and European markets. White fish are also caught in large quantities in the Detroit River.

The great features of attraction presented superficially by the Lake Superior country are its magnificent, romantic bluffs, lashed by the Atlantic-like giant waves of the lake. There are mountains of Iron here, in exhaustless magnitude, and Copper enough to abundantly supply the world for all time. There is a considerable admixture of silver with the Copper. These metals are proven to be very pure—the Copper in its native condition often yielding from 90 to 96 per cent. of pure metal. Much to the damage of the Iron-mining interests of the State and of the Union generally, the millions upon millions of dollars' worth of Iron employed in the erection of the Railroads of the Union has been imported from Europe. It is but a question of time, however to decide that none but American Iron and Copper shall be manufactured in America.

There are ninety-six engines, possessing 1,441 horse-power, employed in the three important Mining Districts of Kewanee, Ontonagon and Portage Lake, erected at an aggregate cost of \$308,000, all employed in Copper Mining. The stamping machinery consists of three hundred and ninety-two heads of stamps, capable of pulverizing 784,000 pounds of rock ore in twenty-four hours.

The possession of this rich mining region by the United States is due to the sagacity, foresight and patriotism of the venerable Franklin, who, when Ambassador at Paris, possessed himself of valuable information relative to the richness of the metallic resources of the Lake Superior region.

The full development of the mineral and other resources of this division of Michigan, will, probably at no remote period,

render it necessary to erect the "Upper Peninsula" into a separate State; in which event, being relieved from the embarrassments of delays of government and legislation at so great a distance as Lansing, the energies of the inhabitants of the "State of Superior," interwoven with the circumstances and interests of outside mining-stock owners, would the more naturally and certainly concentrate in the more speedy and effectual development of so wealthy and extensive a territory.

In a statistical lecture relative to mines and mining interests generally, delivered before the Michigan Legislature, at Lansing, at the session of 1857, Mr. C. F. Harvey, of Lake Superior, introduced the following facts:

Mr. Harvey remarked that this was by far the greatest interest in the State of Michigan. That Pennsylvania had 631 Iron mines, producing \$20,000,000 worth of Iron; New York 401 mines, producing about \$8,000,000 worth; Ohio 229 mines producing about \$6,000,000 worth; Tennessee 81 mines, producing about \$16,000; while Michigan, which had better resources than any of those States, had but four establishments in operation, and was not honored with even a place among the Iron-producing States. That while the best ore of England produced 41.41 per cent., the best ore of France 31.89 per cent., the best ore of Illinois 56.02 per cent. of pure Iron, Lake Superior produces 69.15. Swedish Iron of the best quality, in strength equals 58,000 pounds per square inch; Lake Superior equals 89,582 pounds per square inch.

He remarked that Great Britain owed its wealth mainly to the manufacture of cotton and iron. It bought its raw cotton of America—why should it not raw iron? That while England, in 1806, manufactured with 216 furnaces, 243,851 tons; in 1840, with 402 furnaces, 1,396,400 tons; in 1855 with 599 furnaces, 3,585,906 tons; and was doubtless going on in the same ratio of increase—with proper facilities, he thought, they could ship and sell from Marquette next year, 60,000 tons of ore; in 1858, 100,000 tons; and in ten years, at least 500,000 tons per annum, which would yield to the State, by the present mining tax of 10 cents per ton, \$50,000 a year.

Exhibiting a map showing all the coal fields of the United States, the conclusion was shown that the ore must be manufac-

tured by coal obtained from Cleveland, Ohio, or Saginaw, Michigan. Mr. Harvey said that if there was as good coal in the city of Saginaw as in Cleveland (and gentlemen present asserted there was an abundance), it was as sure as the sun rising, that from Wyandotte northward to Saginaw Bay, would be the great Iron manufactory of the North-West.

He then stated that one thousand more furnaces were now wanted to supply the present demand for Iron; and Michigan could have them if active; if not, other States would get the prize.

The Lumber Trade of the State of Michigan is extensive. There are in the State about 400 saw mills for the manufacture of lumber;—employing 5,000 men about the mills; 11,000 in the pineries, cutting logs; and 2,000 men rafting logs, lumber, and in loading vessels. Probably the annual value of the Lumber Trade of the State of Michigan may be \$8,000,000.

The flour of Michigan is unsurpassed; and many names of millers owning incomparable brands might be here recorded, if desirable.

The almost spontaneous settlement of thousands annually in the larger cities of the State but especially in Detroit, demands careful regard on the part of the wealthy and well-intended to encourage the building up of manufactories, thereby affording employment to the poorer laboring masses, so as to deprive them of every pretext to vicious idleness, arising from the want of employment. It will be constantly insisted upon, until accomplished, that the wool of our own State should be manufactured within the State. Several branches of manufacturing enterprise may be noticed by the tourist through Michigan, existing at the several cities and villages of the State. These are briefly noticed in the "SUCCINCT GAZETTEER."

The State Executive, Legislative officers, State Institutions, &c., will be found introduced in this Work, under their respective heads, on reference to the Index.

The present population of the State may exceed one million, and probably may not fall far short of a million and a half on the enumeration of the State census in 1860.

The following are the counties of Michigan:—Allegan, Barry, Berrien, Branch, Calhoun, Cass, Chippewa, Clinton, Eaton, Emmet, Genesee, Grand Traverse, Hillsdale, Houghton, Huron, Ingham, Ionia,

Jackson, Kalamazoo, Kent, Lapeer, Lenawee, Livingston, Mackinac, Macomb, Marquette, Mason, Midland, Monroe, Montcalm, Newaygo, Oakland, Oceana, Ontonagon, Ottawa, Saginaw, Sanilac, Schoolcraft, Shiawassee, St. Clair, St. Joseph, Tuscola, Van Buren, Washtenaw, Wayne. Some new and unsettled counties are organized from session to session of the Legislature.

### CITIES, POST TOWNS, LAKES, &c.

[As this work circulates extensively, parties desirous of extending their custom, would do well to "ADVERTISE" in it. There is no better medium for the circulation of cards of permanent business.

The population returns in the GAZETTEER will be amended after the State Census, to be taken in 1860.]

Towns marked with a star (\*) are not Post Towns.

*Acland*, Jackson.

*Adams*, Hillsdale County, population 1,500; 93 miles from Detroit, on M. S. R. R.

*Adamsville*, Cass, 172 miles west from Detroit.

*Addison*, Oakland, pop. 1,830.

*Addison*, Lenawee.

*Adrian*, Lenawee, pop. 7,000; is 70 miles W. S. W. from Detroit, 80 miles from Lansing, 37 miles from Monroe, 32 miles from Toledo. The M. S. R. R. connects this city with Chicago. The surrounding country is unsurpassed for agricultural advantages. Adrian is built on the banks of a branch of the River Raisin. It contains many elegant public and private buildings, and carries on several manufacturing businesses.

*Adventure*, Ontonagon.

\**Alaiedon*, Ingham, pop. 600.

\**Alamo*, Kalamazoo, pop. 6,000; is 70 miles W. S. W. from Lansing, and about 120 miles from Detroit.

*Albion*, Calhoun, pop. 2,000; 95 miles from Detroit, on M. C. R. R. At this place is located the Wesleyan Female College and Seminary. The town is advantaged by the Kalamazoo River, which affords excellent power for milling and manufacturing.

*Algansee*, Branch, pop. 1,000.

*Algoma*, Kent, pop. 600.

*Algonac*, St. Clair, pop. 500; 40 miles N. E. from Detroit.

*Algonquin*, Ontonagon.

*Almena*, Van Buren, pop. 600.

*Allegan*, Allegan, pop. 1,200; 28 miles by plank road from Kalamazoo. There is some considerable lumbering and other manufacturing, for which the Kalamazoo River yields abundant power.

*Allen*, Hillsdale, pop. 1,100; on line of the M. S. R. R.

*Allendale*, Ottawa, pop. 200; 20 miles S. E. from Grand Haven.

*Allison*, Lapeer.

*Almont*, Lapeer, pop. 2,000; is 50 miles N. from Detroit, on Clinton River.

*Alpine*, Kent, pop. 900.

*Alto*, Kent.

\**Amboy*, Lapeer, pop. 600.

*Amboy*, Hillsdale.

*Antwerp*, Van Buren, pop. 1,000.

\**Antrim*, Grand Traverse, pop. 200.

*Antrim*, Shiawassee, pop. 500; 50 miles N. W. from Detroit.

*Antrim*, Oakland.

*Ann Arbor*, Washtenaw, pop. 6,000; is 39 miles west from Detroit, on M. C. R. R. This is a delightful and picturesque locality, watered by the Huron River, which affords good power. The State University buildings, which are located on an elevated site, beyond the eastern suburb, add much to the agreeable view of Ann Arbor, which, with the rolling and diversified aspect of the surrounding country, commands peculiar admiration from passing strangers. There is an extensive local general trade, well sustained by a rich farming country. There is an extensive paper mill, and several other factories of importance. For the Faculty and other details of the University, see JOHNSTON'S DETROIT DIRECTORY. For Hotels, see Advertising Department of DIRECTORY.

*Arcadia*, Lapeer.

*Argentine*, Genesee, pop. 700; 55 miles N. W. from Detroit.

*Ardington*, Van Buren, pop. 500.

*Arlington*, Van Buren.

*Armada*, Macomb, pop. 1,500; 35 miles N. E. from Detroit.

*Ash*, Monroe, pop. 1,600; 27 miles S. W. by S. from Detroit.

*Ashland*, Newaygo.

*Ashley*, Kent.

*Assyria*, Barry, pop. 600.

*Athlone*, Monroe.

*Athens*, Calhoun, pop. 700.

*Atlas*, Genesee, pop. 1,500.

*Attica*, Lapeer, pop. 800; is 50 miles north from Detroit.

*Auburn*, Oakland; 30 miles from De-

troit, 4 from Pontiac, 75 E. by S. from Lansing. A canal from Clinton River here to Lake Michigan.

\**Auchville*, Tuscola, pop. 250.

*Augusta*, Kalamazoo, pop. 1,500; 130 miles west from Detroit, on M. C. R. R.; and on the Kalamazoo River, 12 miles from Kalamazoo.

*Aurelius*, Ingham, pop. 800; 80 miles N. W. by W. from Detroit.

*Austerlitz*, Kent, 178 miles W. by N. from Detroit.

*Austin*, Sanilac, pop. 500.

\**Austin's Lake*, Kalamazoo.

*Avon*, Ionia.

*Avon*, Oakland, pop. 1,800; 28 miles N. by W. from Detroit.

*Bainbridge*, Berrien, pop. 700.

*Ball Mountain*, Oakland.

*Baldwin's Mills*, Jackson.

\**Baltimore*, Barry, pop. 700.

*Bangor*, Van Buren, pop. 400.

\**Barry*, Barry, pop. 300.

*Barry*, Jackson, on M. C. R. R.; 82 miles west from Detroit. Sandstone is obtained from an extensive quarry.

*Barryville*, Barry.

*Base Lake*, Washtenaw.

*Bath*, Clinton, pop. 300.

*Batavia*, Branch, pop. 1,000.

*Battle Creek*, Calhoun, pop. 3,000; is 120 miles west from Detroit, on M. C. R. R. Good water power; a flourishing and busy village; an extensive quarry of sandstone here.

*Beaver Island*, Michillimackinac.

*Bedford*, Calhoun, pop. 900.

*Bedford*, Monroe, pop. 1,000; 47 miles S. W. by S. from Detroit.

*Bellevue*, Eaton, pop. 1,200.

*Bengal*, Clinton, pop. 400.

*Bennett's Corners*, Jackson.

*Bennington*, Shiawassee, pop. 700; 80 miles N. W. from Detroit.

*Benton*, Eator, pop. 600.

\**Benton*, Berrien, pop. 1,085 adjoining Lake Michigan, about 30 miles from Allegan.

*Benton*, Washtenaw.

\**Berlin*, St. Clair, pop. 778; 75 miles N. E. from Detroit.

*Berlin*, Ionia, pop. 570.

*Berrien Springs*, Berrien, pop. 1,222; County seat of Berrien Co.; is about 190 miles from Detroit, on St. Joseph River, 15 miles from its mouth at Lake Michigan.

\**Berrien*, Berrien.

*Bertrand*, Berrien, pop. 700; 14 miles from Berrien.

*Bethel*, Branch, pop. 900.

*Big Beaver*, Oakland.

*Big Prairie*, Newaygo, pop. 300.

*Big Spring*, Ottawa.

*Bingham*, Clinton, pop. 400; 22 miles from Lyons.

\**Bird*, Hillsdale.

*Birmingham*, Oakland, pop. 1,000; on D. & M. R. W.; 18 miles from Detroit.

*Blendon*, Ottawa, pop. 100.

*Blissfield*, Lenawee, pop. 500; population doubled since 1845.

*Bloomer*, Mackinac, pop. 282.

*Bloomfield*, Oakland, pop. 1,600.

\**Bloomington*, Van Buren, pop. 400; is 20 miles W. N. W. from Kalamazoo.

*Borodino*, Wayne.

*Boston*, Ionia, pop. 700.

*Bostwick Lake*, Kent.

*Bowne*, Kent.

*Braceville*, Kent.

*Bradley*, Allegan.

*Brady*, Kalamazoo, pop. 700; 15 miles S. E. from Kalamazoo.

*Branch*, Branch, on Coldwater River; is 89 miles S. S. E. from Lansing.

*Brandon*, Oakland, pop. 1,100; 38 miles N. W. from Detroit.

*Breckenridge*, Newaygo.

*Brest*, Monroe, pop. 150; is 5 miles from Monroe.

*Brewerville*, Van Buren.

*Brewsville*, Van Buren.

*Bridgeton*, Newaygo.

*Bridgeport*, Saginaw, pop. 380.

*Bridgeport Centre*, Saginaw.

*Bridgewater*, Washtenaw, pop. 1,200; is 18 miles N. by E. from Adrian.

*Brighton*, Livingston, pop. 1,200; 40 miles north from Detroit.

\**Brighton*, Newaygo, pop. 200.

*Brockway*, St. Clair, pop. 500. The lands are superior, well timbered, and watered by the clear Mill Creek River, which affords abundant power for machinery. The locality offers inducing advantages to immigrant settlers. It is approached by plank roads from Detroit, Mt. Clemens, Romeo, Almont, and Port Huron.

*Bronson's Prairie*, Branch, pop. 900; is 130 miles W. S. W. from Detroit, and 97 S. W. from Lansing.

*Brownville*, Cass.

*Brooklyn*, Jackson, pop. 600; on the River Raisin, 12 miles south of the city of

*Detroit*, Wayne Co., pop. 75,000, may be regarded as one of the most favored of all the western cities of North America. Its site has been inhabited since 1701, when it was colonized as a fur-trading post by the French. Detroit continued in the military occupation of the French until the 29th of November, 1760, when the British assumed possession, and the post endured, under the latter regime, a series of sieges, assaults, and desultory warfare by the aboriginal Indians, principally under the chieftainship of the renowned warrior, Pontiac, who, with consummate generalship, devised the simultaneous overthrow of all the British North-Western garrisons, from Mackinac to Western New York.

On the 24th of July, 1858, chiefly through the laudable exertions of our respected fellow-citizen, James A. Girardin, Esq., in connection with the Historical Society of the State of Michigan, the One Hundred and Fifty-Seventh Anniversary of the founding of Detroit by the brave and intelligent Monsieur Antoine de la Motte Cadillac, (who was afterwards promoted by King Louis the XIV of France as Governor of Louisiana), was celebrated by the civic and military authorities of Detroit, under the auspices of the State Historical Society, at which there probably was not less than Forty Thousand of the inhabitants participating. Historical orations in English and French, appropriate to the occasion, were delivered by Messrs. C. I. Walker and Alderman E. N. Lacroix, and poetic canticles, the production of the fertile and versatile intellect of D. Bethune Duffield, Esq., were sung by the choir of The Ancient Harmony, containing sixty citizens. These highly instructive and interesting ceremonies closed with a superb banquet at the Russell House, at which several distinguished gentlemen of the State and from Canada, were intellectually and hospitably entertained.

The United States became possessed of Detroit, in virtue of the revolution against the British monarch, in 1776. In the war of 1812, many suppose that, with the for-

midable force at the command of Gen. Hull, he need not have surrendered to the British; but the final struggle of that war having again given victory to the United States, Detroit was evacuated by the English garrison in 1813, and re-occupied by the American army.

General Lewis Cass, who served in the war with ability, was distinguished by the Congressional Executive in being appointed Governor of the Territory of Michigan.

Detroit has since been the General's residence, unless while absent as a member of the Federal Executive, as a Foreign Minister, or while engaged on Senatorial duties in Congress. General Cass is at present Secretary of State in the Cabinet of President Buchanan.

Within a few recent years a most decidedly marked series of improvements have taken place in Detroit. The residence of superior architects in the city has largely contributed to a cultivated taste in architecture. The three new Presbyterian Churches, and the Congregational Church, erected, are fine specimens of different and composite styles. Several superb residences have also been recently erected.

The city will now require, from the extent of its limits and population, several large Parks. At least some fifty acres should be allocated to each Park, which, instead of being bolted against the public, should be properly policed, with open gates, and the grounds kept in such improved and cheerful order as would communicate pleasurable and recreative emotions of gladness to the minds and hearts of our wearied and industrious citizens. A few years, and the population will be 100,000 inhabitants, and the whole of the present generation will have passed from the active life of the city to the quiet, but tastefully adorned graves of the Cemetery, where the dead cannot enjoy the surrounding beauty. The Cemeteries of Detroit are beautiful, as they ought to be, and are creditable to those who directed their details. Parks for the living are of admitted equal appreciation—yielding to all pleasure and health. Around the new Reservoir, a Park might, three years ago, have been beneficially secured by the Council—now it is probably impossible; and the fine picture of so magnificent a basin in the centre of what might have been a splendid Park for all time, is dotted around with dirty Dutch hovels.

The extraordinary growth of Detroit

during the last eight years has astonished the old property speculators. Where many are eminently entitled to notice as employers and manufacturers, the Real-Estate firm of Messrs. Crane & Wesson are amongst the foremost in enabling many thousands, it may be truly said, of poor mechanics to acquire "*a Home*," by the facilities afforded them by this enterprising firm, who, beyond all others in the ordinary detail of business, have extended streets, laid out farm after farm into new streets and allotments, until the necessities of the population demanded enlarged municipal limits. The operations of these gentlemen have mainly contributed to the extension of the boundary lines of the City recently, so that Detroit now embraces a taxable area of probably thirty square miles.

Including the Great Western (Canada) Railway, there are four great trunk lines of Railway concentrating in Detroit, and several contributory lines are at present in progress throughout the State.

The cities of the eastern seaboard are but a day's ride from us, by steam conveyance, and we supply our more fastidious wants with a lightning-like rapidity, at the distance of thousands of miles.

Detroit has recently, through Dr. Russell's enterprise, added to its manufacturing establishments an extensive Iron Furnace, erected in the Tenth Ward, by the Detroit and Lake Superior Manufacturing Company, capable of blooming 2,500 tons of pig iron per annum.

Below Detroit a few miles, but properly suburban to it, and owned by its wealthier merchants, at Wyandotte, are located the extensive Iron Works of the Wyandotte Rolling Mill Company, capable of rolling merchant, bar, and other finished Iron, as well as Rail-Road T, to the extent of 3000 tons annually; finished iron of the very best and purest quality of Lake Superior ore, which, in the world, has no superior. The Eureka Iron Company has, also, in full operation at Wyandotte, a charcoal blast furnace, capable of making 3000 tons of pig iron blooms per annum. (See *Wyandotte*.)

There is also an extensive Furnace on the western boundary of Detroit, for the smelting of Copper, where the blooms are barrelled and shipped, for rolling and manufacture, to the East.

Detroit manufactures locomotives, stationary engines of all grades, steam boilers,

mill gearing of all kinds, and iron, brass, copper and tin, in all their branches; pianofortes, melodeons, and other varieties of musical instruments; cabinet furniture, in every variety and exhaustless quantities; upholstery; carriages of every class and variety, including sleighs and cutters; agricultural implements, rifles, guns, cutlery, saws, saw mills, and mathematical instruments; saddles and harness; boots, shoes and clothing, including an extensive shirt manufactory; the praise of its practical silversmiths, gold workers and jewelers, has been *trumpeted* abroad in all directions; leather and morocco, ornamental leather works; and works of *virtu*, in wax and in oil, by the daguerrean and photographic art. Its banks, breweries, bakeries, flouring mills, markets, distilleries, drug stores, dry-goods depots, and grocery stores, wine and brandy vaults, are many, and may be found recapitulated in a separate compartment of this work—(see *Advertisers' Guide*)—as, also, shipping houses, railway offices, gymnasiums, schools and colleges, churches and courts of justice, &c., &c.

There are daily newspapers in the city as follows: The Detroit Free Press, 50 Griswold street, democratic; The Detroit Advertiser, 212 Jefferson Avenue, republican; The Detroit Tribune, 36 Woodward Avenue, republican.

Each of these establishments send out tri-weekly and weekly issues.

The weeklies are: The Free Press, The Advertiser, The Tribune, The Michigan Christian Herald, The Detroit Herald, democratic, cor. Griswold and Woodbridge streets; Firemen's Journal, The Michigan Journal, (German,) The Michigan Volksblatt, (German.)

The monthlies are: The Michigan Farmer, (Agricultural,) The Ashlar, (Masonic.) The Peninsular Journal of Medicine, and The Medical Independent.

Messrs. David Preston & Co., bankers, publish, semi-monthly. "Preston's U. S. Bank Note and Commercial Reporter."

The following interesting description of the U. S. State Building, now in progress of erection, on Griswold street, is extracted from the Detroit Free Press. The building is progressing steadily, and will be really magnificent:

It is to be of stone on all four sides; three stories high above the ground, with a basement story under. The frontage on Griswold street will be 110 feet, and 60 ft.

on Larned street. The height of stories will be—basement 10 feet, first story 16 feet, second story 17 1-2 feet, third story 20 feet, and a half story over each end of the third story, adjoining the Court Room, of 10 feet high.

The basement story will contain the Post Office packing room, storage, furnace, and fuel rooms, washing rooms and water closets. The first story will be appropriated to the Post Office exclusively, and the letter boxes and drawers will occupy a frontage of 130 feet, having projecting bays for the delivery at the ends and in the centre, and a vestibule all round 20 feet wide. The second story will have the Postmaster's, Deputy's and Clerks' rooms, Custom House business room, Collector's business and private rooms, clearance and watchmen's rooms; also, rooms for the Clerk of the District Court, Inspector, and court records. The third story will contain the Court Room, 55 by 45 feet, rooms for the Grand Jury and Commissioner, District Attorney, Marshal, Deputy Marshal, lawyers' consultation room, Library, and Judge's room. Each story will contain the necessary safes and other conveniences.

The stairs will ascend on each side of the building to a corridor on each story of 14 feet width. The building will be perfectly fire-proof—the inside walls being all of brick, the roof of iron, the floor of iron girders and beams, filled with brick arches between them, the staircases of iron, the columns, pilasters, sashes, and frame-work of P. O. boxes and drawers, of ornamental iron work. The outside doors will be of iron all around, and inside folding iron shutters to all the windows. The halls and vestibules of the several stories will be paved with ornamental encaustic tiles. The walls and ceilings of vestibules, halls, Custom House and Court Rooms, will be finished in fresco.

The frontage in the Post Office will give about 4500 boxes and 500 drawers, with room sufficient, also, to double the number of boxes when necessary.

There will be an area on the two sides and rear, round the basement, with iron steps to descend to lower doors. The rooms will all be liberal in size, well heated and ventilated. The inside iron columns supporting the girders and beams of floors, will all be finished with highly enriched composite capitals.

The style of the building will be Roman,

having semi-circular doors and windows, moulded architraves, archivolt, belt courses and cornice; rusticated ashlar to the height of the second story floor, and polished ashlar above. The building will have an altitude of sixty feet above the street.

The plans, &c., have been prepared with a great deal of care and labor. They are very complete and elaborate, giving even the most minute measurements and details.

The contractor is Theodore Adams, Esq., of Harrisburg, Penn.

Detroit has now laid in her streets, probably forty-five miles of iron water-pipe, and twenty miles gas pipe, with about 500 street gas lamps.

This City is situated from Lansing, the Legislative Capitol of Michigan, 80 miles E. S. E.; 202 miles W. from Buffalo; 526 miles from Washington; in latitude  $42^{\circ}$  N., and longitude  $82^{\circ}$  W.

*De Witt*, Clinton, pop. 1,000; on the River Looking Glass, 8 miles north from Lansing. *De Witt* is the capital of Clinton County.

*Johnstown*, Barry, pop. 700.  
*Jonesville*, Hillsdale, pop. 1,200; on St. Joseph River, and on M. S. R. R., 74 miles W. of Monroe. A place of active trade.  
*Kalamazoo*, Kalamazoo, pop. 6,000, including population of township. The State Asylum for the Insane is located here. There is, also, a Baptist College and Seminary, which occupies an agreeable and elevated site. This is one of the most pleasant cities in the west, as well from the well ordered state of its government, as from the tasteful detail of the general improvements connected with the streets, squares, public and private buildings. A large number of the burr oak and other suitable trees of the original forest, have been preserved at given distances, with a view to secure an agreeable shade. This ornamental conservatism is due to the good taste and intelligence of the late Gen. Burdick. There are also several foundries and factories at Kalamazoo, which is a busy place of general industry and trade. The unexcelled agricultural back country, holds

out to the immigrant settler all desirable advantages to permanently locate. The fine power of the Kalamazoo River secures to milling and manufacturing interests peculiar advantages. Kalamazoo is midway between Detroit and Chicago, Illinois, 140 miles on the M. C. R. R. The M. S. R. R. passes its vicinity, also.

\**Kalamazoo*, Eaton, pop. 800.

*Keene*, Ionia, pop. 900.

*Lake Erie* is 250 miles in length; greatest breadth, 80 miles; mean depth, 200 feet; elevation, 555 feet; area, 6,000 square miles.

*Lake Huron* is 200 miles in length; greatest breadth, 160 miles; mean depth, 300 feet; elevation, 574 feet; area, 20,000 square miles.

*Lake Ontario* is 180 miles in length; mean breadth, 65 miles; mean depth, 500 feet; elevation, 262 feet; area, 6,006 square miles.

*Lake Michigan* is 360 miles long, 108 miles in breadth, 900 feet in mean depth, 687 feet elevated above the Ocean, an area of 20,000 square miles.

*Lake Superior* is 355 miles long; greatest breadth, 160 miles; mean depth, 988 feet; elevation, 627 feet; area, 32,000 square miles.

*Lake St Clair* is 30 miles long, 28 miles broad, about 90 miles in circumference, and containing 127 square miles.

*Lakes Interior*. The State of Michigan is interspersed with lakes throughout, too numerous to particularize—many of them, as "Orchard Lake," of great beauty. Several Lakes may be viewed from the same stand-point in some localities, and yield a poetic beauty to the surrounding land-

scape. They are all inhabited by many varieties of fish, and are the resort of large quantities of wild water fowls.

\**Lake*, Berrien, pop. 200.

*Lake*, Allegan Co.

*Lakeport*, St. Joseph.

*Lakeport*, Sanilac.

*Lakeville*, Oakland; 43 miles W. from Detroit.

*Lambertville*, Monroe.

*L'Ance*, Houghton, pop. 500.

*Lansing*, Ingham, pop. 1,858; the population in 1844 was only 88; in the year 1850 it increased to 1,229. The population at present date may be 2,000. In the year 1847, the State Capitol was erected here. There are several excellent hotels, and the town presents the usual average business, indicating a steady increase of population. It has the advantage of a central position in a fine agricultural country, and it is brought into general notice periodically, by the assembling of the members of the Senate and the House of Representatives. The State Juvenile Penitentiary is located here, the site of which embraces agricultural grounds to the amount of 22 acres. Here is also located the State Agricultural College—an Institution promising to be productive of good, far beyond our present estimate, to yet unborn generations in Michigan. The College embraces an extensive literary and scientific Faculty. (See Advertisement.) The College Farm contains upwards of 600 acres. Lansing is 110 miles N. W. from Detroit, with which it has daily communication by mail stage-coach conveyance. The Grand River, passing through Lansing, affords superior power for milling and manufacturing, and is the natural outlet of the heavy products of the surrounding country, by the North-Western forwarding lines to Chicago and the South-West. There is a daily stage from Lansing to Jackson, in connection with the M. C. R. R. Lyons is 80 miles below Lansing.

*Lapeer*, Lapeer, pop. 2,200; population nearly quadrupled in nine years.

*Marengo*, Calhoun, pop. 1,100; on Kalamazoo River, and intersected by M. C. R. R.

*Marion*, Livingston, pop. 1,000.

\**Marquette*, Marquette, pop. 1,000; near the mouth of Carp River, overlooking Lake Superior, 140 miles above St. Mary's Falls Canal. About 1,000 tons of iron ore are received for shipment every week at this village from the surrounding mines. The mountains of iron surrounding this place rise gradually to the height of 600 and 700 feet. The ore yields from 50 to 60 per cent. of the best and most ductile iron in the world. Several Company Works of magnitude have been erected here. The Sharon Iron Company have expended \$300,000 in the construction of a breakwater and wharf 1,200 feet long. The Collins Company here have forges erected, which are capable of manufacturing 2,000 tons of blooms per annum.

*Marshall*, Calhoun, pop. 4,000; on the Kalamazoo River, 107 miles west from Detroit, on M. C. R. R., 48 miles from Lansing. This is an agreeable location. The traveler, in passing or stopping to rest at Marshall, is involuntarily impressed with feelings of approbation. The *Marshall Democratic Expounder*, published here, renders good service to the city in advocating its interests and bringing it into notice at a distance. There is a busy trade.

\**Martin*, Allegan, pop. 550.  
*Mason*, Cass, pop. 650.  
*Mason*, Ingham, pop. 600; 12 miles S. E. from Lansing, on the Sycamore River.

*Milton*, Cass, pop. 700.  
*Minesota*, Ontonagon.  
*Monguagon*, Wayne, pop. 1,100. Township partly on Grosse Isle.  
*Monroe*, Monroe, pop. 5,000, including the township population. The city is pleasantly located two miles above the entrance of the River Raisin into Lake Erie. Monroe is the great market for the staple commodities of several of the southern counties of Michigan. Its commerce finds ingress and egress by a ship Canal to Lake Erie, and by the M. S. R. R.; besides which there are several plank roads leading to the city. There is a constant trading activity. A fine Court House, said to have cost \$35,000, several churches, and other public buildings, are erected here. So early as 1776, Monroe was a French village, but its American improvements and increase of population, begin to date from about the year 1835, contemporaneously with the impetus given to the American settlement of Detroit and the other old French towns of

Michigan. Monroe is connected by the Detroit, Monroe & Toledo Railway with Detroit, the line striking the Detroit & Milwaukee Railway. There are sulphur springs in the neighborhood.

\**Parma*, Jackson, pop. 1,200; about 90 miles from Detroit.

*Parshalville*, Livingston.

*Paw Paw*, Van Buren, pop. 2,500; distant from Detroit 159 miles, on the M. C. R. R. The superior agricultural resources of the surrounding country, offer to the characteristic energy of the inhabitants the promise of a rapid increase of settlers. There are several manufacturing businesses in successful operation. The M. S. R. R. also is of advantage to Paw Paw, which is the capital of Van Buren Co. It is 79 miles W. S. W. from Lansing, the capital of the State.

\**Peninsular*, Ontonagon, pop. 300.

\**Peaine*, Emmet, pop. 2,000.

*Pleasant*, Kent.

*Plumb Brook*, Macomb.

*Plymouth*, Wayne, pop. 3,000. This is a fine town, with several important manufacturing enterprises in progress; but it seems extraordinary that the State Census

Reports exhibit the decrease of its population to the amount of 51 in nine years.

\**Pokagon*, Cass, pop. 2,200; this town has settled with remarkable quickness; on M. C. R. R.

*Polkton*, Ottawa, pop. 600.

*Pontiac*, Oakland, pop. 4,000. Capital of Oakland County, so called after the renowned Indian Warrior Chief, who conspired the overthrow, by simultaneous attack, of the North-Western British garrisons, after the French surrender of Quebec and Montreal. The Detroit & Milwaukee Railway passes through this city to its northern terminus. Pontiac is an extensive market for a wealthy and thickly settled back country. The country surrounding the city is hilly and of agreeable, improved appearance, and well adapted to wool growing and the staple grains. There is considerable miling and manufacturing, in which the Clinton River affords abundant power. Pontiac is 25 miles N. by W. from Detroit.

*Portage*, Kalamazoo, pop. 800.

*Portage Lake*, Jackson.

*Porter*, Van Buren, pop. 600.

\**Porter*, Cass, pop. 2,000; rapidly increasing locality.

*Port Huron*, St. Clair, pop. 3,200. Property, here, is held at a comparatively high figure, but it marks the estimation of the place, which is destined to increase annually. It is contemplated to connect Port Huron by railroad with Grand Rapids, as it will shortly be with Detroit. Its site upon the shore of Lake Huron is agreeable and healthful. There is an immense amount of lumber conveyed there by the Black River, and its manufacture and exchange forms an important department of its trade. There is daily intercourse by steamboat with Detroit during the open season. Distance from Detroit, 57 miles N. E.

*Port Sanilac*, Sanilac.

- \**Rush*, Shiawassee, pop. 200.  
 \**Rutland*, Barry, pop. 400.  
 \**Sacket's*, Macomb.  
*St. Clair*, St. Clair, pop. 3,500; population doubled since 1845. This city, it is likely, will in a few years be the centre of a large population. The county of which it is the capital is fertile. Its exports of wheat, corn, oats, and pine lumber are considerable. There are several manufactories and extensive steamboat building. It has daily intercourse during the open season with Detroit. St. Clair is 50 miles N. E. from Detroit.  
*St. Clair River Lumber District* has 115 Saw Mills and 12 Shingle Machines; employing 1,000 hands in the mills, 2,500 in the pinerics, and 480 in rafting and loading.  
*St. Charles*, Saginaw.  
*St. Ignace*, Mackinac, pop. 400. This is almost exclusively a fishing village.  
*St. Louis*, Gratiot.  
*St. Joseph*, Berrien, pop. 950; on the eastern shore of Lake Michigan, at the mouth of St. Joseph River, 1¼ miles west of Detroit. There is a fine bridge, of great stability, here, which cost \$15,000.  
*Saginaw City*, Saginaw, pop. 4,000. This city is rapidly acquiring a high character for enterprise in the several departments of trade. Its population is desirably increasing, and to the immigrant settler the county of Saginaw offers the most desirable advantages. Large quantities of excellent lands are obtainable at the merely nominal prices of the graduated land law. There are all varieties of timbered lands obtainable. The Saginaw River is navigable for steamboats from its entrance into Lake Huron to the city, 24 miles up stream. The river, a few miles above the city, diverges into several branches which become the avenues of transport to Saginaw of the staple products of the upper and surrounding sections of country. The site of the city is elevated, healthful, and commands an agreeable view of the river. Distance from Detroit 95 miles.  
*Saginaw River Lumber District*, including the Saginaw River and all its tributaries, has now (1857) 80 Saw Mills and five Shingle Machines; employing 1,000 hands in the mills, 2,500 in the pinerics, and 500 in rafting and loading vessels.  
*Salem*, Washtenaw, pop. 1,400.  
*Saline*, Washtenaw, pop. 1,700. A pleasant village, a few miles south of Ypsilanti.  
*Sandstone*, Jackson, pop. 1,100; popu-

lation has doubled since 1845; on Sandstone Creek.

\**Sanford*, Ingham.

*Sanilac Mills*, Sanilac, pop. 600.

*Saugatuck*, Allegan.

*Saut Ste. Marie*, Chippewa, pop. 1,500. [St. Mary's Falls.] This is a point of the strait separating the Upper Peninsula of Michigan from Western Canada, and at the connection of Lake Superior with Lake Huron. A ship canal of considerable magnitude has been completed here, affording facilities which have long been desired for the passage of lake fleets, avoiding the delays and perils of the rapids. The General Government made a liberal appropriation to accomplish this desirable work. "The Falls" must necessarily attract a large settling population, who can all obtain good and cheap farms, and enjoy all wished-for facilities to transport produce to market. Geo. S. Frost, Esq., (office cor. Griswold and Congress sts.,) is Agent for the sale of these lands, as owned by the Canal Company. The advantages of the canal are of paramount importance, both to the commerce of Chicago, Milwaukee, the mining interests of the Upper Peninsula, as well as directly to Detroit and the more eastern cities. The first steamer visiting the Saut Ste. Marie was in 1839. Until the opening of this canal, merchandise was subject to transshipment at this point, and to land carriage around the Falls. In 1851, steamboats were built above the Falls to ply on Lake Superior. The Saut Ste. Marie is 440 miles north from Detroit and 15 miles on the Strait below Lake Superior. The rapids here are created by a fall of 22 feet to the mile.

*Schoolcraft*, Kalamazoo, pop. 1,300. This town is desirably located in the vicinity of Kalamazoo. The lands are unsurpassed for fertility; the village has the advantage of location on a large prairie; 15 miles from Kalamazoo.

*Scio*, Washtenaw, pop. 1,500; on M. C. R. R., 6 miles from Ann Arbor, and 43 miles from Detroit.

*Thetford*, Genesee, pop. 500.  
*Three Oaks*, Berrien.  
*Three Rivers*, St. Joseph, pop. 900; on St. Joseph River, 86 miles S. W. from Lansing. There is considerable flour manufactured here.  
*Thorn Apple*, Barry, pop. 600.  
*Thornville*, Lapeer.  
*Tipton*, Lenawee.  
\**Tittabawassee*, Saginaw, pop. 450.  
*Tompkins*, Jackson, pop. 800.  
*Traverse City*, Michilimackinac.  
*Traverse*, Grand Traverse, pop. 200.  
*Trenton*, Wayne; on Detroit river, 15 miles down stream from Detroit; population about 500. There is a large lumber and shingle manufactory here, one grist mill, and a variety of other useful branches of trade is carried on with a steady industry. This is a point where the whole steam craft of the lakes take in wood supplies. There seems to be an industrious race of settlers at this village, which in a few years will realize a large increase of population. This opinion is sustained by Mr. J. Hudson the local Postmaster.  
\**Trowbridge*, Allegan, pop. 600.

*White Oak*, Ingham, pop. 650.  
*Whitmore Lake*, Washtenaw.  
*White Pigeon*, St. Joseph, pop. 1,500 ; This thriving town has increased its population from 787 in 1845, to 1,071 in 1855. White Pigeon is on the line of the M. C. R. R. and about 120 miles from Chicago ; and about 150 from Detroit, via Kalamazoo, on the M. C. R. Road, from which the track of the Southern R. R. is but a few miles distant. This is a richly productive agricultural district of country, well wooded and watered.  
*Willow Creek*, Huron.  
*White River*, Ottawa, pop. 700.  
*Whitneyville*, Kent.

*Wright*, Ottawa, pop. 9,000.

*Wyandotte*, Wayne, This is prospectively one of the most thriving villages in the State, 10 miles below Detroit. Probably 10,000 tons of pig blooms and finished merchants' and rail road iron are annually manufactured here, and employment given to nearly 200 men. The surrounding lands are growing valuable ; and in a short time Wyandotte bids fair to be a city. Many of the only half-the-time-employed laborers of Detroit could do nothing better than settle down here, and make themselves comfortable for life. The Wyandotte Rolling Mill Company, and the Eureka Iron Company, are instrumental in laying this village as the solid foundation of a flourishing city, having invested \$150,000 in real estate and the erection of buildings.

\* *Wyoming*, Jackson.  
 \* *Wyoming Kent*, pop. 800 ; on the St. Joseph River.

*Yankee Springs*, Barry, pop. 300.  
*York*, Washtenaw, pop. 1,350.  
*Ypsilanti*, Washtenaw, pop. 3,500. This city is 30 miles west from Detroit, on M. C. R. R. It is beautifully located, divided by the clear Huron River, which moves a large quantity of milling and other machinery. There is a well-selected, sustaining back country, and the activity of general trade indicates thriving success. The State Normal School, which is a handsome and capacious building, occupying an elevated site, forms an agreeable object in the pleasing panoramic views of Ypsilanti. A trip by the M. C. R. R. to Ypsilanti and Ann Arbor, if time should not admit of proceeding further from Detroit, forms a very pleasing and health-securing excursion.

*Zealand*, Ottawa.

## TO LUMBER MANUFACTURERS.

ATTENTION IS CALLED TO

# Wilder's Clapboard Machine

FOR SPLITTING & JOINTING AT ONE OPERATION.

This Machine has been in constant use for the last three years, and is acknowledged by all to be the most valuable improvement now before the public.

It will pay for itself and right to use it in thirty days running time.

The inventor has lately made valuable improvements in the above named Machine, by which Planing, Splitting and Jointing is done at one operation. Also, with the same Machine, Planing, Tongueing and Grooving is performed. Combined, it makes all the machinery necessary for the manufacture of Flooring and Siding.

Machines manufactured to order. Persons desirous of procuring the right to manufacture or use in Town, County or State, can be accommodated. Prices to suit the times.

A. A. WILDER.

## MOREHEAD'S MAGNETIC PLASTER

The Great Strengtheners and Pain-Destroyer.

The best and cheapest Household Remedy in the world. Simple and pleasant in its application, certain in its results. A beautiful, scientific, external curative, applicable for the relief of pain at any time, in any place, in any part of the human system, and under any circumstances. If you put this Plaster anywhere, if Pain is there, the Plaster will stick there until the pain has vanished. The Plaster magnetizes the pain away, and *Pain cannot exist where this Plaster is applied.*

Rheumatism, Lameness, Stiffness, Weakness, Debility, Nervousness, Neuralgia, Dyspepsia, Coughs and Colds, Pains and Aches of every kind, down even to Corns, are immediately removed, and, with a little patience, permanently cured, by the magical influence of the Magnetic Plaster. It is the simplest, surest, safest, pleasantest and cheapest remedy in existence. Its application is universal—equally to the strong man, the delicate woman and the feeble infant. To each and all it will prove a Balm and a Blessing. Its use is agreeable, and without annoyance or trouble. Its price is within reach of all—rich or poor; all may have it, and all should have it who are sick or suffering in any way.

Farmers should always be provided with this invaluable Plaster. It will be the Good Physician in any household, ready at all times, and at an instant's notice.

Put in air-tight tin boxes. Each box will make six to eight Plasters, and any child can spread them. Price 22c. per box, with full and plain directions.

D. C. MOREHEAD, M. D.,

Inventor and Proprietor, 19, Walker Street, New York

Morehead's Magnetic Plaster is sold by all Druggists, in every City, Town and Village of the United States.

# CENTRAL RAILROAD

The Capacity of this Road is now Equal to any in the Country.

## THREE THROUGH PASSENGER TRAINS BETWEEN PITTSBURG AND PHILADELPHIA,

Connecting direct in the Union Depot, at Pittsburg, with Through Trains from all Western Cities for Philadelphia, New York, Boston, Baltimore and Washington City; thus furnishing facilities for the transportation of Passengers, unsurpassed for speed and comfort, by any other route.  Express and Fast Lines Run through to Philadelphia without change of Cars or Conductors.  Smoking Cars are attached to each train; Woodruff's Sleeping Cars to Express and Fast Trains. The Express runs Daily; Mail and Fast Line, Sundays excepted. Three Daily Trains connect direct for New York. Express and Fast Line connect for Baltimore and Washington. Six Daily Trains between Philadelphia and New York; Two Daily Trains between New York and Boston. Through Tickets (all Rail) are good on either of the above Trains.

BOAT TICKETS to Boston are good via Norwich, Fall River or Stonington Lines.

TICKETS EASTWARD may be obtained at any of the important Railroad Offices in the West; also, on board any of the regular Line of Steamboats on the Mississippi or Ohio Rivers; and TICKETS WESTWARD at the Offices of the Company in Boston, New York, Baltimore or Philadelphia.  Fare always as low as by any other Route. 

ASK FOR TICKET BY PITTSBURG.

The completion of the Western connections of the Pennsylvania Railroad to Chicago, makes this the

### DIRECT LINE BETWEEN THE EAST AND THE GREAT NORTH-WEST.

The connecting of tracks by the Railroad Bridge at Pittsburgh, avoiding all drayage or ferriage of Freight, together with the saving of time, are advantages readily appreciated by Shippers of Freight, and the Traveling Public. PARTIES SHIPPING EASTWARD, will find it to their advantage to Ship by this Route. For Freight Contract or Shipping directions, apply to, or address, either of the following Agents of the Company:

D. A. STEWART, Pittsburg; Boyle & Co., Stubenville, O.; H. S. Pierce & Co., Zanesville, O.; J. J. Johnston, Ripley, O.; R. McNeely, Maysville, Ky.; Ormsby & Crooper, Portsmouth, O.; Paddock & Co., Jeffersonville, Ind.; H. W. Brown & Co., Cincinnati, O.; Athern & Hibbert, Cincinnati, O.; R. C. Harris, Nashville, Tenn.; Harris & Hunt, Memphis, Tenn.; Clarke & Co., Chicago, Ill.; W. H. H. Koontz, Alton, Ill.; Murphy & Walle, Dubuque, Iowa; or to FREIGHT AGENTS OF RAILROADS at different points in the West.

*The Greatest Facilities offered for the Protection and Speedy Transportation of Live Stock, and good accommodations with usual privileges for persons traveling in charge thereof:*

## FREIGHTS WESTWARD.

By this Route Freights can be forwarded from Philadelphia, New York, Boston or Baltimore, to any point on the Railroads of Ohio, Kentucky, Indiana, Illinois, Wisconsin, Iowa or Missouri, by Railroad DIRECT. The Pennsylvania Railroad also connects at Pittsburg with Steamers, by which Goods can be forwarded to any port on the Ohio, Muskingum, Kentucky, Tennessee, Cumberland, Illinois, Mississippi, Wisconsin, Missouri, Kansas, Arkansas and Red Rivers; and at Cleveland, Sandusky and Chicago, with Steamers to all ports on the North-Western Waters.  Be particular to mark Packages, "VIA PENNSYLVANIA R. R."

Merchants in the West ordering Goods from the East, will do well to direct them to be shipped by this Route. Parties attending to their own Shipments from the East, will find it to their interest to call on the Agents of this Company at the following places before shipping; or letters addressed to either of them on the subject of Freights, will meet with prompt attention:

E. J. SPEEDER, Philadelphia; MAGRAW & KOONS, 80 North St., Baltimore; LEECH & CO., No. 2 Astor House, or No. 1 South Wm. Street, New York; LEECH & CO., No. 54 Kilby St., Boston.

A Watchman is stationed in the spire of the Presbyterian Church, on State street, to give alarm of fire.

The total effective Fire Brigade of the City of Detroit consists of about 600 men.

Except the Chief Engineer, the services of the Department are given gratuitously. The Brigade is in effective discipline—creditable alike to themselves and to Detroit.

#### The Library.

Within the year 1858, the Hall of the Department underwent important interior reconstruction. A Library and Reading Room organized, which are under the immediate supervisory management of M. Howard Webster, Esq.

This line of railway, which runs throughout its whole extent in Michigan, over a highly improved and very fertile border of the State, is 243 miles in length from Toledo to Chicago.

Its Branch to Monroe from Adrian is 38 miles.

Its Branch to Jackson from Adrian is 47 miles.

Its Branch to Three Rivers, via White Pigeon, is 13 miles.

Its Air Line Division from Toledo to Elkhart, is 133 miles.

Detroit, Monroe and Toledo Division, 65 miles.

Making a total of *five hundred and thirty-nine miles*. The Line maintains upon the Lakes three First Class Steamers, which connects its transportation with Eastern Companies. It is connected with Detroit by the Branch called the Detroit, Monroe and Toledo Railroad. The community have continuous Railway Lines from any of the seaboard cities on the Atlantic to Wisconsin, Minnesota, Iowa, Missouri, and before many years will have to the shores of the Pacific. [For Route and Time Table, Steamboats, &c., see Advertisement.

#### Great Western Railway.

This road runs through Canada West; terminus at Windsor, opposite Detroit.—Length of main line through Canada, via Chatham, London, Paris, Dundas, Hamilton, Niagara, 229 miles, with branch to Guelph, 28 miles, and one to Toronto from Hamilton of 38 miles.

Ferry Boat UNION from Michigan Central R. R. Depot, foot of Third street, and Detroit and Milwaukee R. R. Depot, foot of Brush street, Detroit. Also, ferry boats from foot of Woodward avenue.

This line, in connection with the Michigan Central, Detroit and Milwaukee, and Detroit and Toledo Railroads, transports to and from the East and the States of Illinois, Indiana, Iowa, Wisconsin, &c., the vast interchanging traffic, merchandise, produce and stock, to their respective markets. The G. W. Railway has opened a continuous railway communication between the remote west and the Atlantic cities, and is inestimably appreciated by the public for the winter facilities of travel, which, until the completion of this line, in January, 1854, were not existing.

The Great Western extends its passenger and transportation connections, by the

several magnificent lines of Steamers which navigate Lake Ontario and the St. Lawrence, to all the cities of Lower Canada, and to the Atlantic Seaboard, both in Canada and the United States, and connect with all the diverging railway lines through Michigan, Ohio, Pennsylvania, New York, Massachusetts and Maine. To and from St. Louis, New Orleans, and United States territories west of the Mississippi, this is a direct route from the New England states and the Canadas.

#### OFFICERS FOR 1858.

*Managing Director*, C. J. Brydges.

*Financial Director*, Thomas Reynolds.

*Secretary*, W. C. Stephens.

*Assistant Superintendents*, E. S. C. Colpoys, (at Hamilton,) and James Peacock, (at London.)

#### DIRECTORS.

In England—Robert Gill, *President*; Rear-Admiral J. M. Laws, William Goven and Thomas Cullen.

In Canada—John Young, *Vice President*; C. J. Brydges, M. D., Thomas Reynolds, F. D., Richard Juson, Henry C. R. Becher, F. W. Gates and William Dickson.

Head Offices at Hamilton, C. W.

The ticket office of the Great Western Railway is in Michinan Central R. R. Depot, foot of Third Street, Detroit.

#### Detroit and Milwaukee Railway.

This grand North-western Line, which will connect the State of Wisconsin and the more remote State of Minnesota, with the several Eastern and Southern States, as well as with the Canadas, is now in operation to Grand Haven, 185 miles, from Detroit. Trains to and from Grand Rapids depart and arrive morning and evening. One of the trains for the present, each way, will connect with Lake Michigan Steamers. When opened through, both trains will make through connections.

#### OFFICERS.

*President*, C. J. Brydges.

*Secretary*, C. C. Trowbridge.

*General Superintendent*, W. K. Muir.

*General Freight Agent*, J. A. Armstrong.

#### Detroit, Monroe and Toledo Railway.

This connection with the Mich. Southern and Northern Indiana Railroad was completed in January, 1857. It presents to Detroit and north-western Michigan a continuous line of railway to New York, Bos-

ton, Philadelphia, Cincinnati, St. Louis, Chicago, &c. The advantages to the mutual trade of those cities, as well as to agricultural interest of the States through which the lines pass, can not be overrated—nor will the success of this line, which is certain, at all affect the “paying gains” of the rival routes. In fact, the more railways judiciously constructed throughout the Union, as well as in Canada, the more prosperous will they all become. We shall have more travel, more freight to transport,

more immigration, more settlements, increased production—which latter is, of course, the source of the general success and prosperity.

The completion of the Dayton and Michigan road this season will give a direct communication with Cincinnati. The running time between that city and Detroit will be about nine hours.

OFFICERS OF THE ROAD.

*President, R. Gardner.*

*Treasurer and Secretary, H. H. Brown.*

The Proprietors of this invaluable improvement in Roofing take this method to inform the citizens of Detroit and vicinity, that they are prepared to receive all orders in this City, or from any part of the State, for putting on Roofs, or for their Roofing Material.

The undersigned, being practical Builders, have no hesitation in saying, that the Roofing Cement manufactured by them is superior to any ever brought before the public. This material, after having been applied, becomes hard and elastic; and, for what is commonly called a Flat Roof, is better and cheaper than any Tin, Metal, Sanded Cloth, or Calico Tar Roofing. It will not crack or run in the coldest or hottest weather, and is imperishable to the elements. By the manner in which these Roofs have stood the most severe tests of Fire and Water, under the most unfavorable circumstances, shows how fully they deserve all the praise that has been so liberally bestowed upon them.

Persons who are building or are about to build, will save money, and get a permanent Roof, by adopting our Roofing, as we shall offer the most liberal inducements.

The object of this advertisement is to interest those who have not become acquainted with our Roofing, to call and examine samples of our work; assuring them that we are ever ready to give all the information desired, and, when required, the best of references from those who have our Roofs in use.

All orders for Roofs or Materials, information, &c., addressed to us, Box 910, Detroit P. O., will receive prompt attention.

# THE GREATEST MEDICAL DISCOVERY OF THE AGE.

MR. KENNEDY, of Roxbury, has discovered, in one of our common pasture weeds, a remedy that cures EVERY KIND OF HUMOR, from the worst Scrofula down to a common Pimple.

He has now tried it in over Eleven Hundred Cases, and never failed except in two cases (both thunder humor.) He has now in his possession over one hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a Nursing Sore Mouth.

One to three bottles will cure the worst kind of Pimples on the Face.

Two to three bottles will clear the system of Boils.

Two bottles are warranted to cure the worst Canker in the Mouth or Stomach.

Three to five bottles are warranted to cure the worst kind of Erysipelas.

One to two bottles are warranted to cure all Humors in the Eyes.

Two bottles are warranted to cure Running at the Ears, and Blotches among the Hair.

Four to six bottles are warranted to cure Corrupt and Running Ulcers.

One bottle will cure Scaly Eruptions of the Skin.

Two or three bottles are warranted to cure the worst kind of Ringworm.

Two or three bottles are warranted to cure the most desperate case of Rheumatism.

Three to four bottles are warranted to cure Salt Rheum.

Five to eight bottles will cure the worst case of Scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

ROXBURY, MASS.

DEAR MADAM:—The reputation of the MEDICAL DISCOVERY, in curing all kinds of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skillful physicians and the most careful druggists in the country are unanimous in its praise.

In presenting the "Medical Discovery" to your notice, I do it with a full knowledge of its great curative powers, in relieving all and curing most of those diseases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother.

## NURSING SORE MOUTH,

Is cured as if by a miracle, your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers; and the "Medical Discovery" becomes a fountain of blessings to your husband and household. In the more advanced stages of

## CANKER,

It often extends to the stomach, and consequently causing

## DYSPEPSIA,

Which is nothing but canker on the stomach; then to the intestines and

## KIDNEYS,

Creating a sinking, gone feeling, and an indifference even to the cares of your family. Your stomach is

## RAW AND INFLAMED,

Your food distresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains, as the acrimonious fluid of the canker eats it up; then your complexion loses its bloom and becomes sallow or greenish, and your best day is gone. For want of nourishment, your system becomes loose and flabby, and the fibers of your body becomes relaxed. Then follow a train of diseases which the "Medical Discovery" is peculiarly adapted to

## CURE,

Palpitation of the Heart, Pain in the Side, Weakness of the Spine and Small of the Back, Pain in the Hip-joint when you retire, Irregularity of the Bowels, and also that most excruciating of diseases, the

## PILES.

How many thousands of poor women are suffering from this disease, and pining away a miserable life, and their next door neighbor does not know the cause! I wish to impress upon your mind that good old proverb, "An ounce of prevention is worth a pound of cure." In the

## "MEDICAL DISCOVERY"

You have both the preventative and the cure, with this great and good quality, that will never, under any circumstances, do you an injury.

Yours, Truly,

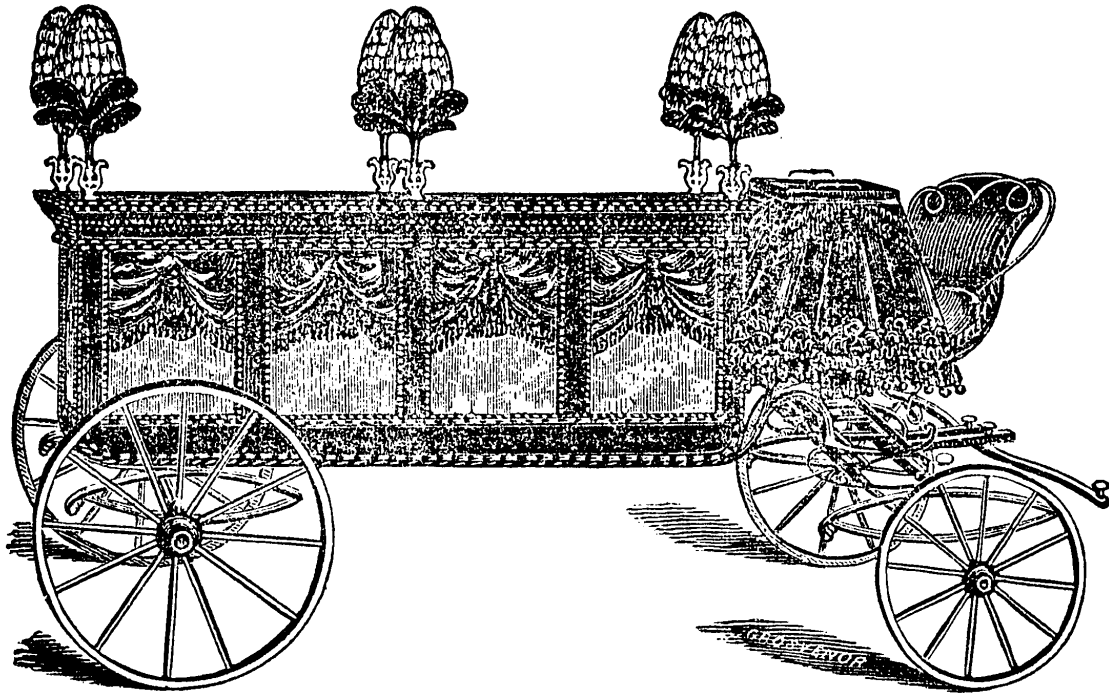

DONALD KENNEDY.

T H E  
**SUNLIGHT GAS WORKS,**  
 FOR THE MANUFACTURE OF  
**ILLUMINATING GAS,**

For the Use of

**Private Houses, Public Buildings, Villages, Towns, &c. &c.**

PATENTED, AUGUST, 1858.

The principle of this novel and Useful Invention, so important to the public, consists in the peculiar construction of the Retort, whereby Gas is most quickly, easily, and economically generated from Rosin, Rosin Oil, Tallow, and refuse Grease of any kind. By this apparatus, Gas may be produced at an expense of about EIGHTY CENTS, which will give as much light as 1000 feet of ordinary Coal Gas.

A long course of experiments at the hands of the inventor, who has had many years experience in Gas manufacturing, as well as by ourselves and others, has placed the invention beyond all doubt of its practicability. The public may be confidently assured that it is at once the most simple and useful of any thing of the kind ever before constructed.

The present object of the Proprietors is to dispose of City, County and State Rights, on the most favorable terms, and to immediately introduce the Works into general use.

Works from 100 feet capacity and upwards, are now in readiness by DUDLEY & HOLMES, manufacturers, Detroit, as well as every thing connected with the "Sunlight Gas Works," which will be supplied by them at all the principal points in the Union, to parties purchasing territory.

Persons of small capital, and particularly Gas Fitters, by making an investment in the right to use the "Sunlight Gas Works," will be certain of an immediate remuneration.

All communications in the premises directed to the undersigned, will meet prompt attention.

JOHN Q. DUDLEY,

Trustee for Proprietors, No. 77 Woodward Avenue, Detroit, Mich.

**OPINIONS OF THE PRESS.**

From the Detroit Daily Tribune, June 21, 1858.

**Important to Gas Consumers.**--We have been shown a most complete and convenient "*Portable Gas Works*," constructed by Messrs. DUDLEY & HOLMES, of this city, which, for the simplicity of its arrangements, its utility and perfect adaptation of purpose, we believe surpasses any thing of the kind ever before invented. Its novelty consists principally as we understand, in the construction of the Retort and its appendages, whereby the Gas-making materials are quickly converted into Gas, and the Retort easily and quickly cleaned. The principle of the invention is the result of a long course of study and experiments. We are told by the Proprietors, that at an expense of about eighty cents, Gas can be manufactured by these Works that will last as long and give light equal to 1000 feet of Coal Gas. The principle is adapted to works of any capacity, but is more particularly designed for Hotels, Halls, Churches, and private dwellings, out of the reach of public works. From a careful examination of the operation of these works, we are satisfied that they supply a great want in the community, and must ere long come into general use. The expense of erecting, we are assured, will be quite reasonable, and in point of economy and convenience, recommend themselves to universal favor. We look upon this as a great invention, of real utility and permanent worth—a long step in this age of progress.

From the Detroit Daily Advertiser, June 22, 1858.

**Important Invention.**--We are pleased in announcing the completion of an important invention, recently got up by Mr. ALFRED MARSH, and constructed by Messrs. Dudley & Holmes, now on exhibition every evening at their store, No. 77 Woodward Avenue. This invention is a most complete and perfect set of Portable Gas Works, of great simplicity, and admirably fitted for producing a clear and beautiful light, much superior to that now in use in this city, or, in fact, any gas light we ever saw. By this apparatus, Gas may be produced at an expense of about eighty cents, which will give as much light as one thousand feet of ordinary Coal Gas.

**Detroit Public Schools.**

The Report of the vigilant and honored President of the Board of Education for the year 1858, is very elaborate, containing a review of the history of the organization and details of the system, from the year 1842 to the present time. Like every public act of D. BETHUNE DUFFIELD, Esq., the report referred to manifests his unswerving zeal to promote the best interests of our common humanity; nor is he unmindful of the necessity of educating our youth in sound principles of national patriotism.

We regret that no provision has been made to enable us to bear the expense of publishing the Report of the Board in full in this Directory.

**The School Census.**

By the censuses taken in the month of September, 1858, we obtained the following results, viz: of children between the ages of 4 and 18 years, there were, in the

First Ward, .....	1,065
Second Ward, .....	429
Third Ward, .....	1,096
Fourth Ward, .....	1,371
Fifth Ward, .....	1,514
Sixth Ward, .....	2,126
Seventh Ward, .....	1,945
Eighth Ward, .....	1,562
Ninth Ward, .....	1,005
Tenth Ward, .....	1,025

Total, .....

13,138  
 The census of the year 1857 was 12,688, showing an increase of 450 for the year.

Of the total census above given for this year, 396 were colored children—showing an increase of this class, during the year, of fifty-five.

During the last year, several changes have been made in our schools, by closing some and opening others, which deserves notice. The following schools were discontinued by absorption into the Bishop Union when the same was opened, viz:

The primary school in Schweime's Hall, (Miss Young's,) 7th Ward; the three primary schools on Gratiot street—Miss Mackey's and Miss Taylor's in the 6th, and Miss Humphrey's in the 10th Ward; the primary school in the University building, (Miss Ensworth's,) 2nd

Ward; the Middle School on Miami avenue, [Mr. Rasset's,] 6th Ward.

In addition to the Bishop Union School, which was opened on the third day of June, 1858, two or three new primaries have been established in different parts of the city, which will appear in the total list of schools now in operation, here given.

Miss T. Whetmore, 1st grade Primary, \$250

On *Gratiot Road*—Miss Humphreys, 1st grade Primary, \$250.

By the above list it will be seen that we now number forty-two schools, and fifty-seven teachers, including assistants; showing an increase for the year of five schools and seven teachers. The total annual amount of salaries now paid is \$22,250. The average salary of each male teacher, is \$844 45 per year, and of each female teacher, \$305 20 per year.

During the past year the public will have observed two important events as having transpired: one, the initiation of a High School, for instruction in the languages, mathematics and other studies; and the other the completion and inauguration of the Bishop Union School.

\*Discontinued by the Board since the preparation of this Report, and teacher transferred to Junior Department of Bishop Union School.

[ We recognize in members of this company fit timber from which to turn out good hickory veterans. We would incidentally hint to our young friends, that no man ever yet made a superior soldier, who was not inspired largely with respect for private as well as public virtue. It may not be impertinent to recommend this well recruited company to commence a Library at their armory,—and to cultivate a deliberative and philosophic order of business in their assemblages. They should

know, that no officer is competent to *command*, who has not first learned to *obey*. On proper application to the authorities at West Point, Elementary works on Naval and Military Tactics, on Engineering, Fortification. &c., would be recommended for their study. Donations of Books, Military Gazettes, &c., might be judiciously made, and honorably accepted, for the Library room, if the institution were once organized, with a hope of its established good government.]

No communication received from any other companies. See page 201.

We wish some man more enterprising than James Dale Johnston, would publish an "Army List" of the State, to be revised annually. The work ought to be ordered by the Commander-in-chief, Governor Wisner. We have already discharged considerable printing service, without a dollar's compensation;—nay, without any expression of thanks.

#### Detroit Mechanics' Society.

##### Officers for 1859.

*President*, John Gibson.  
*Vice-President*, Frederick Buhl.  
*Secretary*, John Farrar.  
*Treasurer*, Chauncy Hurlbut.  
*Stewards*, A. C. McGraw, William Barclay, Wm. Adair, Geo. H. Shearer and A. McDuff.

#### St. Andrew's Society.—St. Patrick's Society.

We do not know which of these Celtic Societies should stand first in chronological order. We had almost forgotten to have named them at all—supposing they had become de-

funct, like the St. George's; particularly as the societies invariably ought either to officially inform us of newly elected officers, or to politely forward us—as in courtesy expected—honorary invitations to their annual festivals. We are aware, however, that Mr. ALEX. RICKIE is the Secretary of the St. Andrew's, and Mr. GEO. NESBIT is Secretary of the St. Patrick's Society. These gentlemen will cheerfully supply every requisite information.

*President*, H. B. Shank, Lansing.  
*Vice-President*, Moses Gunn, Detroit.  
*Secretary*, E. P. Christian, Wyandotte.  
*Treasurer*, J. H. Beach, Coldwater.  
 The Society meets in January, 1860, in Coldwater, Branch County.

#### Deaf, Dumb and Blind Asylum.

This institution is located at the city of Flint, Genesee County.

The exercises of the pupils before the Legislature at Lansing, at each session, are of a nature to promote a deep and heartfelt gratitude to the Creator, for the possession of the priceless faculties of sight, speech and hearing. The institution is an honor to Michigan. Professor FAX and his assistants merit great appreciation. The Legislature will never fail to liberally provide for this and similar institutions of public benevolence. It is anxiously desired by the people of the State, that the Insane Asylum at Kalamazoo shall be completed.

## THE ROBERT BURNS CENTENNIAL ANNIVERSARY.

---

### THE QUEEN OF ENGLAND'S HEALTH!

---

[A portion of the following chapter on Courtly Etiquette appeared in the Detroit Daily Tribune of the 27th January, 1859. It is printed here that the admonition may be in lasting form.]

Every intelligent man is impressed with the fact that **THE PRESS** is the great civilizing educational school-master of mankind. You will be pleased to permit me the favor of saying a few good-natured words through this instructive teacher. Civilized men and women in all parts of the world have just united with the sons of merry utilitarian Scotland in laudating their great national Bard, who so deservedly takes rank among the eminent Poets of the world. Now any man who would attempt to subtract from the universal pleasure the occasion inspired might be regarded as unwise if not ill-bred. The occasion must undoubtedly have passed off every where with unalloyed eclat. Scotsmen in America, whether citizens or sojourners, should readily appreciate the very correct delineation of the honorable position of unquestioned patriotism which Americo-Scottish Citizens occupy throughout these United States. The Hon. Duncan Stewart's happily expressed remark that Scottish American Citizen's patriotism to the land of their adoption may be partly comprehended by their "measureless love of their native land," ought to be thoroughly understood and valued. But the American people are fondly proud of their radically republican national character. And as the rule of courtesy, even in political matters, may be transposed, it is proper to admit, how commendable is the jealousy of American citizens of even seeming to be identified as recognizing Royalty, even through the politely fictitious expressions of courtly compliments.

I know that the usual, and indeed heretofore arbitrary custom, of drinking to the health of the Sovereign of England, first in order, on such occasions as the late festival, and which, it would seem, in the style of Royal Toasting, is confined exclusively to the Scottish people in America, is universally displeasing to American citizens, and especially so, to those of native birth; nor is the objection lessened on account of the sovereign complimented being a lady. The exalted domestic virtues of the Queen of England, are, in the abstract, appreciated everywhere; just as goodness is respected in contradistinction to vice; and it is quite within the privilege of everybody to drink to Victoria's health in the true character of a lady, wife and mother. The allegiance to the Queen of England as their sovereign having been annulled, by their own free will, by fully ninety-nine out of every hundred of the British foreign-born portion of the American people, it would seem to be but justly expected by American citizens that any compliment intended to be paid to any foreign Sovereign,—on account of any eminent virtue that might be possessed by him or her—should be paid in such form and manner as would not wound the sensitiveness of the American nation, comprising as it does contributions to her population from every sovereignty in the world, from Queen Victoria to the King of Ashantee. Any course different from this must, from the very nature of things, incite the expression of displeasure both from native and foreign-born citizens of America who cannot either conscientiously or approvingly recognise the official position or government of *any* Foreign Prince or Potentate, and particularly the Sove-

reign from whose jurisdiction they will have emigrated, and whose authority over them they will have respectively foresworn.

Humble American Citizen, as I am, of foreign birth, but respected by every Scotsman of my extensive acquaintance, I am assured these observations will not be unacceptable to them. It certainly elicits deserved approbation the *marked* modification of the heretofore observed style of drinking the Queen's health, which was adopted at the anniversary meeting held at the Michigan Exchange; and will, without doubt, have a tendency to place Mr. W. K. Muir, of the Great Western and Detroit and Milwaukee Railway, as well as Mr. James Black (President and Vice-President, I believe,) in an agreeable light before American Republican citizens, and enhance the esteem in which they have always been held. For, although it can never be expected to be realized that in the event of the Queen of England becoming a widow within the brief remaining period of the term of office of our respected President, Mr. Buchanan, that he could be found connecting his destiny with hers, and extend to the buxom Royal lady "*aid and comfort*," and forswear allegiance to this Republic; yet it was by no means so *malapert* the connecting his name with the British Queens in the same toast, *after* the toast of the great special occasion had been duly honored.

For myself I am not displeased in having (whether by accident or design) been placed in a position of inability to transgress against my own conceptions of propriety during the compliment paid her Majesty at the Biddle House; as, both myself and the few "*Filibusters*" who occupied places near me—Mr. Mizner, Mr. Kidd and Mr. Logan—I observed in similar circumstances—were unprovided with glasses from "*the Punch Bowl*." The *desiderata* were immediately supplied, however—*after the Queen's Health was drunk*.

Respectfully,

# THE LIVER INVIGORATOR.

PREPARED BY DR. SANDFORD,  
COMPOUNDED ENTIRELY OF GUMS,

Is one of the best Purgative and Liver Medicines now before the public, that acts as a *Cathartic*, easier, milder, and more effectual than any other medicine known. It is not only a *Cathartic* but a *Liver* remedy, acting first on the *Liver* to eject its morbid matter, then on the stomach and bowels to carry off that matter, thus accomplishing two purposes effectually, without any of those painful feelings experienced in the operations of most *Cathartics*. It strengthens the system at the same time that it purges it; and when taken daily, in moderate doses, will strengthen and build it up with unusual rapidity.

The *LIVER* is one of the principal regulators of the human body; and when it performs its functions well, the powers of the system are fully developed. The *stomach* is almost entirely dependent on the healthy action of the *Liver* for the proper performance of its functions; when the stomach is at fault, the bowels are at fault, and the whole system suffers in consequence of one organ—the *LIVER*—having ceased to do its duty. For the diseases of that organ, one of the proprietors has made it his study, in a practice of more than twenty years, to find some remedy wherewith to counteract the many derangements to which it is liable.

To prove that this remedy is at last found, any person troubled with *LIVER COMPLAINT*, in any of its forms, has but to try a bottle, and conviction is certain.

These Gums remove all morbid or bad matters from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

*BILIOUS ATTACKS* are cured, AND, WHAT IS BETTER, PREVENTED, by the occasional use of the *LIVER INVIGORATOR*.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring prevents *NIGHTMARE*.

Only one dose at night loosens the bowels gently, and cures *COSTIVENESS*.

One dose taken after each meal will cure *DYSPEPSIA*.

☞ One dose of two teaspoonsful will always relieve *SICK HEADACHE*.

One bottle taken for female obstruction removes the cause of the disease, and makes a perfect cure.

Only one dose immediately relieves *CHOLIC*, while

One dose often repeated is a sure cure for *CHOLERA MORBUS*, and a preventive of *CHOLERA*.

☞ Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

☞ One bottle taken for *JAUNDICE* removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite, and makes food digest well.

One dose often repeated cures *CHRONIC DIARRHŒA* in its worst forms, while *Summer* and *Bowel* complaints yield almost to the first dose.

One or two doses cures attacks caused by *Worms* in children: there is no surer, safer, or speedier remedy in the world, as it *never fails*.

☞ A few bottles cures *Dropsy*, by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for *Fever and Ague*, *Chill Fever*, and all *Fevers* of a *Bilious Type*. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

ALL WHO USE IT ARE GIVING THEIR UNANIMOUS TESTIMONY IN ITS BEHALF.

Mix water in the mouth with the Invigorator and swallow both together.

## THE LIVER INVIGORATOR

Is a *SCIENTIFIC MEDICAL DISCOVERY*, and is daily working cures almost too great to believe. It cures as if by magic, *even the first dose giving benefit*, and seldom more than one bottle is required to cure any kind of *Liver Complaint*, from the worst *Jaundice* or *Dyspepsia* to a common *Headache*, all of which are the result of a *Diseased Liver*. Price **\$1.00** per bottle.

### Whisky—A Bane and an Antidote.

A little real good liquor, wine or ale, at times, we think very useful to health and cheerfulness. So thought old John Wesley, who gives his opinions very honestly in his *Materia Medica*. There are many diseases abated by their use; for instance, there is scarcely anything better to promote healthy urinary discharges than doses of good gin. There are a great many adulterated liquors, however, and legislation should be vigilant to employ an efficient oversight of the manufacture of all wines, ales and liquors. State and municipal excise officers should be appointed and specimens of these fermented and distilled liquors should be submitted to analytical tests, and a heavy penalty imposed on any manufacturer who should employ any deliterious agents. Alcohol simply, reduced in the process of rectifying is a healthful stimulant when taken medicinally. "The drunkard and the glutton shall come to poverty, and drowsiness or sloth shall cover a man with rags;" so said King Solomon, so say we all. But Solomon also said that "*wine made glad the heart of man*"—to be sure he also said "wine was a mocker, strong drink raging, and that he who suffered himself to be deceived thereby was not wise." For ourselves, we carefully avoid running headlong on any fanatical railway track of public excitement. We prefer to prove all things and hold fast that that is good." Some may sneer at us for being somewhat scriptural—we care very little—indeed nothing at all, about such sneering—for we have determined with the conviction of our hearts, our judgment and intelligence, to live and die a Christian. We regard it, however, as very foolish and impertinent to the honest opinion of mankind, that laws should be created to pronounce what men and women shall eat and drink. The Maine law, so called, is perfectly arbitrary, and consequently unconstitutional—and being treated contemptuously, by the masses, the sooner it is removed from the statute book of our State the better. Because some men and women get drunk, is that a reason why no sensible man or woman may have access to wines, brandies, gins, ales &c. If some men and women commit murder are all mankind to be annihilated to prevent the crime being committed; all the bowie-knives, and every piece of sharpened steel, and all the Colt's revolvers, bullets and powder in the world to be cast into the abyss of ocean? Because some men, and women, are seducers, are the sexes to be kept apart in the ordinary pursuits of life; or probably the better way would be to emasculate the whole race, if not wholly destroy the human family? How such egregious laws so offensive to good common sense should be enacted in the enlightened age of the world in which we live, is a riddle to us indeed! Let this law be repealed, and a good license law be enacted, with an efficient excise and police to enforce obedience, and matters will be much more like the *rationale* of good government and social civilization. We are not amongst those squeamish description of Christians who will not bring their faith up to the point of admitting that Christ made superior wine out of water at the marriage in Galilee—one pint of which every day we should regard as a very comfortable adjunct to our humble repast. But since we cannot get wine presented to us by miracle—although the annual product of the grape is miraculous, as is every display of the productions of earth around us—yet let us diligently cultivate the grape, and enjoy ourselves with a *sobriety* of comfort—none daring to make us afraid. Let no one suppose we have been bribed to write this article by the present of a gold watch or a jug of whisky. All who know us know we just say and do as we please, and that we respect Him who was called "a winebibber, a gluttonous man, a friend of publicans and sinners." "Wisdom is justified of her children!"

### Street Map.

We have in progress of engraving a neat street map, and we should be glad to see our street Directory revised by the City Surveyor. Many streets have duplicate names, and many require to be extended.

### Foreign Insurance Companies.

We have heard some queer sayings and doings about certain foreign insurance companies. If they are solvent they ought to pay their engagements. A story of delinquencies will soon leak out in which some of these sharks will not figure creditably. The undoubtedly solvent American companies that are represented by gentlemen of known integrity in Detroit, should be respected by every citizen valuing the prompt and satisfactory liquidation of their claims. A word to the wise is sufficient.
