The manufactory of Messrs. H. P. Baldwin & Co. is without exception the most complete establishment of the kind in the United States. It is situated on the northwest corner of Woodbridge and Bates streets, is forty by one hundred feet, and five stories high. The most approved machinery invented has been introduced, which could in any manner expedite or assist the labor. The soles and uppers, for either boots or shoes, are cut by dies worked by machinery, and the seams are also sewed by machinery. They are then fitted together by hand, and the soles are fitted on by machinery; among the most interesting features of the establishment are the pegging and sewing machines, which will peg or sew a boot or shoe in fifteen seconds, and in a manner superior to that done by hand. More than two hundred and fifty persons are employed in the building. It is an establishment of which Detroit is deservedly proud, and one which reflects the highest credit upon the enterprising firm who have constructed it. Messrs. Baldwin & Co. are now in a condition to compete successfully with any Eastern *Manufacturer*.—EDITOR.

PREFACE.

The publication of the CITY DIRECTORY has been delayed somewhat beyond the usual time, for which no apology will be needed, as the most of the patrons are aware of the circumstances which caused it. The present (the fifth) Volume will compare favorably with any previous number, and as to correctness of detail, or mechanical execution, with any Directory published in the United States.

While no pains or expense has been spared by the publisher to make the GENERAL Directory complete and reliable, no names have been printed in the Business Directory except those who contributed in some way to the support of the work. This is but just—and any person disposed to complain will appreciate, if the advertisement in the Business Directory is worth anything—it is worth as much to the publisher as to the advertiser, and should be paid for. Those who have *no* desire to advertise will not be the losers thereby; while those who have, have taken advantage of this means, which they deem most valuable.

In looking through the files of the Directories, running back for a good number of years, the many changes which have taken place are fully realized. We have before us a copy of the "Directory of the City of Detroit and its Environs," published by Julius P. Boliver MacCabe, in the year 1837, printed by William Harsha, (whose name appears in our present volume). It is a book of 150 pages, about half the size of the present work. Of these 42 are devoted to advertising. We find here the advertisement of J. L. King and Horace Hallock, dealers in ready-made clothing, who are now engaged in the same branch of business and in nearly the same localities. A. C. McGraw then advertised boots and shoes at 106 Jefferson avenue, and Solomon Davis his brass foundry at the identical shop where he now does business. John Palmer then solicited insurance in the Ætna Co. of Hartford, and J. W. Tillman announced that he had opened a furnishing warehouse at 67 Jefferson avenue. F. & C. H. Buhl were hat and cap manufacturers, at 111 Jefferson avenue; Hon. Z. Chandler, general merchant, at 130 Jefferson avenue; Hon. John Owen, grocer and druggist, at 82 Jefferson avenue; David Cooper, dry goods, at 80 Jefferson avenue, and Mason Palmer, at 96 Jefferson avenue; Franklin Moore & Co., grocers, 12 Woodward avenue, and E. Bingham & Co., grocers and druggists, at 112 Jefferson avenue. Hon. Elon Farnsworth was then Chancellor of Michigan; Hon. A. D. Frazer, City Recorder; Henry N. Walker, Gen. A. S. Williams, Theo. Romeyn and George E. Hand were Attorneys-at-Law; Hon. Daniel Goodwin was U. S. District Attorney; Hon. B. F. H.

Witherell, David E. Harbaugh, Charles Moran and John W. Strong were Justices of the Peace; Levi Cook, Esq., was Mayor, and Thomas Palmer, John Farrar, David Cooper and John Owen were Aldermen. We find the names of C. C. Trowbridge, Dr. Pitcher, Shubael Conant, E. A. Brush, John M. Berrien, Hon. J. M. Howard, Francis Raymond, George B. Russell, Alanson Sheley, James A. Armstrong, William Stead, Jonas H. Titus, M. Howard Webster, J. L. Whiting, Rt. Rev. S. A. McCoskry, Alexander Buel, George G. Bull, Cullen Brown and others, whose names appear in the present volume, and many who still live in the memory of our citizens, though they have "long since been gathered to their fathers."

The following Banks were in operation at that time: Bank of Michigan, capital \$850,000; Farmers' and Mechanics' Bank, capital \$700,000, and the Michigan State Bank, capital \$500,000.

The Detroit Daily Advertiser was published by George L. Whitney and edited by George Corselius. The Detroit Daily Free Press was published by Bagg, Barns & Co., and edited by John S. Bagg.

The Ladies' Protestant Orphan Asylum was then conducted by Mrs. C. C. Trowbridge, Mrs. Robert Stuart and Mrs. Thomas Palmer. The Young Men's Society was in a flourishing condition, having 300 members and 600 volumes in the library. George E. Hand was President, and Francis Raymond was Secretary.

There were no Railroads in operation in the State at that time. The Detroit and St. Joseph (now the M. C. R. R.), chartered to run to Lake Michigan, had forty miles under contract, thirty miles to be completed in the summer of 1837. The Detroit and Pontiac (now the D. & M. R. R.) was also chartered, and twelve and one-half miles were under contract to be completed in spring of 1838.

The population was stated "at that moment" to be 9,763. It cannot be less than 70,000 at the present time, having increased nearly, if not quite, 5,000 during the past year.

The progress which the city is now making is most creditable, and cannot but be gratifying to all who have a desire to see Detroit one of the leading cities of the West.

We thank the patrons of the work for the interest they have shown in supporting the Regular Edition, and trust they will not be disappointed in the results which they anticipated.

We shall not fail another year to produce the work promptly and in the same commendable style as the present volume.

The HEATING STOVES will heat Offices, Parlors, Bedrooms, Bathrooms, &c. They can be connected with the ordinary gas pipe at slight expense.

The KEROSENE COOKING STOVES will do all kinds of cooking, heat flat irons, etc., and can be used for all mechanical purposes. They burn pure kerosene oil out of the Ambrose Patent Burner, and there is no danger attached to their use. They have been introduced in the West for over a year, and are much liked.

Both the Gas and Kerosene Cooking Stoves are so constructed as to radiate but little heat, thereby affording great comfort in their use during hot weather.

The prices range from \$3.50 to \$20.00.

The AMBROSE PATENT KEROSENE LAMP is used by all Railroads leading out of New York, and several out of Chicago, and by thousands of private families all over the country.

HARDWARE**STOVES, IRON AND NAILS.**

Also, Manufacturer of Tin, Copper and Sheet Iron Ware.

John Baumeister's Patent Water-Heater is the Greatest
Improvement on a Cooking Stove ever made.

It is the most useful article in every Household. Every-
body should have it.

If anybody tries it and becomes acquainted with its advantages, they will not like to be without it any more.

The water heater supplies you with *warm water all day*, by heat which would otherwise escape without any benefit being derived from it. It heats your room just as much as the stove itself, and

SAVES FIFTY PER CENT. IN FUEL.

Being made out of one piece, IT DON'T GET DAMAGED BY HEAT IF EMPTY. You can empty it easy, and clean it without any trouble.

It occupies no room on the stove plate—a great advantage in cooking, washing and ironing—but is put in the place of the stove pipe.

It can easily be applied to any stove, and is an ornament for the same.

WESTERN BRANCH
OF THE
NEW YORK LIFE
INSURANCE COMPANY,
No. 75 Griswold Street, Detroit.

PARENT OFFICE, NOS. 112 AND 114 BROADWAY, NEW YORK.

On the first day of January, 1866, this Company declared a dividend of *Fifty per cent.*, and paid off all former dividends declared and unpaid, from the organization of the Company to January 1st, 1865, and after reserving a Reinsurance Fund, sufficient to purchase of the assured every policy on their books, added over

ONE AND A QUARTER MILLION OF DOLLARS

To their capital. This is doing more than any other Company has ever done in one year.

To those policy holders who pay all Cash, the dividends will be paid in Cash; and those who receive a credit of 40 per cent., in anticipation of the dividends, will have this credit canceled, by the dividends.

In the New York Life no notes are required, but credits are given, if desired, for 40 per cent. of the premium—thus enabling a party to insure for nearly double the amount he could in any other company, whose members are not liable to an additional charge or assessment, for the same amount of *Cash* payments.

In this Company suicide does not cause a forfeiture of the policy, that being considered an evidence of insanity, and insanity the result of disease. By this, the thousand queries arising from *Accidental Death* are swept away.

The NEW YORK LIFE INSURANCE CO. took in more *Cash* for Insurance during the last year, than any other Company in the United States, *Who give Credit for any part of the Premium.*

PURELY MUTUAL LIFE INSURANCE.

NEW-YORK LIFE INSURANCE CO.

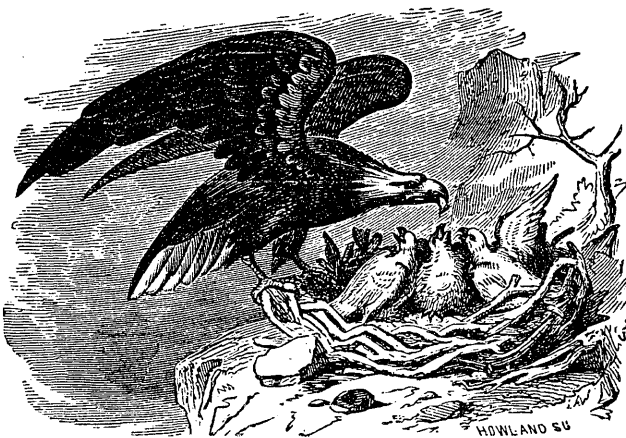

ESTABLISHED 1845.

HOME OFFICE, 112 & 114 BROADWAY, N. Y.

ASSETS, OVER \$5,000,000.

SECURELY INVESTED.

A Policy of Life Insurance is always an evidence of prudent forethought, and no man with a dependent family is free from reproach if his life is not insured. — The late Lord Lyndhurst, Chancellor of England.

There is nothing in the commercial world which approaches, even remotely, to the security of a well established & prudently managed Life Insurance Company.
DeMorgan.

This is one of the Oldest, Safest, and most successful Life Insurance Companies in the United States and offers advantages not excelled, and, in some respects, not equalled by any other. It has paid to widows and orphans of the assured over THREE MILLION DOLLARS. Its Trustees in New-York City are of the very first and most reliable names. It is strictly MUTUAL.

The Policy Holders Receiving the Entire Profits.

Special care in the selection of its risks, strict economy, and a safe and judicious investment of its funds, emphatically characterize the management of this Company.

Premiums received Quarterly, Semi-Annually or Annually, at the option of the assured. Policies issued in all the various forms, of Whole Life, Short Term, Endowment, Annuity, &c.

DIVIDENDS DECLARED ANNUALLY.

FOR 1866, FIFTY PER CENT.

The mortality among its members has been proportionately less than that of any other Life Insurance Company in America—a result consequent on a most careful and judicious selection of lives, and one of great importance to policy-holders. It offers to the assured the most abundant security in a large accumulated fund, amounting now to over FIVE MILLION DOLLARS.

It accommodates its members in the settlement of their premiums, by receiving a note for a part of the amount when desired; thus furnishing Insurance for nearly double the amount for about the same cash payment as is required in an "all cash Company."

The NEW FEATURE in Life Assurance, recently introduced by this Company, of issuing

LIFE POLICIES NOT SUBJECT TO FORFEITURE,

is regarded with universal favor, and annihilates the only argument of any weight which can possibly be brought against the system of Life Insurance.

TABLE OF PREMIUMS

For a Non-Forfeiture Policy, requiring only Ten Annual Premiums to secure \$1,000 at the Death of the Assured.

27	48.05	37	59.15				

A credit of twenty per cent. is given on this table if desired. The current New-York rate of interest upon these credits is required to be paid annually until they are cancelled by dividends, or paid off by the assured.

The following is a summary of the Company's business for the year 1865:

5,138 New Policies Issued, Insuring \$16,324,888.00

<i>Income from Premiums and Interest</i>	\$2,342,065.40
<i>Disbursements for Losses, Dividends and Expenses</i>	1,118,901.25

BALANCE IN FAVOR OF POLICY HOLDERS,

Who are the only Stockholders in the Company, and receive all the Profits,

\$1,223,164 ¹⁵/₁₀₀

Dividend declared, January, 1866, Fifty per cent.

D I V I D E N D S .

The business of the Company being STRICTLY MUTUAL, all the surplus is annually divided among the policy-holders. (*Companies having a stock-capital usually retain a large portion for the stock-holders.*)

Dividends are declared on all participating policies, which have existed twelve months prior to the first day of January in each year, and upon which more than one full years' premium has been paid.

Dividends of return-premiums on this class of policies will be computed upon the ordinary life table-rates, and continued during the existence of the policy.

Each dividend is redeemed in two years from the time it is declared. If the assured has availed himself of the credit, the dividend, when redeemed, is applied to the payment thereof; otherwise it is paid to him in cash.

THE NEW-YORK LIFE INSURANCE CO.

Originated and introduced the New Feature, known as

THE NON-FORFEITURE PLAN

which is rapidly superseding the system of life-long payments, and *has revolutionized the system of Life Insurance in the United States*, and which has been adopted (generally in a less favorable form) by all Life Companies; thus attesting the force of public opinion in favor of a system so favorable to policy holders as that *established by the NEW YORK LIFE for the benefit of its members*. It has received the *unqualified approval of the best business men of the land*, large numbers of whom have taken out policies under it, simply as an investment.

By this table the insurer may cease paying at any time after two years, without forfeiture of past premiums, and at the

END OF TEN YEARS ALL PAYMENTS CEASE ENTIRELY,

and the policy thenceforward becomes a source of income to him. To secure this result the annual rate of insurance must, of course, be somewhat higher. But almost any person in active business would greatly prefer paying a higher rate for a limited time and be done with it, to incurring a life-long obligation, however small.

By the table on which this class of policies is based, a person incurs no risk in taking out a policy. Insuring to-day for \$10,000, if he should die to-morrow the \$10,000 immediately becomes a claim; and if he should live ten years, and make ten annual payments, his policy is paid up—nothing more to pay, and still his dividends *continue*, making

HIS LIFE POLICY

A SOURCE OF INCOME TO HIM WHILE LIVING.

The only weighty argument offered against Life Insurance is, that a party might pay in for a number of years, and then, by inadvertence, inability, &c., be unable to continue paying, thereby losing all he had paid. The "New-York Life" has obviated this objection by its

TEN YEAR NON-FORFEITURE PLAN.

A PARTY, BY THIS TABLE, AFTER THE SECOND YEAR,

Cannot Forfeit any Part of what has been Paid in.

Thus, if one insuring by this plan for \$10,000, discontinues after the second year, he is entitled to A PAID-UP POLICY, according to the number of years paid in, viz.:

Second year, two-tenths of \$10,000 (am't ins'd), amounting to \$2,000, with dividend on same for life.				
Third year, three-tenths of " " " " " " " "	3,000,	"	"	"
Fourth year, four-tenths of " " " " " " " "	4,000,	"	"	"
Fifth year, five-tenths of " " " " " " " "	5,000,	"	"	"

And so on, until the tenth annual payment, *when all is paid*, and *dividends still continue during the life-time of the assured*.

This feature, among others, has given to this Company a success unparalleled in the history of Life Insurance.

TO THE PUBLIC.

For five years the publisher of the Directory advertised, under classified heads, the entire mass of the business community ; the larger proportion of whom have steadily refused to support the work, under the plea that *it is of no use to them*. Tired of such un-recompensing, and, if this large number of persons are to be believed, *useless* labor, the publisher places in the Business Directory only the names of such persons as extend patronage to the volume, convinced that *those who contribute yearly to the permanency of the publication are justly entitled to all such incidental advantages as the scope of the volume affords, over those who find no individual use in the publication*.

By this course the value of the volume is not in the slightest degree lessened as a book of reference, the names of all citizens being found in the General Directory, under their proper letter, to which all persons desiring to find them will naturally turn. The sole difference being in the fact that strangers, desiring to visit among particular classes of business, will be, in the Business Directory, referred to such only as are supporters of the Directory ; *merely a slight business advantage, eagerly seized on by enterprising business houses, however, and likely to repay largely the small price for a year's subscription to the book ; but to such as have no use for a directory, an undesirable matter*.
