The Publisher of THE DETROIT CITY DIRECTORY deems it but proper to add a few words to the card of Messrs. H. P. BALDWIN & Co., which appears above. This house affords palpable evidence of the success which almost always crowns a steady and earnest pursuit of a legitimate enterprise, having been established on a comparatively small basis, over thirty years ago, until it has grown to be one of the most extensive manufacturing establishments in the West, giving employment to hundreds in Detroit as operatives, and using the products of Michigan in manufacturing. After July 1st, 1867, Messrs. H. P. BALDWIN & Co. will remove their manufactory to the upper part of the building formerly known as the Merchants Exchange, corner of Woodbridge and Griswold streets, adjoining their present warerooms. This house continues to pay particular attention to the manufacture of their warranted hand made boots and shoes so long and favorably known throughout the West. Michigan dealers should patronize Michigan manufactories.—EDITOR.

PREFACE.

We present to the public the sixth volume of our Annual City Directory, with the conviction that it will compare in every respect with any volume that we have heretofore published, or with similar publications of other cities. We believe it to be as correct and reliable as it were possible to make it, with a population speaking so many different languages. No expense or labor has been spared to make it so, and errors which may have occurred (as they always will), have been owing to circumstances which we could not control.

A much larger list of names will be found in this volume than any previous one, which shows truthfully that our city is progressing rapidly as regards population, and the vast number of improvements in various quarters proves that this increase is real and not temporary. These facts can but be gratifying to all enterprising citizens.

The advertising department this year has been under the direction of Mr. J. W. Weeks, and we desire to express our thanks to the patrons of the work for the interest they have shown in supporting us in its publication, and trust that they may receive a full reward for their various investments, by an increase of their business.

With the new arrangement of designating streets by numbers in the western portion of the city (and with the trust that before another year the dwellings will be re-numbered), we hope to produce still more satisfactory editions in the future than in the past.

CHARLES F. CLARK,
Publisher.

ADVANTAGES PECULIAR TO THIS COMPANY:

Every intelligent business man, knowing the vicissitudes of trade and commerce, can readily see the importance of the Cash System, with accumulating Dividends, adopted by this Company.

The value of the Policy is not consumed by PREMIUM NOTES; on the contrary, it is steadily accumulating, and in a few years acquires a self-sustaining power; it becomes a resource like a Savings Bank, which the assured can apply either to procure a paid up Policy, to procure cash for the surrender value, to borrow upon, to keep the insurance in force, or to pay premiums on taking out an additional insurance.

To sound an alarm for fire, first open the circuit, which is done by turning the small handle off from the button near the centre of the instrument board; this will cause the hammer to sound upon the gong, showing that the instrument is in circuit and the line in working order.

Then with the key at the bottom of the instrument board sound ten (10), which is an alarm for fire, then pause, and then sound the number of the box.

These must be given three times in the order stated, as follows :

Sound the alarm 1 1 1 1 1 1 1 1 1 (pause).

If the number of the box is 24, sound 1 1 (pause), 1 1 1 1, or if the number of the box is 43, sound 1 1 1 1 (pause) 1 1 1.

The pauses should be but about two seconds, or the time in which a person would ordinarily count three.

Care should be taken that the operation is distinct and at regular intervals.

After sounding the alarm and the number of the box as above directed, wait a few moments, and if it has not been distinctly understood, a call may be made from some other locality for "repeat," which is 231, thus: 1 1 (pause) 1 1 1 (pause) 1. This being heard in the instrument, the alarm and number of the box must all be given again, as first directed.

Before locking the box, close the circuit, by turning the small handle on to the button near the centre of the instrument board; this must in all cases be done, and in no event must the circuit be left open.

The boxes must not be opened except to sound an alarm for fire, and persons who are entrusted with the keys to the boxes are requested to report to the office of the Board of Fire Commissioners when any accident occurs either to the instruments or boxes, or if any unauthorized persons are found tampering with them.

John Baumeister's Patent Water Heater is the Greatest Improvement on a Cooking Stove ever made.

It is the most useful article in every Household. Every-body should have it.

If anybody tries it and becomes acquainted with its advantages, they will not like to be without it any more.

The water heater supplies you with *warm water all day*, by heat which would otherwise escape without any benefit being derived from it. It heats your room just as much as the stove itself, and

SAVES FIFTY PER CENT. IN FUEL.

Being made out of one piece, IT DON'T GET DAMAGED BY HEAT IF EMPTY. You can empty it easy, and clean it without any trouble.

It occupies no room on the stove plate—a great advantage in cooking, washing and ironing—but is put in the place of the stove pipe.

It can easily be applied to any stove, and is an ornament for the same.

WESTERN BRANCH
OF THE
New York Life Ins. Co.,
NO. 75 GRISWOLD STREET, DETROIT.

PARENT OFFICE, NOS. 112 AND 114 BROADWAY, NEW YORK.

This is one of the Oldest, Safest, and most successful Life Insurance Companies in the United States, and offers advantages not excelled, and, in some respects, not equaled, by any other. It has paid to widows and orphans of the assured over FOUR MILLION DOLLARS. Its Trustees in New York City are of the very first and most reliable names. It is strictly MUTUAL,

THE POLICY HOLDERS RECEIVING THE ENTIRE PROFITS.

Special care in the selection of its risks, strict economy, and a safe and judicious investment of its funds, emphatically characterize the management of this Company.

Premiums received Quarterly, Semi-Annually, or Annually, at the option of the assured. Policies issued in all the various forms of Whole Life, Short Term, Endowment, Annuity, etc.

DIVIDENDS DECLARED ANNUALLY. FOR 1867, FIFTY PER CENT.

The mortality among its members has been proportionately less than that of any other Life Insurance Company in America—a result consequent on a most careful and judicious selection of lives, and one of great importance to policyholders. It offers to the assured the most abundant security, in a large accumulated fund, amounting now to over SEVEN MILLION DOLLARS. It accommodates its members in the settlement of their premiums, by receiving a note for a part of the amount when desired; thus furnishing insurance for nearly double the amount for about the same cash payment as is required in an "All Cash Company."

The New Feature in Life Assurance, recently introduced by this Company, of issuing

LIFE POLICIES NOT SUBJECT TO FORFEITURE,

is regarded with universal favor, and annihilates the only argument of any weight which can possibly be brought against the system of Life Insurance. In this Company, suicide does not cause a forfeiture of the policy, that being considered an evidence of insanity, and insanity the result of disease. By this, the thousand queries arising from *Accidental Death* are swept away.

The NEW YORK LIFE INSURANCE CO. took in more Cash for Insurance during the last year than any other Company in the United States, who give Credit for any part of the Premium.

Applications for General or District Agencies must be made to

Superintendent of Agencies for the United States.

Plastic Slate Roofing

AND

CONCRETE PAVING COMPANY,

Are prepared to construct Sidewalks of the Concrete Paving Material, specimens of which may be seen in many parts of the City, as most of the walks now being made are of this material. Also, to

Roof all kinds of Buildings with Plastic Slate,

Which is a combination of Pulverized Slate and viscous matter (the latter possessing qualities of geological and chemical affinity for the former), and is a development of one of the simple but unalterable tendencies of nature.

AS ROOFING MATERIAL IT STANDS UNRIVALED!

A Mastic, it adapts itself to every shape and slope—non-combustible, impervious, non-expansive and undecaying.

FROST DOES NOT CRACK NOR HEAT DISSOLVE IT.

The only Roofing Material ever discovered that will resist the action of the elements as long as the structure it protects, being susceptible of little if any wear from exposure, and perfectly fire-proof.

23 John R Street, corner Miami Avenue.

N. B.—Those having defective roofs of any kind can have them repaired with the Plastic Slate, made Water-tight and Fire-proof, on short notice and reasonable terms, by applying to the Plastic Slate Roofing Company.

ANNUAL CASH DIVIDENDS, AVERAGE FOR THE PAST FOUR YEARS,
FORTY-FOUR PER CENT. OF THE ANNUAL LIFE RATE,

Adding in many cases to the Policy MORE THAN THE PREMIUM PAID, and on Endowment and 10 Annual Payment Policies from 60 to 120 per cent. of the *Annual Life Rate*; being, with the reduction in rate, a larger Dividend than has ever been paid by any Note Company.

THE NON-FORFEITURE PRINCIPLE.

In most Companies, Annual Life and Endowment policies are forfeited at once on the cessation of payments; in the BERKSHIRE the life of the Policy is continued in full force for a length of time nearly or quite equal to the time that has already elapsed since the Policy was issued. Thus, FIVE PAYMENTS at the age of 35 will continue it five years and fifty-six days after the Policy would have been forfeited in other Companies.

NORTH AMERICA LIFE INSURANCE CO.

OF NEW YORK.

ASSETS OVER \$11,000,000.

This Company Issues Policies on More Favorable Terms than any other Company.

NOTE THE DISTINCTIVE FEATURES OF THIS COMPANY.—ALL OUR LIFE AND ENDOWMENT POLICIES ARE NON-FORFEITING after three Annual Premiums have been paid, to the *whole amount* paid to the Company. THIRTY DAYS OF GRACE allowed on any renewal payment, and the insurance continued during that time. NO RESTRICTIONS ON TRAVEL in the United States or any part of North America, north of the Southern Cape of Florida, or in Europe at any season of the year. No EXTRA CHARGE in consequence of change of employment after the policy is issued. COMPENSATION granted to the assured in case of accident by traveling.

In addition to the security heretofore offered we call particular attention to the following:

By a recent Act of the Legislature of the State of New York, the Company is authorized to make Special Deposits with the Superintendent of the Insurance Department, and receive therefor Registered Policies, bearing the Seal of the Department, and a Certificate that the Policy is secured by pledge of Public Stocks under a Special Trust, created by an Act of the Legislature in favor of the "NORTH AMERICA LIFE INSURANCE COMPANY" exclusively. This makes every Registered Policy as secure to the holder as a National Bank note or a United States Bond.

Extract from a published letter from Hon. ELIZUR WRIGHT, Insurance Commissioner of Massachusetts: "Doubtless a Company might give other guarantees, and possibly others more complete if not more sure; but it may be questioned whether one has ever done so. At all events it may be safely affirmed that when the credit of a rich and powerful State is pledged to secure the integrity of the reserve fund, the danger peculiar to Life Insurance is removed, and it becomes, under the ordinary vigilance of those interested, safer against mismanagement or fraud than almost any other financial institution."

DIVIDEND JANUARY 1, 1867, 40 PER CENT.

Dividends declared annually and paid in three years. They may be applied in reducing the Annual Premium or increasing the amount insured. Dividends are based upon the actual rates paid year by year or upon the ordinary life rates, continuing during the existence of the policy, at the option of the insured party.

PLAN OF THE "NORTH AMERICA."

UPON ANY OF THE TABLE RATES a loan or credit of one-third of the premium will be given when it amounts to \$40 or more; such loan can be canceled by the profits or dividends. Thus the ACTUAL CASH required will be only two-thirds the table rates with the interest on the loan.

No charge is made for policy or stamp. Premiums may be paid annually, semi-annually, thrice-annually, or quarterly.

DETROIT BUSINESS DIRECTORY.

TO THE PUBLIC.

For six years the publisher of the Directory advertised, under classified heads, the entire mass of the business community; the larger proportion of whom have steadily refused to support the work, under the plea that *it is of no use to them*. Tired of such unrecompensing, and, if this large number of persons are to be believed, *useless* labor, the publisher places in the Business Directory only the names of such persons as extend patronage to the volume, convinced that *those who contribute yearly to the permanency of the publication are justly entitled to all such incidental advantages as the scope of the volume affords, over those who find no individual use in the publication*:

By this course the value of the volume is not in the slightest degree lessened as a book of reference, the names of all citizens being found in the General Directory, under their proper letter, to which all persons desiring to find them will naturally turn. The sole difference being in the fact that strangers, desiring to visit among particular classes of business, will be, in the Business Directory, referred to such only as are supporters of the Directory; *merely a slight business advantage, eagerly seized on by enterprising business houses, however, and likely to repay largely the small price for a year's subscription to the book; but to such as have no use for a Directory, an undesirable matter.*
