## PREFACE

---

**W**E herewith present to the public the Tenth Volume of our annual Directory of the City of Detroit, which, we trust, will be found as correct and reliable as any of our previous editions. To say that it does not contain errors would be presumptuous, for, with an experience of ten years we find it impossible to be infallible even in the publication of a city directory, still we have spared no pains either in expense or labor to make it as correct as possible and trust a discerning public will duly appreciate our efforts.

To a person uninitiated, the publication of any directory, no matter how voluminous, may seem a trifling task, but to us who through the past few months have been labourously engaged in preparing the present work, it seems, looking back upon its many and unavoidable annoyances, a task indeed, and one which we are only too glad to have finally completed. The list of names swells year by year which truthfully indicates the gradual increase of the population of our prosperous city. We have for 1871 27,800 names against that of 1870, 24,840 names, making an increase of 2,360 names, and by comparison with figures of the past few years, we have the satisfaction of knowing that this increase is continuous, and that the improvements that are constantly going on, render it a real, and not a temporary prosperity.

With this volume we present an unusually full and complete city register, containing valuable information regarding the city government, churches, banks, moneyed and manufacturing corporations, religious, fraternal and civil societies, etc., which are established in the city. We would also call the attention of patrons and persons interested, to our street Directory, which shows at a glance the commencement, direction and ending of any street, and also all the intersecting streets. As there has been a number of changes in names of streets during the past year this will be of unusual importance, and if fully consulted, will save time and patience.

The Directory is one of those beneficent institutions which everybody uses, and some abuse, and the readiness with which a few condemn the usefulness of the work on account of its errors (though they may be small) is only accounted for by the fact, that such persons do not, as a rule, patronize the work, and consequently feel that they must thus show their appreciation of the time and labor bestowed upon a public undertaking. To all such we can only say, our endeavors have been to make it as near correct and complete as possible. Too little interest is felt or taken in the Directory, when the city is being canvassed for names, and not a few avoid giving the desired information at all, while others evade it as far as possible, all of which lead to errors and omissions which can only be avoided by each one taking interest enough to see that their names are correctly spelled and address properly given. The advertising department has been this year as heretofore under the direction of Mr. Jacob W. Weeks. To our patrons we feel indebted for their liberal patronage and trust to merit a continuance of the same.

We also desire to acknowledge the kindness granted us by all connected with both public and private institutions and societies of the city with the cheerfulness with which they assisted us in our endeavours to present to you a complete city register, and especially to our city surveyor, Eugene Robinson, Esq., for his valuable assistance in correcting the street directory, which forms so important a feature of this volume.

## ADDENDA.

# MAYHEW BUSINESS COLLEGE,

Congress and Randolph Streets, Detroit.

CONDUCTED BY IRA MAYHEW, A. M.,

For Eight Years Superintendent of Public Instruction in Michigan,  
and Author of the following Standard Educational Works :

## MEANS AND ENDS OF UNIVERSAL EDUCATION,

Prepared pursuant to a resolution of the Legislature of Michigan, and published in "The School Teacher's Library." Price \$1.50. Sent by mail.

## MAYHEW'S PRACTICAL BOOK-KEEPING,

For Common and Union Schools and Home Study. Called often by those using it "Book-keeping without a master," and by Agricultural Journals, "Book-keeping for Farmers." Extensively used throughout the United States and the Canadas. Price 80 cents. Sent by mail.

## MAYHEW'S UNIVERSITY BOOK-KEEPING,

For Business Colleges and the Counting-room. This is the fullest and best work on Business and Accounts published, and the only one providing Money and Business Papers for complete practical accountantship. Good business men say:  We would not FOR ONE THOUSAND DOLLARS part with the instruction we have gained from it.  Price \$2.50. Furnished at the College, and sent by mail on receipt of price. Used by Business Colleges, and by the best Catholic and Protestant Colleges and Universities of the country.

## THE MAYHEW BUSINESS COLLEGE

Is conducted with all that educational ability and business accuracy which have secured for MAYHEW'S BOOK-KEEPINGS their wide spread popularity throughout the nation. Its arrangements for thoroughness and accuracy in all its departments are unrivalled. This is emphatically true of its BUSINESS PRACTICE, which is protected by Letters Patent and Copyright, and is SUPERIOR TO ALL OTHERS. It employs engraved Money of fifteen convenient denominations, and an unprecedented number and variety of carefully prepared Business Papers, as in well-conducted Actual Business. When compared with the clap-traps that are sometimes used to decoy public patronage, this Business Practice is as GOLD to DROSS. We have on exhibition at the College Office, the best piece of PEN WORK ever executed in Michigan, which all are invited to call and see. Still, we base our claims for patronage upon more SUBSTANTIAL QUALITIES, and more especially upon thorough instruction in the PHILOSOPHY OF BUSINESS AND ACCOUNTS, in connection with our unrivalled BUSINESS PRACTICE. The President delivers regular courses of Lectures, which clear up all difficulties of students, and enable them to thoroughly understand their work. They hence become deeply interested in it, and are greatly profited by it. The College maintains an able Faculty throughout.

## TUITION AND EXPENSES.

Scholarships, time unlimited, are issued to Students, for \$40.00. Text Books are all the stationery required, cost about \$10.00. All expenses, exclusive of board, (which may be had at \$4.00 to \$5.00 a week,) need not exceed \$50.00 for the course. Students in the Preparatory Department pay \$15.00 for three months tuition, and when qualified are admitted on Scholarships. FOR FULL DESCRIPTIVE CIRCULAR OF COLLEGE, BOOKS, OR BUSINESS PRACTICE, APPLY AT THE COLLEGE, OR ADDRESS

## FIRE AND MARINE.

Cash Capital and Surplus, July 1st, 1871,

# \$1,464,315 08

*With large capital it unites experience, energy and integrity—Is progressive, cosmopolitan and commercial—With headquarters at the center of population, its complete system of business works better, with a saving of time and money.*

*2,128 agencies have been established and are fully prepared for service. A large and very valuable business is already secured. \$290,976 93 have been promptly disbursed for losses, clearly indicating the means and determination to perform all obligations quickly. No suit has yet been brought against the Company. Business has been larger, expenses lighter, and results better and more encouraging than represented to subscribers upon organization. The unvarnished truth has been our polar star, and consequently all pledges have been abundantly fulfilled.*

*An ample re-insurance fund and all outstanding claims are provided for, and a liberal dividend declared, besides holding a comfortable extra surplus in addition thereto.*

*It is the first fire and marine insurance company ever started with a bona fide \$1,000,000 paid-up capital, with one exception, in New York city during a very easy money market, and now ranks ninth in order of the million dollar capitals engaged in fire and marine insurance.*

*A New York Fire and Marine Insurance Company, possessing the largest capital in that city, established in 1852, with an income now of \$3,000,000 per annum, for about twenty-two months shows premiums \$399,729 24. A large estimate would be \$100,000 premiums for the first six months.*

*A branch office in Cincinnati, for Fire and Inland Insurance, with a business now worked up to \$1,800,000 per annum, gained in premiums, the first six months of the experiment, about \$60,000. This data may assist you to an accurate judgment of the present position and prospects before the ANDES INSURANCE COMPANY.*

*Business conducted in a liberal spirit. Full lines upon desirable Risks accepted. Rates fixed with regard to the laws of average and a fair compensation for the hazard assumed.*

*We invite you to give the ANDES a fair trial, and realize its superior business facilities.*

#### INSTRUCTIONS FOR TELEGRAPHING FIRE ALARMS.

A key will be left with the occupant of a building near each alarm box, and it will be designated on the box where the same may be found. The officers and men of the Police Department will also possess a key.

The following directions will be observed when a fire is discovered :

I. Go to the nearest box and open the door, pull the hook down as far as you can (firmly without jerking), and then let it slide back ; remove the key and close the door.

II. If you do not immediately hear the number of the box struck upon the small bell within, or upon the tower bells, go to the next nearest box to the fire and repeat the operation.

III. If upon going to a box to give an alarm, you hear the small bell inside ringing (which is an indication that an alarm is being sent over the lines), do not open the box until it has done ringing. In all such cases count the signal being sounded, and be certain that it is not for the same fire.

Key-holders are cautioned—

1. To not open the box except in case of fire.
2. To not give an alarm until certain of a fire.
3. To not give an alarm for a fire seen at a distance.
4. To pull down the hook but once in giving an alarm.
5. To be sure, after giving an alarm, that the door is securely closed before leaving the box.
6. To not let the key go out of their possession, except when demanded by proper authority.

From THOS. ARCHER, St. Joseph:

St. JOSEPH, Mich., April 25, 1870.

"Messrs. HUBBARD & DAVIS,—Gents: The two hundred Verbenas came in good order, and are certainly the most healthy stock plants I ever saw."

From W. W. TRACY, Agricultural College:

LANSING, Mich., March 7, 1870.

"The Verbenas arrived in good condition, and are quite satisfactory. I think they are quite as good if not better plants than I saw any where East."

Being a practical Artist myself, and doing all my own work, I have the advantage over Galleries that have to employ Artists to do the work, who usually receive one-half the price of the picture, which I propose to let the public have the benefit of. I respectfully ask that my work be compared with that of other Galleries, no matter what their prices may be.

 I will endeavor to be prompt and obliging, and, by so doing, hope to merit your patronage.

# \$1,000 CHALLENGE.

## Questions to be Considered —IN— Buying a Sewing Machine.

What are the desirable features of a family Sewing Machine ?

It must be simple in construction, that it may be easily learned, and not liable to get out of order; silent in operation, rapid in the execution of work, easily changed from one kind of work to another; capable of doing every variety of work; must run easy, so as not to fatigue the operator, and, with all these, must be durable.

What machine possesses these qualifications in the highest degree ?

### THE WHEELER & WILSON!

It is the **only machine** which makes the **lock stitch** with a rotating hook, thus avoiding the annoyance of a shuttle.

Is the Wheeler & Wilson simple in construction, that it may be easily learned, and not liable to get out of order ?

#### **We will give \$1,000**

For any standard Shuttle Machine now in market that does not contain at least twenty more pieces, and consequently so many more to learn how to manage and to get out of order, than the Wheeler & Wilson.

Is the Wheeler & Wilson silent in its operation ?

#### **We will give \$1,000**

For any Shuttle Machine that runs as still as the Wheeler & Wilson.

Will the Wheeler & Wilson sew rapidly ?

#### **We will give \$1,000**

For any Shuttle Machine in the market that will sew ten yards of seam as quick as the Wheeler & Wilson.

Is the Wheeler & Wilson easily changed from one kind of work to another ?

#### **We will give \$1,000**

For any Shuttle Machine upon which the changes of needle, thread, stitch and tension can be as quickly made as upon the Wheeler & Wilson.

Will the Wheeler & Wilson do all kinds of work required of a Family Sewing Machine ?

#### **We will give \$1,000**

For any Sewing Machine (beside the Wheeler & Wilson) that will duplicate the line of samples now on exhibition at our office.

Does the Wheeler & Wilson run easy ?

#### **We will give \$1,000**

For any standard Shuttle Machine that runs as easily as the Wheeler & Wilson.

Is the Wheeler & Wilson durable ?

**ANSWER**—Its joints are so constructed that the wear can be taken up as fast as it accumulates, and the oldest machine thus be made to operate as perfectly and run as silently as when new.

#### **We will give \$1,000**

For any Shuttle Machine in the market with joints adjustable like the Wheeler & Wilson.

### INDUCEMENTS TO CUSTOMERS.

Early in September next, I shall procure a complete and elegant set of

## SILVER PLATED WARE,

Which will be furnished FREE to those giving full orders.

Being determined to spare no expense to overthrow the catering humbug, which has given the ladies so much inconvenience, I have decided to make this sacrifice, and now announce that I am able to supply all demands in my line, in the best manner and at the lowest prices when ordered by the ladies themselves, and not through the agency of a caterer.

China Supplied from any of the China Stores.

**A Home Luxury that has Become a Home Necessity.**

"The hours that leave the slightest cause to weep,  
 Are those we passed in childhood or asleep."—*J. G. Saxe.*

Walking along Jefferson Avenue, Detroit, Mich., the other day, I observed in front of the premises, No. 157, something which attracted my attention at once, and proved to be the Dunks' steel spring bed bottom. Having heard of the courtesy of the manufacturer, and using the article myself, I stepped up stairs, and was shown round, and had all the merits of this truly meritorious article explained to me, and was fully convinced that it was entitled to all that is claimed for it.

It is certainly the most simple, curable, and cleanly bed bottom I have ever seen, and my experience is a very wide one, being fully aware of the importance of sleeping comfortably, and also desirous that the public should share the result of my experience without the trouble and expense of experimenting. I therefore take this method of benefitting my fellow men by recommending to their notice the simple patent steel spring bed bottom, which can be procured from every first class furniture dealer throughout the United States and Canada.

If you do not see it, ask for it; and see you get it.—*Western Rural.*

## THE IMPROVED TURKISH BATH.

### HEALTH.

How to preserve health and remove disease is the great question of the age. Millions of money are annually spent in the pursuit of health, while the blind seekers fail to discover that "Open the pores of the skin and let out the impurities," is written by the very finger of God upon every human body.

THE IMPROVED TURKISH BATH is the most effectual means yet devised by which this end may be accomplished. In health or disease this Bath goes far towards working out the physical salvation of those who adopt it.

Nearly all classes of medical authors and physicians recommend and use diaphoretic and sudorific medicines in most forms of disease. These substances are used to excite the skin to action, to reduce heat and fever, to relieve internal congestion, and to work out impurities from the body, all of which can be more safely, speedily, and agreeably accomplished by means of the Turkish Bath.

Together with the above we have the Newly Patented

## COMPOUND ELECTRO-MAGNETIC Hot and Cold Air Baths.

This is the most ingenious and efficient apparatus for applying electricity in combination with a sweating bath, and is far superior in every respect to what they have heretofore been. Try the Hot and Cold Air Baths, and judge for yourselves of their merits as a curative and health-preserving agent, as a beautifier and luxury. Its beneficial effects in the cure of Coughs and Colds, Rheumatism, Neuralgia, etc., has been attested by thousands. As a means of securing cleanliness of skin and purification of the blood, it has no equal, and consequently it stands unrivaled as a PREVENTATIVE OF THE CHOLERA, and every other known disease. These Baths are now open to the public. They combine thorough ventilation; a mild heat of any required degree.

BATHING HOURS, FROM 6 A. M. TO 9 P. M.
