INTRODUCTORY.

SINCE the present publishers have issued the City Directory, it has always been their aim to make the work a thoroughly reliable one. A few unavoidable errors will no doubt be found in the present edition, notwithstanding that more than ordinary care has been exercised in its preparation; none but experienced men having been employed, either in procuring information or in any other department, and it is believed that the Directory for 1876-7 will be found as accurate and complete as it is possible to make a work of this character.

It is the intention of the publishers to keep on file in their office, in future, a list of removals, etc., during the year of business houses and private residences for the accommodation of the general public.

Lists of such removals, etc., will at all times be open to the inspection of our patrons and the public free of expense. Parties making changes in the location of their places of business, or residences, will confer a favor by reporting the same to this office.

We append a few general statistics regarding the growth, etc., of the city, which, we trust, will prove interesting to our patrons.

THE GROWTH OF POPULATION.

This volume of the Directory contains 39,500 names, an increase over last year of 1,462. The steady increase of population in the city is indicated by the Directory figures of the last few years. The Directory

For 1868	has	22,640	names.		
For 1869	"	23,750	"	Increase	1,110
For 1870	"	24,840	"	"	1,090
For 1871	"	25,336	"	"	496
For 1872	"	28,728	"	"	3,392
For 1873	"	32,408	"	"	3,680
For 1874	"	36,996	"	"	4,588
For 1875	"	38,038	"	"	1,042
For 1876	"	39,500	"	"	1,462

Estimating the population on the basis of the number of names in the present volume, and assuming that each name represents three in the population, it would give 118,500 as the result. These figures may be regarded as a reasonable estimate, when the fact is stated that this ratio is much less than is generally accepted in Eastern cities. In Chicago it is three and one-half, in St. Louis four and one-quarter, and in New York five. These figures may answer for the localities to which they refer, but for this city, whose growth is so gradual and steady, we find the estimate rather high.

In 1810 the town had 770 people; in 1820, 1,442; in 1830, 2,222, in 1840, 9,102; in 1850, 21,019; in 1860, 45,619; 79,570 in 1870; and 101,225 in 1875. It will be seen that its greatest stride has been made in the last 15 years. In that period the grandest buildings of the town have been erected, and all the machinery for municipal government arranged.

THE DETROIT OF TO-DAY

The city is one of the growing cities of the West, with a large and increasing commerce. It occupies a frontage of about four miles on one of the handsomest streams that the earth has, and extends back about three miles, making a total area of 13½ miles. The business part of the town is substantially built of brick and stone. The residences are mostly of wood. There is plenty of land out doors, and it has been the practice of the business man, the mechanic and the clerk to purchase a lot and erect a house according to his means. Thus Detroit, to an unusually large extent, is peopled by house-owners who sit in the shadow of their own vines and fig trees. Situated upon a slope, the drainage is perfect, and the good health of the citizens assured, the death-rate last year showing only 20 to the 1,000.

THE CITY FINANCES.

We have shown how the people of Detroit have increased in numbers. We may add that the material growth of the town has been equal to that of its population. In 1875 the cash valuation of the city was \$91,443,235, with a total tax levy of \$929,007.13, a trifle over one per cent. In 1876 the valuation is \$94,570,905, and the tax levy \$971,928.68, the rate of taxation still remaining at a shade above one per cent. Of the amount thus appropriated, \$456,108 are devoted to general city purposes; \$216,235.35 to the schools; 29,700 to high-

ways; \$18,270 to the sewer fund; \$130,000 to the police; and \$106,606 to the fire department.

THE CITY GOVERNMENT.

The city is now governed by the Common Council, with the Mayor at the head, and the various municipal boards which are subject to the Common Council.

THE BOARD OF PUBLIC WORKS.

The Board of Public Works consists of three men appointed by the Mayor and confirmed by the Council. The construction of pavement and repairs of streets; the care of the public grounds and buildings; the construction and care of wharves, bridges, sewers and water courses; the erection of gas lamp posts, and ornamental fountains; the construction of all public buildings and works of the corporation or of any board thereof, are matters over which the Board of Public Works have entire control. Last year they cleaned 296½ miles of paved streets, at a cost of \$9,364.49; had charge of 13 parks, aggregating 40½ acres; paved 8½ miles of streets, mostly with cedar blocks, at a cost of \$267,172.25; constructed 6½ miles of public sewers at a cost of \$192,903.86, and 9 miles of lateral sewers at a cost of \$37,742; built about 9 miles of wooden sidewalks, costing \$13,514.28, and laid 3,800 square feet of stone walks, and 600 square feet of concrete walks at a cost of \$1,550.

THE BOARD OF HEALTH.

The Board of Health is composed of the senior alderman of each ward, two of the city physicians, and two physicians designated by the council. The Board has power to enquire in respect to nuisances; to guard against the spread of infectious diseases; to establish a quarantine; to make sanitary suggestions to the common council, and to possess and close buildings when necessary to promote public health, or abate a nuisance. The board also has control of the pest houses and hospitals.

THE BOARD OF EDUCATION.

The Board of Education has charge of the schools, and is composed of two inspectors from each ward. Their estimate of expenses for 1876, aggregate \$190,100, of which \$140,000 was to the superintendent and teachers, \$12,000 to the janitors, armorer and engineer, and \$11,465 for fuel. There are 26 school buildings containing sittings for 11,675 pupils, and valued at \$735,192, of these the High school building contains 450 seats and is valued, with the lot on which it stands, at \$119,180. Last year there were 630 pupils belonging to the High school, 2,748 to the graded, and 6,040 to the primary schools, a total of 9,418, with a daily attendance of 8,759. There were 221 teachers employed, of whom 212 were women, and 9 were men. The number of pupils of lawful age at the last school census was 34,593. The public library comes under supervision of this board and has 24,903 volumes. During the present year, this great literary store will be removed to the new Public Library building on Gratiot street which has been erected at a cost of \$125,000.

THE WATER COMMISSIONERS.

The Board of Water Commissioners consists of five members, and has exclusive control of the water works. These works now send water through 192 miles of pipe, of which 104 are of wood, and 88 of iron. The July report of 1876 shows that the number of families served with water is 20,466. Besides these, 394 hotels and boarding houses, 556 offices, 1,392 stores, 171 factories, 823 shops, 57 public buildings, 55 churches, 4 theatres, 32 breweries, 4 distilleries, 555 saloons, 65 stables, and many other establishments were supplied by the City Water Works. The assessment for the year is \$208,894.50. In 1861 it was \$60,507; in 1865 it was \$77,212; in 1870, \$130,301; and in 1875 it was \$195,110.75, when 4,207,454,260 gallons were distributed, a daily average of 115¼ gallons a day for a population of 100,000 people. In 1875 the board purchased 60 acres of land on the river near Jefferson avenue, and commenced new and more extensive works to keep pace with the rapid city growth.

THE BOARD OF REVIEW.

The Board of Review, as its name intimates, has the review of the assessments, with power to amend by reduction, if necessary, but they cannot increase them without notifying the persons whom it is intended shall be so benefitted.

THE BOARD OF ESTIMATES.

Of course the City outgrew the old popular gathering known as the citizens' meeting, and the Board of Estimates, for the authorization of taxation, became a necessity. This Board is composed of two members from each ward, and five from the city at large, the

President of the Council, the Chairman of its Finance Committee, the City Controller, City Counselor, the Presidents of the various Boards and Commissions, and the Senior Inspector of the House of Correction, are *ex officio* members of the Board, but are not entitled to a vote. All taxes in support of the several city funds, except the interest and sinking funds, must be submitted for the approval of the Board, who may reduce, but may not increase the estimates submitted for their consideration.

THE FIRE COMMISSIONERS.

The Board of Fire Commissioners have exclusive control of the Fire Department. The force consists of 107 men all told, and the apparatus consists of a telegraph with 80 alarm boxes, eight steamers, a Babcock engine, two hook and ladder trucks, an extra engine with hose cart, and the supply wagon. The total expense of the Department for the last fiscal year was \$96,187.24. The total valuation of the property of the Department is \$338,939. In 1875 we had 222 fires, involving an aggregate loss of \$250,909, of which \$26,266 was caused by incendiarism.

THE COURTS.

The litigants of the city are served by the Wayne Circuit Court, which finds most of its work from city belligerents. The Superior Court is, however, a city tribunal which has cognizance of all transitory actions when the debt or damages exceed the sum of \$100, and of most cases of civil nature similar to that exercised by Circuit Courts. The Detroit offenders against the State laws, and offenders of municipal ordinances have their trials and tribulations in the Recorder's Court. The Police Court is the first landing place of these offenders, and from thence the more important cases go to the Recorder for final disposition.

THE POLICE BOARD.

The Board of Police Commissioners consists of four men who have charge of the police. The force consists of 160 men including 130 patrolmen, and they cost \$115,000 a year.

THE MAYORS OF DETROIT.

Since the city was organized, 31 gentlemen have been Mayor, their names with the ending of their term of service being:

John R. Williams, 1825.	Augustus Porter, resigned.	John H. Harmon, 1853.
Henry J. Hunt, 1826.	Asher Bates, 1838.	Oliver M. Hyde, 1854.
John Biddle, 1828.	DeGarmo Jones, 1839.	Henry Ledyard, 1855.
Jonathan Kearsley, 1829.	Zina Pitcher, 1841.	O. M. Hyde, 1857.
John R. Williams, 1830.	Douglas Houghton, 1842.	John Patton, 1859.
Marshall Chapin, 1831.	Zina Pitcher, 1843.	Christian H. Buhl, 1861.
Levi Cook, 1832.	John R. Williams, 1846.	William C. Duncan, 1863.
Marshall Chapin, 1833.	James A. Van Dyke, 1847.	Kirtland C. Barker, 1865.
C. C. Trowbridge, resigned.	Frederic Buhl, 1848.	Merrill I. Mills, 1867.
Andrew Mack, 1834.	Charles Howard, 1849.	Wm W. Wheaton, 1871.
Levi Cook, 1836.	John Ladue, 1850.	Hugh Moffat, 1875.
Henry Howard, 1837.	Zachariah Chandler, 1851.	Alexander Lewis, 1876.

THE CITY DEBT.

The debt of the city exclusive of the debt of the Water Commissioners, was on the 1st of February, 1876, \$1,079,900. The sinking fund and other means of paying the debt amounted to \$185,826.17; leaving the net debt \$894,073.83, a decrease of the year of \$66,540.53. Including the indebtedness of the Water Commissioners, the city owed \$2,380,900, and provision is made for payment of this debt without a dollar of taxation of the citizens.

THE HOUSE OF CORRECTION.

The House of Correction is noted as one of the best managed reformatory institutions in the country. Last year it received 2330 prisoners, of whom 443 were females. The receipts from their labor amounted to \$83,787.24, being a profit of \$18,920.69 from the institution. The property is worth, buildings and appurtenances, \$300,000.

THE SOCIAL VIEW.

From consideration of the governmental branches of the city we will pass to a brief statement of its social and commercial standing. The city is one of the most beautiful in the West. Its streets are broad, shady avenues in the older parts of the town, broad, pleasant and attractive in the newer. The Broadway of the town is Jefferson avenue; the Bowery, minus the beershops thereof is Woodward. Each are 120 feet wide, each beginning with a crowd of "palaces of trade" and miles away, fading into the green fields and

woods of the country. Every race on earth is represented, and almost every language spoken by the populace of Detroit. Over 60 church spires point their way to heaven, and hundreds of teachers are employed in our schools to train the young for useful lives. Library facilities are abundant and well patronized, and art finds full appreciation. The poor are always with us, but with a charity that never fails, the favorites of Fortune care for and supply the destitute. Luxury abounds. The iron veins of the city bring gas to light and water to refresh our homes. Our people ride over 40 miles of tramway over seven routes by the cheap facilities of the street cars, which make the extremities of the city near neighbors. We have 225½ miles of streets, of which 53 miles are paved, and which are lighted by 1,720 lamps. We have 55 miles of public sewers built at an expense of \$1,600,000, and 66 miles of lateral sewers which cost \$411,567. Nine railways start us from Detroit and with their connections take us to any habitable point on the globe. The floating palaces which swim our magnificent river take the pleasure seeker on the tour of the great lakes. On August 31st 1809 the "Michigan Essay," the first paper in Michigan issued its first number. Now, daily papers tell us morning and night, of the latest news brought from all portions of the world by the busy telegraph.

TRADE AND MANUFACTURES.

Commercially, Detroit makes a splendid record. Situated on the Detroit river, she is at the gateway of the lakes, and the white winged craft flit past her almost every minute, calling, as they go, to pay some tribute to the favorite city. Fifty years ago, we had but one dock, but it accommodated all our trade, and not a vessel that navigated the lakes was owned in Detroit. Now, Detroit owns 170 sailing vessels of 27,721 tons, and 40 barges of 9,686 tons. In 1820 the Walk-in-the-Water, the first steamer that ever came upon the river, visited Detroit astonishing the Indians who gathered upon the bank of the stream, frightened at the monster which, they explained, breathed out of his back. Now, Detroit owns 127 steamers, carrying 39,875 tons. Fifty years ago, the arrival of a vessel was an event of interest. To-day, a sail or steam craft passes the city once in six minutes during the season of navigation, and over 30 steam craft are frequently in sight from the deck of the ferry in mid-stream. Fifty years ago, six or seven stores transacted all our mercantile business. Now, we have over 1,400 stores in the various branches of trade, while the exports of this port for the year ending July 1, amounted to \$2,645,375, and the imports to \$1,456,342. We have four banks of discount with a capital of \$2,200,000, several private banking firms, and five savings banks, with a capital of \$575,000. The thrift of our people is shown by the fact that these savings banks hold over four and-a-half millions of money chiefly belonging to laboring people. Our manufactures are extensive, and to be credited with much of the prosperity of the city. There are 171 manufactories of various kinds, including the great works, such as are connected with stove, furniture and car making, and 823 shops, where smaller enterprises are carried on. The wholesale trade is estimated at over thirty millions annually, while the produce trade is about \$25,000,000 a year. Iron and lumber enter largely into our manufactories, and some of the heaviest operators in each branch are located here. The iron work of this vicinity comprises about 20,000 tons of rolled, and 20,000 tons of pig iron, annually. Of the 28,000,000 feet of lumber cut yearly in Michigan, a large proportion is the operation of Detroit capital.

The report of the Board of Trade shows that last year Detroit received 422,083 barrels of flour, manufactured 238,200, and shipped 415,129; the receipts of wheat aggregated 4,638,788 bushels, shipments 3,907,480 bu; received 461,463 bushels of corn, shipped 318,270; received 814,748 bushels of oats, and shipped 755,023; received 282,352 bushels of barley and shipped 122,497; received 17,609 bushels of rye and shipped 5,485; received 5,912 tons tons of feed and shipped 6,784; received 2,332,107 pounds of butter and shipped 1,203,445; received 567,265 pound of cheese and shipped 121,284; received 183,127 bushels of potatoes, shipped 101,545; received 118,409 barrels of apples, shipped 34,074; received 5,233,335 pounds beans, shipped 2,123,495; received 9,629 barrels eggs, shipped 5,322; received 18,432 cattle and shipped 14,097; received 11,229 hogs, shipped 24,177; received 19,496 dressed hogs, shipped 12,306. The receipts of iron aggregate 13,137,888 pounds, shipments 8,066,364.

Statistics show that we have our vanities also. For the year ending July 1, 1876, our tobacconists produced 4,150,075 pounds of tobacco, upon which a revenue tax of \$996,017 was paid. Our 150 cigar factories produced 26,581,830 cigars and paid \$159,490.98 thereon. Our 33 brewers brewed 112,057 barrels of beer and paid \$112,057 thereon. And our single distiller paid \$107,886.60 on 119,874 gallons of whiskey he distilled.

Thus it will be seen that while it took two centuries to lay the foundations, it has required but another 50 years to bring this little settlement of 1826 up to a great, prosperous metropolitan city.

DIRECTIONS AND INSTRUCTIONS FOR TELEGRAPHING FIRE ALARMS.

Keys are left with the occupants of buildings in the vicinity of each Fire Alarm Box, and it is designated at the same where they can be found. The members of the Police force also possess keys.

The following will be observed when a fire is discovered:

I. Go to the box, open the door, and pull the hook down as far as it will go (firmly and without jerking) and let it slide back.

II. If the alarm is not immediately heard upon the small bell within, the City Hall or Tower bells, go to the next nearest box to fire and repeat the operation.

III. If on going to a box to give an alarm, the City Hall bell is heard striking otherwise than the hour (which is an indication that an alarm is being sent over the lines), do not open the box until it has done striking. In all such cases count the signal which is being sounded, and be certain it is not for the same fire.

Keyholders are cautioned.

1. To not open the box except in case of fire.
2. To not give an alarm until certain of a fire.
3. To not give an alarm for a fire seen at a distance.
4. To pull down the hook but once in giving an alarm.
5. To be sure after giving an alarm that the door is securely closed before leaving the box.
6. To not let the key go out of their possession, except when demanded by proper authority.
7. Keyholders, if removing their place of business or residence, are requested to return the key to the Fire Commissioners' office.
8. Wait at the box and direct the firemen to the fire.

The Business of this Corporation is confined exclusively to the receipt and care of Savings' Deposits and Funds Deposited in Trust. No Commercial or General Banking Business is transacted.

A certain portion of the funds is Loaned on unincumbered Real Estate, value in cash twice the amount Loaned.

A portion of the funds is Loaned on Bonds and other Securities having a positive Cash Market value; these Loans are usually "Call Loans," and payable on demand,

The Bank does not nor cannot, under its Rules, loan on individual notes or any kind of personal security.

Sums as small as One Dollar received from any person, and a Bank Book furnished without charge.

Married Women and Minor Children may deposit money so that no one else can draw it.

Depositors, whether Foreigners or Citizens, have the same right as to property, and in case of death any money to their credit will be paid to their legal representatives, whether they are in this country or elsewhere.

Interest, at the rate of six per cent. per annum, is paid on all sums of one dollar or more; and all money that remains in the Bank one or more full calendar months, will draw interest for every month. Money deposited on or before the 5th day of a month, will draw interest for the full month. On the 1st day of June and December all interest due will be credited, and will draw interest the same as a deposit.

Working People need not lose any time, as the Savings Bank is kept open Saturday and Monday evenings, until 8 o'clock, for their convenience.

Means for Identifying Depositors. When a new Depositor first comes to the Savings Bank, precautions are taken and records made, so that he may be always identified, and so that, in case a book is lost, the owner thereof cannot be defrauded.

All Transactions with this Bank are Strictly Confidential.

STANDING.

Organized in 1849, the Company has had twenty-seven years' of successful experience,

The assets of the Company January 1st, 1876, was.....	\$9,291,403 93
Liabilities.....	7,925,478 00

Surplus.....	\$1,867,653 93
--------------	----------------

Which gives \$125 of assets for every \$100 of liabilities. The investments of the Company are made with the most scrupulous care. The year 1875 was one of unusual heavy mortality to all the Life companies of the country, and with this fact before us it is a matter of just pride that the interest receipts of the Company more than pay the death losses. Interest earned in 1875, \$629,693; death losses, \$577,084; excess of interest over losses, \$52,609. This fact should be noticed by every insurer, as all profits are equitably distributed among the policy holders.

LIBERAL IN SETTLEMENT OF PREMIUMS.

All Policies in the *Union Mutual* are written for annual payments, and the question of dividing up the premium to suit the convenience of the insured is left to the Agent, no change of Policy being necessary. It frequently happens that men would insure if they could have a few weeks time in which to pay their premiums, or if their premiums could be divided in such a way that their payments would come at such time as they might designate. Again, men who are already insured frequently find that their premiums fall due just at a time when they are least prepared to meet them, and allow their Policies to lapse. Such need not occur in the *Union Mutual*. If a premium comes due, and the insured desires it, we grant him time, charging interest at the rate of seven per cent. The Company carries the risk for the time the extension is given.

NON-FORFEITURE.

The UNION MUTUAL proffers entire exemption from forfeitures by means of Paid-up Policies, Massachusetts Law, or Cash Surrender Values.

For the surrender of a plain life-policy PAID-UP INSURANCE or the CASH VALUE for an equitable amount will be granted after the third year; or, Extended Insurance will be given in accordance with the Massachusetts Non-forfeiture Law. The benefits of this law are pledged on Ordinary Life Policies when desired.

As many persons are not familiar with the Massachusetts Non-forfeiture Law, I will give a brief illustration: At age 35: a person who insures and pays one yearly premium remains insured for 2 years and 3 days, provided they never make but the one payment; two payments will continue the Policy in force for 4 years and 12 days; three payments, 6 years, 27 days; four payments, 8 years, 46 days; five payments, 10 years, 56 days; and so on.

The *Union Mutual's* practice of making its limited payment policies that lapse after the second year, PAID-UP, WITHOUT APPLICATION, saves the insured much trouble and expense over those companies which require the surrender of the old policy while in force, or within a specified time, before they will issue a paid-up policy. Many a poor man has forfeited his insurance to such companies, because his policy was not surrendered within the time specified.

Protection for the present, indemnity for the future, is what the public needs, and it is furnished at COST by the UNION MUTUAL.

KEEP COOL AND DRY.

Farmers, or Suburban Residents can retain this Yeast fresh and reliable, by immersing in water,
 using a small glass jar, or vessel. The Yeast particles precipitate, and water covering, prevents air
 spoiling the Yeast. Keep the water fresh on the Yeast. Set vessel in cellar, or lower it into the well or
 cistern, attached to string. When Yeast is desired for use, pour water off, take out what is needed with
 a spoon, and pour fresh water over the Yeast. In this manner it will keep for months.

MAYHEW

BUSINESS COLLEGE,

○EXCELS○

In Preparing Young Men for Business.

THE EVIDENCES OF ITS SUPERIORITY ARE NUMEROUS.

Hundreds of its Graduates say: "We have never before enjoyed school privileges which we value so highly, and which we can with such confidence recommend to others."

The United States Commissioner of Education, in speaking of Business Colleges in his late report says: "One of them—the MAYHEW BUSINESS COLLEGE, Detroit—conducted by Hon. Ira Mayhew, formerly State Superintendent of Public Instruction, deserves especial mention." * *
 "We cannot speak in too high terms of commendation of this institution. Young men desiring a business education will find the advantages here offered THE MOST PERFECT POSSIBLE."

For Editorial Notices of its contributions to Business Education, and for a Pamphlet of 28 pages, written by request for the National Centennial Exhibition, giving a full account of what is believed to be

BERKSHIRE
Life Insurance Company
OF PITTSFIELD, MASS.

Incorporated 1851. Twenty-five years successful Business. One of the Oldest and Most Reliable Companies in the Country.

Why Should You Insure in the Berkshire Life Insurance Co.?

Because it is a First-Class Company in every respect. Because, in addition to being sound and responsible, its policies are absolutely non-forfeitable. Because under the laws of its organization, policy-holders are secured against loss in the event of a failure to pay premiums when due.

FOR EXAMPLE.

Policy No. 5869. Bernard O'Grady, of Detroit, Mich., insured, October 7, 1867, for \$3,000. Life, 10 payments. Premium \$173.10.

This policy lapsed for non-payment of premium, October 7, 1868. Mr. O'Grady died at Detroit, Aug. 18, 1871, and the Company paid the claim less three premiums and interest. Mr. O'Grady would have remained insured until December 3, 1871.

Policy No. 4717. Lawrence Byrnes, of Boston, Mass. Insured Jan. 2, 1867, for \$5,000. Endowment 15 years.

This policy lapsed for non-payment of premium January 2, 1871. Mr. Byrnes died at Worcester, Mass., March 20, 1874, and the Company will pay the claim, when due, less four premiums and interest. Mr. Byrnes would have remained insured until November 10, 1886.

For the detailed financial statement of the Company, and circulars containing full description of its plans, address as below.

—MANUFACTURERS OF—

Fire and Burglar Proof Safes,

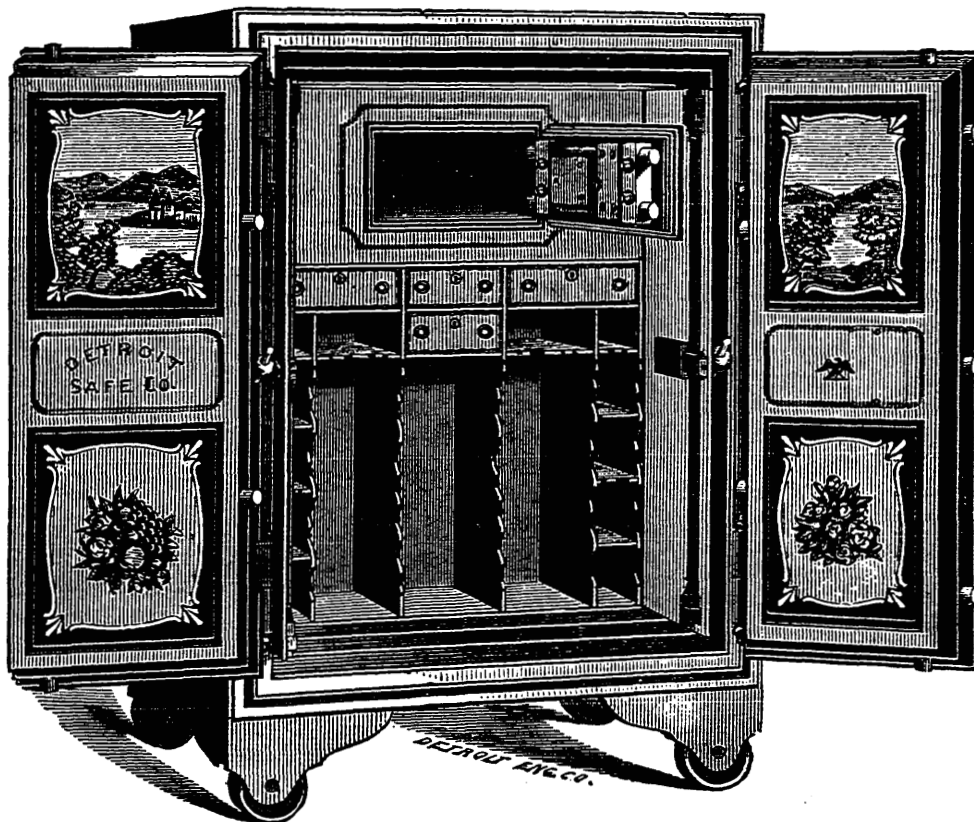

VAULT DOORS AND VAULTS,

Agents for SARGENT'S BANK, STORE DOOR AND POST OFFICE LOCKS.

SOLE AGENTS FOR MICHIGAN AND MINNESOTA FOR SARGENT'S "TIME LOCKS."

Office and Factory, Fort Street East, between Beaubien and Antoine,

DETROIT, MICH.

Bankers, and all having need for Burglar Protection, are cordially invited to call upon us at our

NEW FACTORY.

And examine our facilities and see for themselves our material and method of construction used in the manufacture of Burglar Work.

STOOD THE TEST,

Burglars having frequently attempted to break open our Burglar Safes and Chests, but NEVER IN A SINGLE INSTANCE with success.

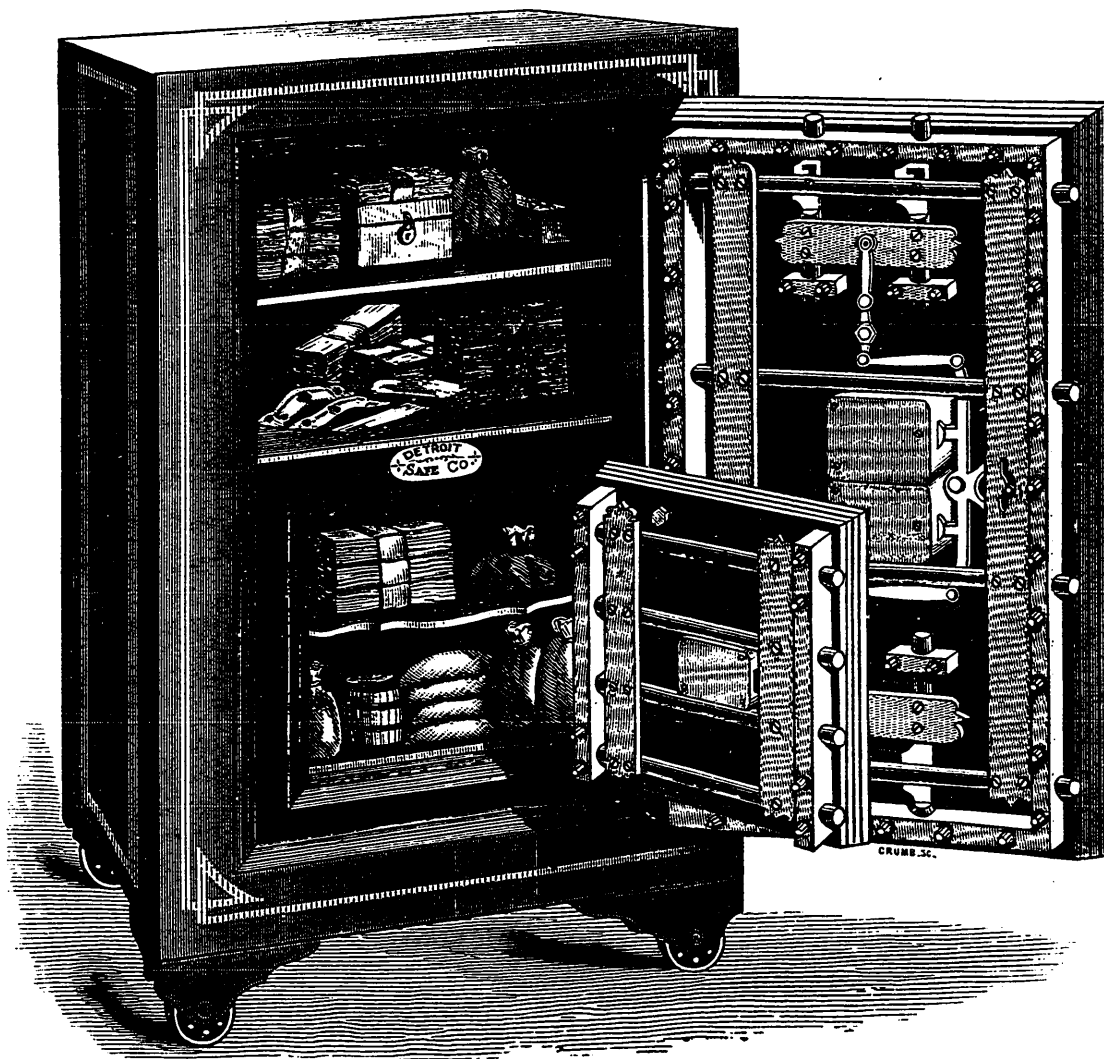

Our Fire Proof Work is equally satisfactory, our Safes are spread by thousands over a very large area and the steady verdict is "they invariably preserve their contents" whatever may be the severity of the test.

THE

EQUITABLE

Life Assurance Society,

120 Broadway, New York.

The **EQUITABLE** did the Largest Amount of **NEW BUSINESS** in the United States in 1875. So says the Superintendent's report for the State of New York. In fact its average New Business for the last Six Years

Is Greater than that of any other Company

If you Insure in the **EQUITABLE**, and request to be placed in the **TONTINE CLASS**, you will secure a policy which at the expiration of the Tontine Period shows more favorable results than any policy issued by any other Company.

[OVER.]

TONTINE POLICIES

Were introduced by the

Equitable Life Assurance Society

In the United States a little over
seven years ago

And the profits thus far accumulated on the TONTINE PLAN exceed those heretofore declared on policies of similar age by any other Company during the same period of its history.

It will pay you to examine our
TONTINE PLAN before Insur-
ing your Life elsewhere.

JAS. C. COATS,

Manager.

Parties intending to make Insur-
ance their Business will do well
to address

PILES

Cured Speedily and Permanently, without Pain by Absorption.

Having observed during many years of private practice the prevalence of

PILES AND OTHER DISEASES OF THE RECTUM,

And believing that we can do more good in the cure of these than in a general practice we have devoted ourselves especially to this branch of the profession, and have perfected a means of treatment whereby the afflicted may be speedily and permanently cured without using the old and painful remedies. The patient may attend to business while under treatment. It matters not how long or severely you have been suffering, how much or how unsuccessfully you have been treated, you can be cured.

WE GUARANTEE A CURE IN EVERY CASE TREATED.

Every part of the Tumor is removed from apex to base, without the use of KNIFE LIGATURE OR CAUSTICS. From one to six treatments in from one to four weeks required to perform a cure. Good references given.

Office hours: From 9 to 12 a. m., and from 1 to 5 p. m.
Consultation free.

Detroit Head, Throat & Lung

INSTITUTE,

251 WOODWARD AVENUE, DETROIT, MICH.

For the purpose of treating all diseases of the HEAD, THROAT and CHEST, viz :

Catarrh, Asthma, Bronchitis, Consumption, Inflammation, Congestion.

And all forms of LUNG diseases. Speedy and permanent cures of HOARSENESS and entire restoration of the VOICE. Also, diseases of the EYE and EAR. We adopt the most improved system of INHALATION and other appliances, which bring the remedies into direct contact with the organs diseased. A single application gives immediate comfort, and relieves at once the most distressing and painful symptoms.

CATARRH of the Head and Throat permanently cured.
PAIN IN THE HEAD AND FACE removed by one application.
CONSUMPTION, first and second stages, permanently cured.
ASTHMA AND BRONCHITIS permanently cured.
PAIN IN THE CHEST removed by one application.
BLEEDING from the Nose and Lungs stopped in ten minutes.
VOICE restored--made clear and strong.
GRANULATED EYELIDS invariably cured and sight restored.
DISCHARGES from the Ears in Children and Adults from any cause, removed and hearing restored.

A single application is sufficient to convince any one that ours is the true mode of treatment. Examination of the Throat with the reflected light of the Larynxscope, revealing every part of the throat and vocal cords. Medicine and Inhalers furnished.

WHOLESALE AND RETAIL DEALER IN

Pianos, Organs and Musical Instruments,

SHEET MUSIC

For Piano, Organ and all other Musical Instruments of Foreign and American Publications.

General State Agent for the Celebrated and World-Renowned

Steinway & Sons Grand Square and Upright Pianos

Have obtained the Highest Honors ever Awarded to any Piano Manufacturers in the World.

The world's greatest Pianists and Composers, including the world-renowned Anton Rubinstein, who throughout his American tour played on no other, the Academies of Fine Arts of Paris, Berlin and Stockholm, as well as the Piano-purchasing public of Europe and America, unite in the unanimous verdict of

The Superiority of the STEINWAY PIANOS over all others.

STEINWAY & SON'S MAMMOTH MANUFACTORY is the most extensive establishment of its kind in the world.

The Official Revenue returns show that the number of Pianos manufactured by "STEINWAY & SONS," viz:

One Piano Every Working Hour!!

TEN PIANOS EVERY DAY!!!

And the amount of their sales are nearly double those of the next largest manufacture in America, and exceeds those of the Twelve next largest Piano Manufacturers in N. Y. combined.

STEINWAY & SONS are the only American firm whose Pianos have a "world wide" reputation, being exported in large and constantly increasing numbers to Europe and all other parts of the civilized world. Steinway's Pianos are sought to be copied by nearly all American and European Piano-makers, many of the latter announcing through the public papers that their Pianos are constructed on the "Steinway" system.

EVERY PIANO IS WARRANTED FOR FIVE YEARS.

Prices as Low as the exclusive use of the Best Obtainable Material and most thorough Workmanship will permit.

Illustrated Catalogues, fully describing and showing the external appearance of each style of Grand, Square and Upright Pianos, manufactured by Steinway and Sons, mailed free on application. Old Pianos taken in exchange.

Call and examine my large stock of Pianos, you can do better here than anywhere else. My terms are liberal, and of my fair dealings, the people of Detroit can testify, having been among them for the past 23 years.
