# THE VERY BEST LINE!

## Chicago, Milwaukee and St. Paul Railway

### AMONG THE ADVANTAGES OF THIS LINE ARE:

- 1—It is the best in every particular.
- 2—There is no other line running Through Trains between Chicago, Milwaukee, St. Paul and Minneapolis.
- 3—It is the only line running **Three Daily Trains** between Chicago and any point in Minnesota.
- 4—It makes sure connections at **Chicago and St. Paul** with all lines running in and out of these cities; and at LaCrosse and Ramsey, in same Depots with Southern Minnesota R. R.
- 5—It is the only Northwestern Line connecting in same Depot in Chicago with any of the great Eastern or Southern Lines, and is the most conveniently situated with reference to reaching depots of connecting roads, hotels and places of business in that city.
- 6—It is the only line running its own Palace Sleeping Cars from Chicago to the Northwest.
- 7—It is the **ONLY LINE** using the **WESTINGHOUSE IMPROVED AUTOMATIC AIR BRAKE**, which Brake is on all Passenger Trains.
- 8—It uses the Miller Patent Platform and Coupler.
- 9—It has a perfect steel rail track, thoroughly ballasted.
- 10—It is the **ONLY THROUGH LINE VIA MILWAUKEE**, the commercial metropolis of Wisconsin.
- 11—This Company owns its entire line, from **CHICAGO** to **ST. PAUL** and **MINNEAPOLIS**, and is the only Company which does so. It has not manufactured a title to deceive the public and catch business.

# INTRODUCTORY.

---

The publishers in submitting to the citizens the forty-first volume of the **DETROIT CITY DIRECTORY** feel confident that it will be received by them with the favor that has always been accorded previous issues. This encouragement has led us to do our utmost to improve each year, both in reliability of information and in giving such statistics regarding the city, its population and government as would be useful to both citizen and stranger.

The number of pages in the present issue devoted to the arrangement of names in alphabetical and classified order is 727. The number of names after carefully deducting sufficient to allow for repetitions is 44,240, as against 43,212 in 1878; an increase of 1,038.

## OUR PRESENT POPULATION.

Calculated in accordance with our annual custom of using the multiple of three, a standard much lower than adopted in other cities, gives a population of 132,720, an increase over last year of 3,084. This result is very gratifying, but should not be a matter of surprise when we consider the many improvements that have been made and are still going on in the city.

## THE CITY GOVERNMENT.

The general government of the city is lodged with the Mayor and Common Council. There are, however, a number of auxiliary boards having jurisdiction and control of special interests. The Police Department is governed by a board of four commissioners, and employs 165 men, including one superintendent, three captains, seven sergeants, three detectives, eight roundsmen, six doormen, and 136 patrolmen.

The Fire Department is administered by a board of commissioners, four in number. It employs an efficient working force, and nine steam fire engines, two chemical engines, and two hook and ladder companies.

The Board of Public Works consists of three men appointed by the Mayor and confirmed by the Council. The construction of pavement and repairs of streets; the care of the public grounds and buildings; the construction and care of wharfs, bridges, sewers and water courses; the erection of gas lamp posts, and ornamental fountains; the construction of all public buildings and works of the corporation or of any board thereof, are matters over which the Board of Public Works have entire control. The total length of paved streets in the city is 70 miles. The total length of sewers in the city, public and lateral, is 150 miles—70 public and 80 lateral.

The Board of Health, composed of the senior alderman of each ward, two of the city physicians, and two physicians designated by the Council, has charge of sanitary measures and other matters relating to the public health.

The annual assessment of the property of the city is made by the City Assessor, and is then subjected to a "Board of Review," who hear complaints of excessive valuation, and make such corrections as they think proper. The estimates for the general expenses of the city are made by the Common Council, and for police and school taxes by the police and school boards, and are then submitted to the "Board of Estimates," consisting of two persons elected from each ward of the city and five by the city at large. This board may reduce, but may not increase the amounts.

## THE JUDICIARY.

The Circuit Court for Wayne county and the Superior Court of the city of Detroit have concurrent common law jurisdiction within the city. The Recorder's Court has jurisdiction of felonies arising within the city, of proceedings for street openings, and some classes of offenses under the city ordinances. The Police Court hears and determines misdemeanors, and, except those cases that are referred to the Recorder's Court, all offenses under the city ordinances. Six justices of the peace have civil jurisdiction in the city.

The Probate Court, for the settlement of the estates of deceased persons, has jurisdiction throughout Wayne county, of which Detroit is the county seat.

## DETROIT FINANCIALLY.

The total debt of Detroit, September 1, 1878, was as follows :

Berthelet market bonds, past due and probably lost.....	\$400 00
Redemption bonds, due 1879.....	30,000 00
House of Correction bonds.....	100,000 00
City Hall bonds.....	600,000 00
Public sewer bonds.....	480,000 00

\$1,210,400 00

Less means on hand in sinking funds for paying same..... 400,153 09

Net debt September 1, 1878.....\$ 810,265 91

The average annual tax levy for the past three years—1876, 1877 and 1878—was \$885,209.14.

It will thus be seen that should the city of Detroit double its taxes for one year alone for such purpose, the resources of the sinking fund would more than equal the entire debt of the city

The foregoing does not include \$1,495,234 bonded indebtedness of the Water Board, which is provided for by water rates assessed upon consumers. There is also a small indebtedness in the form of paving bonds, which are assessable against the property benefited by the improvements, and not upon the city.

The valuation of the taxable property of the city is \$87,865,685, and the rate of taxation is but ninety cents on the hundred dollars on the valuation. A comparative table of the rate in 24 cities of the United States shows Detroit to be the lowest, the next lowest being Hartford, Conn., 95 cents, and the highest being Brooklyn, N.Y., and Toledo, Ohio, \$3.17 and \$3.19 respectively. As an evidence of the promptness with which our citizens pay their taxes it may be noted that of the tax levy of 1877, amounting to \$889,999.10, there has been collected \$885,263, or ninety-six per cent of the whole amount; and of the remaining four per cent., but one per cent. is considered worthless, and this is a tax on personal property.

## PUBLIC PROPERTY.

The value of the public property of the city is stated by the Controller, in his report for 1878, as follows :

Public buildings and lands.....	\$ 1,590,250 00
Public parks.....	374,000 00
Real estate (unimproved).....	8,500 00
School buildings and lots.....	717,117 75
Fire Department property.....	360,189 30
Police Department property (police stations).....	54,223 07
Water Works property.....	932,880 14
Public sewers.....	1,797,679 67
Street lamps and posts.....	21,753 00
Street drinking fountains.....	2,895 32

Total..... \$5,859,488 25

## EDUCATION.

Detroit has 26 school buildings containing sittings for 12,222 pupils; the Board of Education, composed of two inspectors from each ward, have charge. The High School building contains 708 seats, and is valued with the lot on which it stands at \$119,180. At the close of 1878 there were 625 pupils belonging to the High School, 2,788 to the graded, and 7,683 to the primary, a total of 11,096, with a daily attendance of 10,899. The number of pupils of lawful age at the last school census was 35,962. The number of teachers employed is 240, and the Public Library, containing 39,060 volumes, comes under the supervision of the Board.

The private and denominational schools of the city also give instruction to a large number of pupils.

## BANKS.

There are in Detroit ten incorporated banks, whose capital stock and deposits are given below. The national bank statements are of December 6, 1878, and the deposits are those due individual depositors and subject to check. The State bank statements are made up at various periods, July to October, 1878, as appears from the report of the State Treasurer.

	<i>Capital.</i>	<i>Deposits.</i>
First National.....	\$ 500,000	\$1,028,318 67
Second National.....	1,000,000	1,138,614 27
American National.....	400,000	1,230,490 50
Merchants and Manufacturers National.....	200,000	142,746 24
Mechanics' Bank.....	100,000	336,083 66
German American.....	100,000	324,763 19
Detroit Savings Bank.....	200,000	1,454,669 82
Michigan Savings Bank.....	60,000	270,702 12
People's Savings Bank.....	250,000	1,205,348 04
Wayne County Savings Bank.....	150,000	1,449,080 02

There are besides quite a number of private bankers and brokers doing a large business.

## MANUFACTURING AND GENERAL BUSINESS INTERESTS.

In a city of this size it would be impossible, when we consider the number and magnitude of the above interests, to give anything comprehensive or exhaustive within the limits to which a notice of this nature must be confined. There are 61 incorporated companies who employ an aggregate capital of \$20,000,000. The principal manufactures are railway cars and coaches, iron bridges (two large corporations) and iron ore mining machinery, lumber, leather, boots and shoes, clothing, tobacco (the most extensively manufactured here of any place in the country), malting, brewing, etc. The city enjoys a large wholesale trade, especially in groceries and dry goods. For further information we would refer to the large number of advertising pages, representing the leading houses in all trades and professions—also to the classified business directory, which gives a full and complete list of the different manufacturers, professional and business men, under the head of their respective callings.

## THE DETROIT POSTOFFICE.

The report of the postmaster of Detroit for the year 1878, is a good index of the business of the city. It shows, among other things, the following: The receipts for the year were: Stamps sold, \$110,540.90; envelopes sold, \$57,575; postal cards sold, \$16,710; postage on Canada closed mails, \$,454.66; postage on unpaid mail received, \$1,574.48; box rents, \$655, waste paper sold, \$134.72; total \$188,653.76.

The expenditures were \$62,212.98. During the year the total receipts from the money-order business were \$1,731,321.59, and the disbursements were the same. There were 14,646 domestic orders issued and 71,148 paid. The number of registered letters originally mailed here was 6,993, and the number received for distribution and delivery was 130,715. The following are the statistics of the free delivery business: Number of carriers, 31; registered letters delivered, 34,600; mail letters delivered, 4,440,691; mail postal cards, 960,356; drop letters delivered, 537,301; drop postal cards, 207,094; papers delivered, 2,356,299; letters collected, 1,849,486; postal cards collected, 482,948; newspapers collected, 249,406. Number of letters mailed at Detroit for distribution, 7,300,000; number of pounds of mail at one ounce (53,004 pieces), 881,958; number of pounds of mail at two ounces (139,356 pieces), 1,207,701; number of letters received from other offices for distribution, 5,346,960; number of sacks of papers received for distribution, 49,548; number of sacks of merchandise received for distribution, 1,995; number of locked pouches received and dispatched, 50,389.

## NEWSPAPERS AND PERIODICALS.

Thirty-five newspapers and periodicals represent the political, religious, commercial, scientific, agricultural, temperance, social, and other interests of Detroit. Daily journalism is represented by the *Post and Tribune* (Republican), the *Free Press* (Democratic), and the *Evening News* (Independent), printed in the English language, and by the *Volksblatt* and *Abend Post* in German—the former Democratic and the latter independent Republican.

## CONCLUDING REMARKS.

In conclusion we congratulate the citizens on the many marked evidences of improvement in the city. The number of good substantial buildings, residences, and large business blocks that have been erected within the year since our last publication, is unprecedented in the history of Detroit. This activity in building shows no signs of abatement, as numerous large business structures and fine residences are being erected at the present time. Trade and commerce have revived, in fact we now seldom hear the cry of hard times amongst any class. We regard this revival in business as but the commencement of a period of unexampled commercial prosperity.

This will no doubt be due to Detroit's admirable location, ample resources, facilities for transportation, the stability of her business men, and last, but not least, as the lowest taxed city in the Union, she can offer inducements none other can.

## NOTICE.

---

*We have not in this, nor shall we in any future issues of the Detroit City Directory, ask or authorize the collection of any moneys in advance of the delivery of the book.*

*Our solicitors have strict orders to that effect. We are led to mention this from the fact that certain parties, fraudulently claiming to be our agents, have been soliciting payment for patronage in advance.*

## DIRECTIONS AND INSTRUCTIONS FOR TELEGRAPHING FIRE ALARMS.

Keys are left with the occupants of buildings in the vicinity of each Fire Alarm Box, and it is designated at the same where they can be found. The members of the Police force also possess keys.

The following will be observed when a fire is discovered :

I. Go to the box, open the door, and pull the hook down as far as it will go (firmly and without jerking) and let it slide back.

II. If the alarm is not immediately heard upon the small bell within, the City Hall or Tower bells, go to the next nearest box to fire and repeat the operation.

III. If on going to a box to give an alarm, the City Hall bell is heard striking otherwise than the hour (which is an indication that an alarm is being sent over the lines), do not open the box until it has done striking. In all such cases count the signal which is being sounded, and be certain it is not for the same fire.

Keyholders are cautioned :

1. To not open the box except in case of fire.
2. To not give an alarm until certain of a fire.
3. To not give an alarm for a fire seen at a distance.
4. To pull down the hook but once in giving an alarm.
5. To be sure, after giving an alarm, that the door is securely closed before leaving the box.
6. To not let the key go out of their possession, except when demanded by proper authority.
7. Keyholders, if removing their place of business or residence, are requested to return the key to the Fire Commissioners' office.
8. Wait at the box and direct the firemen to the fire.

#### RATES OF FARE AUTHORIZED BY CITY ORDINANCE RELATIVE TO PUBLIC CARRIAGES, ETC.

SECTION II.—The drivers or owners of public conveyances may demand and receive for conveying passengers the following rates or prices of fare, and no more, to-wit :

For carrying a passenger from one place to another, within the limits of said city (city of Detroit), 50 cents. Children under 10 years of age, not exceeding two in number, when accompanied by parents or guardian, shall be carried *free of charge*. Those in excess of that number shall each be charged *half fare*.

For the use of any public conveyance by the hour, for not more than four persons, and with the privilege of going from place to place, and stopping as often as required, \$1.50 per hour for the first hour, and \$1 for each additional hour; and for fractional hours at the rate of \$1 per hour; and for each additional passenger 25 cents per hour. For the use, by the day, of such conveyance, \$5. For each trunk, 15 cents; but no charge shall be made for any bag, valise or bundle, weighing less than fifty pounds.

And every carriage, hack, or other public conveyance for carrying passengers, licensed under the provisions of this ordinance, shall at all times have in a conspicuous place in the inside thereof, and where the same may be readily seen and read by any person or passenger sitting therein, a card containing in large, plain printed English letters, the owner's name and the rates of fare in this section prescribed and established.

When a public conveyance is used between the hours of 11 P. M. and 5 A. M., it shall be lawful to demand and receive for the same services one-half more than the rates prescribed above.

Any disagreement as to time and rates shall be determined by the Mayor.

## RATES OF POSTAGE ON FIRST-CLASS MATTER.

On letters, sealed packages, mail matter wholly or partly in writing, except book manuscript and corrected proofs passing between authors and publishers, and except local or drop letters or United States postal cards; all printed matter so marked as to convey any other or further information than is conveyed by the original print except the correction of mere typographical errors; all matter otherwise chargeable with letter postage, but which is so wrapped or secured that it cannot be conveniently examined by postmasters without destroying the wrapper or envelope; all packages containing matter not in itself chargeable with letter postage, but in which is inclosed or concealed any letter, memorandum, or other thing chargeable with letter postage, or upon which is any writing or memorandum; all matter to which no specific rate of postage is assigned; and manuscript for publication in newspapers, magazines or periodicals, three cents for each half ounce or fraction thereof.

On local or drop letters, at offices where free delivery by carriers is established, two cents for each half ounce or fraction thereof.

## RATES OF POSTAGE ON SECOND-CLASS MATTER.

Mailable matter of this class embraces all newspapers, magazines and periodicals; exclusively in print, and regularly issued at stated periods from a known office of publication, without addition by writing, mark or sign, and addressed to regular subscribers, two cents per pound; by act of March 3, 1879, sample copies may be sent at the same rate.

## THIRD-CLASS MATTER.

The following articles are mailable at the rate of one cent for every two ounces or fractional part thereof:

Pamphlets, occasional publications, transient newspapers, magazines, books, periodicals, hand-bills, posters, sheet music (printed), prospectuses, maps, proof sheets, regular publications designed primarily for advertising purposes or free circulation, at nominal rates, and corrected proof sheets. All matter of the third class, not enumerated above, is one cent for each ounce or fraction thereof.

## POSTAL CARDS.

The object of the postal card is to facilitate letter correspondence, and provide for the transmission through the mails, at a reduced rate of postage, of short communications, either printed or written in pencil or ink. They may, therefore, be used for orders, invitations, notices, receipts, acknowledgments, price-lists, and other requirements of business and social life; and the matter desired to be conveyed may be either in writing or in print, or partially in both.

In using postal cards, be careful not to write or have anything printed on the side to be used for the address, except the address; also be careful not to paste, gum or attach anything to them. They are unmailable as postal cards when these suggestions are disregarded.

## THE FOLLOWING ARTICLES ARE UNMAILABLE.

Packages containing liquids, poisons, glass, explosive chemicals, live animals, sharp pointed instruments, sugar, or any other matter liable to deface or destroy the contents of the mail, or injure the person of any one connected with the service. All letters upon the envelope of which, or postal card upon which obscene, scurrilous, or abusive epithets have been written or printed, or disloyal devices printed or engraved, and letters or circulars con-

cerning illegal lotteries, so-called gift concerts, or other similar enterprises offering prizes, or concerning schemes devised and intended to deceive and defraud the public. Also, all obscene, lewd or lascivious books, pamphlets, pictures, papers, prints, or other publications of an indecent character.

#### FORWARDING LETTERS.

Letters may be forwarded without prepayment of postage, if forwarded without being taken from the Postoffice, but if delivered to an authorized person (such as one to whose care they are directed), or hotel to whose care they are sent, having once been beyond the control of the Postoffice Department, they are chargeable with postage on forwarding. Such re-directed letters are daily dropped in the letter boxes, and are, under instructions, forwarded to the Dead Letter Office.

#### LETTERS RETURNED TO WRITERS.

All letters unclaimed, upon which are indorsed the names and addresses of the writers, will be returned whether a specific request for such return is indorsed or not—provided the original postage has been prepaid according to law.

#### MONEY ORDERS

Are issued on all points in the United States at a trifling cost—\$15 or under, 10 cents.

On Canada and the Provinces, \$10 or under, 20 cents.

On all points in Great Britain and Ireland, \$10 or under, 25 cents

On all points in Germany, \$5 or under, 15 cents.

On all points in Switzerland, \$10 or under, 25 cents, and through Switzerland on France, Belgium and the Netherlands, on all points in Italy, \$10 or under, 25 cents.

No limit to the amount of remittances to foreign countries. In the United States three orders of \$50 each is the limit for one remittance per day.

#### STAMPED ENVELOPES.

The following is a list of stamped envelopes most commonly used, with the size, color and price per 1,000:

No. 1, 3 cent, 1st quality, white, note size, \$31.60.

No. 2, 2 cent, 1st quality, white or amber, medium size, \$22.

No. 4½, 2 cent, 2d quality, cream, business size, \$22.20.

No. 4½, 3 cent, business size, 1st, 2d and 3d quality, \$32.40, \$32.20, \$32.

No. 3, 3 cent, medium size, 1st, 2d and 3d quality, \$32.20, \$32 and \$31.80.

No. 5, 3 cent, large size, 1st, 2d and 3d quality, \$32.60, \$32.40 and \$32.20.

No. 4, 1 cent, un gummed, for circulars, medium size, \$11.40.

No. 6, 1 cent, un gummed, for circulars, large size, \$11.60.

No. 9, 1 cent, newspaper wrappers, \$11.20.

If ordered in amounts of 500 or more, a special request to return if not delivered will be printed free of charge.

The 2d quality is invariably fawn and the 3d quality a pale blue.

Single envelopes and wrappers, or quantities, can be purchased from the stamp clerk.

#### STAMPS CUT FROM STAMPED ENVELOPES.

Stamps cut from stamped envelopes lose their legal value and cannot be used to prepay postage. The use of such stamps is punishable by a fine of fifty dollars.

The postage on stamped envelopes spoiled in directing will be refunded at the stamp window, provided they never have passed through the mails.

**HEADQUARTERS FOR A THOROUGH PRACTICAL BUSINESS EDUCATION.**

It is very seldom that we find a young man having a good Business Education, out of employment. We do not mean half an education, such as is received at some of the so-called business colleges, but one who has been through a downright thorough course, such as you will receive at Goldsmith's (B. & S.) Business University. This is the leading business college of the Northwest, which fact is vouched for by many prosperous men of to-day, who owe their first upward step in life to the above university. Young men, do not make a mistake, by first trying inferior colleges. If you desire a good, practical, business education, commence and go through a complete course at Goldsmith's (B. & S.) of Detroit, which is acknowledged to be the best and most thorough University in the West.—*International Hotel Reporter.*

We have recently revised our course of instruction and introduced a large number of modern forms and sets of books as used by leading business firms and not found in any published work excepting the one used as a text book by this institution. The counting house system of actual business is also used in this institution and is superior to that of any other system ever introduced in a Business College, requiring a bank business office and a board of trade which furnish facilities for obtaining a knowledge of accounts, business papers and business customs not possessed by any similar institution in the State. Students buy, sell and ship representative merchandise to other colleges belonging to our association and they are required to keep a systematic record of the same in their books. By this method of educating young men they get a better idea of business as it occurs among business men than can be had in any other way outside of a regular business office. We would advise all young men who wish to obtain a thorough practical business education, to inquire of the business men of Detroit where it can best be had. College paper mailed free on application. GAFF, FLEISCHMANN & CO. and H. TAUSZKY & CO.'S COMPRESSED YEAST is the best article for all kinds of Bread Baking in the world. First Premium awarded at all points in the United States where exhibited. KEEP COOL AND DRY. Farmers and Suburban Residents can retain this Yeast fresh and Reliable by immersing in water, using a small glass jar or vessel. The Yeast Particles precipitate, and water covering prevents air spoiling the Yeast. Keep the water fresh on the Yeast. Set vessel in cellar, or lower it into the well or cistern, attached to a string. When Yeast is desired for use, pour water off, take out what is needed with a spoon, and pour fresh water over the Yeast. In this manner it will keep for months.

# The Legal <sup>and</sup> Commercial Union

A MERCANTILE AGENCY UPON A POPULAR PLAN.

ESTABLISHED 1875.

*RELIABLE CORRESPONDENTS in every town in the United States and Canadas.  
MERCANTILE CLAIMS collected at reasonable rates. Subscribers furnished  
with fresh and reliable reports of debtors FREE OF CHARGE.*

## THE POINTS OF EXCELLENCE

Claimed for this agency are—

- 1st. The list of attorneys is the most comprehensive and reliable one published.
- 2d. It is the only responsible agency that does not charge business men a large annual fee for membership.
- 3d. It is the only agency that furnishes absolutely reliable and at the same time free information as to the standing of debtors.
- 4th. The rates of collection are extremely reasonable.
- 5th. It enables creditors to trace a debtor to any part of the United States or Dominion of Canada, and enforce payment of hard claims at a nominal cost.
- 6th. It enables a traveling salesman, wherever he may be, to consult a reliable lawyer free of charge, thereby saving his principal thousands of dollars in bad bills that might otherwise be sold to irresponsible parties.

*Thirty thousand* business men already use this agency, which is an ample guarantee of its worth.

*If you will try it for one year you will discard all others.*

*We invite criticism and challenge comparison.*

Business men using this agency may be assured of fair and honorable action on the part of attorneys, correct commercial reports, prompt collections and remittances, and an economical and safe system for the transaction of all legal business.

If you have one ordinary claim to be collected abroad it will pay the trifling expense of your connection with the agency for years.

If you have collections at home it pays, because you obtain the services of a reliable attorney at a fixed and reasonable sum.

# MAYHEW BUSINESS COLLEGE,

Chamber of Commerce,  
DETROIT, MICH.

This **Actual Business College** derives its patronage from Detroit and Michigan, from every section of the United States and the Canadas and from Nova Scotia and South America. It is conducted by the well known author of **Mayhew's Bookkeepings**, as stated on the preceding page, to which the reader is referred. Something of the merits of a Business College may be learned from the standing of its manager among persons eminent in his own profession.

## Business College Teachers' and Penmen's Association.

With a view to the improvement of Business Colleges in every department of their work, and to their establishment upon a broad and firm basis, a National Convention, composed of a large number of leading Business College Teachers and Penmen of America, met in the city of New York in August last. The founder and proprietor of the Mayhew Business College of Detroit was chosen President. Pursuant to the arrangements of the committee on Programme, on the first day of the Convention President Mayhew delivered an address on "**Business Colleges; their Work and Place in a System of Education.**" The following minute appears in the closing proceedings of the fourth day's session, as published by the Secretary in the **PENMAN'S ART JOURNAL**, of New York.

"The Hon. Ira Mayhew, being about to retire from the Convention, occupied a short time in a parting and deeply interesting address, at the close of which, on motion of Mr. Peirce, of Philadelphia, a committee of three was appointed to draft a minute expressive of the very high appreciation of the Convention of the services rendered it, and to Business Education, by the Hon. Ira Mayhew."

The full Bench of Judges at the World's Fair specially commend the exhibit of the Mayhew Business College, a duplicate of which may be seen by calling upon the President at the College. The United States Commissioner's Report says: "Young men desiring a Business Education will find the advantages here offered **the most perfect possible.**" A State School Commission, in its published report of a visit to this College, employs like terms of commendation. The University Bookkeeping of this College is one of the principal modern text-books on business and accounts, and **the only one published providing complete instruction in practical account-antship.**

# Mayhew Business College,

CHAMBER OF COMMERCE, DETROIT,

**Corner Jefferson Avenue and Griswold St.**

---

*This Actual Business College is conducted by the well known author of Mayhew's Practical Bookkeeping, for Common and Union Schools, and Mayhew's University Bookkeeping, for Business Colleges and the Counting room.*

These are the leading text-books of their class in America. **TEN TIMES** as many of Mayhew's Practical Bookkeeping **ORDERED** by the Board of Education of New York for the schools of that city as of any other work, and **EIGHT TIMES** as many as of **ALL OTHER BOOKKEEPINGS TOGETHER**. The principal of the Cambridge High School, near Boston, says: "I have examined Mayhew's Bookkeeping carefully, in connection with twenty or more others, and have tested it thoroughly in the school-room, with classes of from ten to two hundred pupils each, and do not hesitate to say I consider it the **BEST WORK** of its class I have ever seen." Hundreds of the best teachers of America use equally strong language in its praise.

**MAYHEW BUSINESS COLLEGE** excels in preparing young men and women for business. Its course of study has been arranged with all that care and thoroughness which have secured for Mayhew's Bookkeepings their national reputation and use, and their adoption as text-books in the Colleges of New York and Washington, and by City and State Boards of Education throughout the United States and the Canadas. Of them over 600,000 have been used by private learners and in the Colleges, Normal Schools and Public Schools of America. The **BUSINESS PRACTICE** of this College is especially adapted to the transactions of its University Bookkeeping, and is confessedly **THE BEST** anywhere in use. It challenges comparison with any other.

The **MAYHEW BUSINESS COLLEGE** occupies a commodious suite of rooms in the **CHAMBER OF COMMERCE BUILDING**, 156 Jefferson avenue. Rooms directly over the **BOARD OF TRADE HALL**, well lighted and ventilated, heated by steam, and reached by elevator. They give a picturesque view of Detroit river scenery from Belle Isle to Sandwich point, and possess all requirements for comfort and health. Visitors and students are delighted with them.

Young men and women have here the benefit of a superior course of study, with skilled teachers, and enjoy unusual facilities for thorough and practical instruction in Bookkeeping and Business Practice, and for becoming familiar with the varied duties of the counting room and of actual business, in accordance with the best business usages, and the requirements of law.

The President of the Mayhew College, who has had large and successful experience as a teacher, a school officer, an author and a business man, personally directs the work of the school room. All students attend his instructive lectures, which pay them for coming long distances. And he employs competent teachers in large proportion to the number of students in attendance, so that none are neglected.

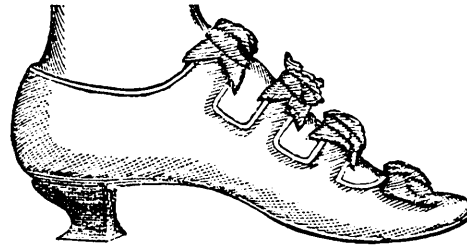

For **CIRCULARS** call at the College, or address the President,

CONGRESS STREET WEST.

I would respectfully call your attention to the fact that I am now, as ever, prepared to execute, on the shortest notice, and at prices that will be found extremely low for quality of work, every description of Plain and Ornamental Printing, such as is required by Merchants, Lawyers, Banking Houses, etc., in a style and at prices which will warrant satisfaction.

is what I wish to call particular attention to, as I make a specialty of this branch of the business. Designs furnished for every description of Labels, on application, their acceptance being optional.

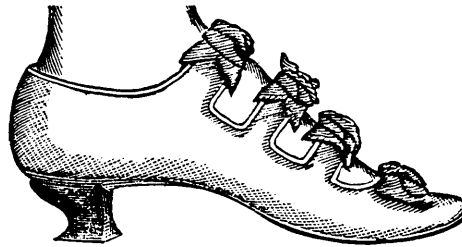

I have also a complete assortment of GERMAN TYPES, which enables me to furnish work in either the German or English, or both languages.

AGITATOR AND

**BRAN CLEANER**

Patented July 11, 1865,  
Dec. 12, 1871, and  
Sept. 11, 1877.

1st. The object of this  
Machine is to cool the Meal  
as it comes from the burrs,  
taking away all heat and  
moisture, preventing con-  
densation. 2d. To agitate  
the Meal before going to

the bolts, making the flour whiter and more granular, thoroughly dry and sharp, and increasing the  
capacity of bolting. 3d. It thoroughly cleans the bran, thereby making a better yield than can be  
made without it.

# CONSUMPTION

AND ALL DISEASES OF THE

## HEAD, THROAT CHEST

Successfully Treated at the Detroit

# Throat and Lung Institute

Merrill Block, Cor. Woodward & Jefferson Aves., DETROIT, MICH.

**M. HILTON WILLIAMS, M. D., Propr.**

*Permanently Established since 1870. Over 13,000 treated since the establishment of our Institute in Detroit.*

I am astonished from day to day at the almost universal prevalence of catarrh in this city and State, and yet the saddest reflection is the fact that persons are dying every day with catarrhal consumption, which is nothing more than the outgrowth of catarrh. So quiet and so unostentatious is its progress that many persons do not notice it until the disease has continued for years, at which time the breath becomes offensive; the hearing or sight impaired; or it has begun its work of devastation upon the lungs. It is this insidious, this tame and common-place phase of the disease in which the great danger lies. Its symptoms are too well known to require enumeration, for there is scarcely a family in our land but what is affected with it. Suffice it to say, when once it fastens upon the mucous lining of the nose, superinduced by whatever cause, or developed by whatever means, it spreads until every portion of the respiratory surface is involved and the sufferer scarcely dreams of danger until she or he has consumption in its more advanced stages. In this condition the blood is completely poisoned, the vitality of the system is lowered, and the digestion and assimilation are impaired. Emaciation goes on with a slow but steady stride. Sound sleep departs, the memory is impaired, and there is a morbid sensitiveness to everything; in reality, the whole system is a complete wreck, and in the language of one of old, "The brightness of life fades out and the subject is doomed to a living death."

Now, what is to be done? Is this state of things to continue and increase until the whole community is affected and rendered revoltingly offensive by this most disgusting of all diseases—CATARRH? This need not be. There is a cure for catarrh in every stage. Medical science has developed new remedies and new modes of administration until all the various diseases of the head, throat and chest can be cured, with the exception of the latter stages of consumption. Climatic changes alone will never effect a cure of ulcerated catarrh, or ulcerated lungs. They require the direct application of the remedies to the diseased parts, and this we positively affirm can only be done through the most improved system of Inhalation.

All those who are afflicted with any disease of the breathing organs, are advised to begin treatment immediately, before the disease has assumed an incurable stage.

Consultation free, and prices within the reach of all.

If impossible to call personally for an examination write for "List of Questions," and Circular. Address

# ASH LUMBER, ALL KINDS. CORNER 4th AND AB- BOT STREETS.

# White Sewing Machine.

## ITS SUPERIOR ADVANTAGES.

It is so simple in construction that little or no instruction is required to become proficient in its use. A child can use it. It has a self-setting needle.

Its upper tension is easily controlled, and after being once regulated, is automatic, requiring no change for any kind of ordinary family work.

It is the lightest running machine made, and is nearly noiseless—features which no lady can afford to overlook in the selection of a sewing machine.

It is adapted to any kind of sewing, from the lightest muslin and silk to the heaviest woolen or cotton goods, and guaranteed to execute any kind of work ever wanted in a family.

It has the best treadle ever attached to a sewing machine; it being so constructed as to operate with perfect ease, and without fatigue to the most delicate lady.

Its working parts are case-hardened iron or steel, and so constructed that the "lost motion" in all the wearing parts from long and constant use can be taken up by the simple turning of a screw.

Its shuttle is self-threading, made of solid steel, and carries a larger bobbin than almost any other family sewing machine. The tension can be changed without removing it from the machine.

It has more room under the arm than any other machine made, making it very desirable for dress-makers, seamstresses, tailors and others, who often wish to carry the fabric under the arm without crushing it.

It has a device by which the bobbins can be filled without running the entire machine, thereby relieving it from wear for this purpose, as, also, relieving the operator of the necessity of removing the work or attachments, as is the case in nearly all other machines.

It has a double steel feed, or a feed on both sides of the needle, which enables the operator to carry the fabric through either side of the needle, as may be desired. This feature, combined with the large space under the arm, is found in no other machine, and is an advantage which should not be overlooked.

The result of this combination is the "WHITE," the easiest-selling, the most durable, the cheapest, best and largest family Sewing Machine in the world.

## WARRANTED.

Every wearing part is case-hardened, and adjustable. We therefore have no hesitancy in warranting every machine for family purposes as perfect; and if any piece proves defective within three years, we will supply that piece free of cost.
