Mabley & Company's Prices Are always 25 per cent. below any other house on Clothing, Hats and Caps, Gents' Furnishing Goods and Boots and Shoes.

IT IS OF COURSE ONLY

A Question of Time

When the old companies will be displaced by new ones. The Grover & Baker, the Florence, the Weed, the Howe, the Singer, and all the old companies have either gone out of the business or seen some new rival pass them in the race for public favor.

The Most Prominent in the Race

TO-DAY IS

THE IMPROVED WHITE

It is Five Years ahead of all others in

Mechanical Construction and Improvements.

It is made on the principle of a jeweled watch, and can be made as good as new at a small expense after years of constant use in a shop or factory.

The Detroit Knitting and Corset Works of this city are now running White Machines that have been in constant use, run by steam power, for six years, equal to fifty years' ordinary use.

THE WHITE

Winds a bobbin as smooth as a spool of silk, is self threading, runs nearly as still as a clock, runs lighter than any other, and is sold by the fairest people to deal with in the world.

We sell the BEST OIL at 5 and 7 cents per bottle, 20 cents per pint.
NEEDLES for nearly all Machines 20 cents per doz. Leather needles 25 cents. Machines rented, repaired, crated, etc.
Oldest Whites made as good as new.
Organs and Pianos sold on monthly payments.

and flat base outside.

AND

VALLEY SEWER PIPE WORKS

Cor. Thompson and Franklin Sts., EAST SAGINAW, MICH.

MANUFACTURERS OF

HYDRAULIC CEMENT PIPE

FOR SEWERS, DRAINS, WELLS, CULVERTS and CHIMNEYS.

Also, all kinds of Artificial Stone. Wholesale and retail dealers in Ohio Vitrified Clay Pipe, Drain Tile, and all the choice brands of American and Foreign Cements.

By reason of many imitators of our goods by inexperienced and unskilled manufacturers, we believe we are justified in saying there are none in the State of Michigan who can compete with us in quality, design or variety. Our pipe is compounded with clean, sharp sand or gravel, and an unstinted proper proportion of unadulterated Portland Cement, compacted in the most thorough and workmanlike manner, and treated with the best hardening processes known to the art.

A. H. Andrews & Co.,

Manufacturers of

Office School Furniture,

195 and 197 Wabash Ave., Chicago, Ill.

All Work fully Guaranteed of Best Kiln-Dried Lumber.

Samples of work seen in the new Custom House and Cook Co. Court House furnished by this firm.

No. 43. Low Curtain.

No. 498. Library Table.

Polygon, Closed.

Bank & Office Fittings *in elegant styles, and special designs,*
in all kinds of Hardwoods.

Bank Counters, Wood Mantels, Library Fittings, Ladies' Desks, Etc.

Opera Chairs.

See these chairs in Central Music Hall, New Academy of Music, Grand Opera House, Haverly's, and elsewhere. They have Hat-rack, Foot-rest, Tilt-ing-back, Umbrella and Cane-rest.

Settees and Assembly Chairs for Hall and Church Seating.

School Furniture and Apparatus, such as Blackboards (all kinds) Globes, by far the largest variety in this country.

Stationary Top.

Andrews' Triumph School Desk,
Highest Centennial and Paris Awards.

Folding Top.

This Desk, with Folding Lid and Seat,
Is the most important improvement of the age in School Desks.

Andrews' Lunar Tellurian Globe is the most remarkable and perfect invention ever produced, for showing in addition to Geography, the changes of Season and Causes, Twilight, Phases of the Moon, Eclipses, Tides, etc. It shows the revolution of Earth about the Sun ; also, that of Moon around Earth.

ANDREWS' PARLOR FOLDING BEDS.

Made in 25 Styles.

Occupy one-fourth the space of the clumsy common beds, hence save room-rent ! All the bedding, pillows and mattress fold out of sight instantly. The improved woven wire mattress goes with each bed, ensuring comfort.

Made in form of Book-cases, Dressing-cases, Secretaries, etc. Parties interested are invited to call and see these beds at our warerooms.

Price, from \$25 Upward.

Secretary Bed Closed and Writing Leaf Open.

These beds have the most perfect VENTILATION of any bed ever made ; see cut showing the bed constantly open to the air when folded. They are on casters and easily roll from one room to another. The main points of excellence in these beds no other beds have, nor can have.

When moving, or in case of fire, bed and bedding can be instantly rolled out of the room.

THE BEDS ARE
Light !
Elegant !
Portable !
Comfortable !

After six years' trial the demand is unprecedented. See published commendations from many first-class families in this city and elsewhere.

Secretary Bed Open.

Rear View of Folding Bed No. 9.

**PICTURESQUE
 MACKINAC**

HISTORICAL
 AND
 DESCRIPTIVE

BY
 G. D. WHITCOMB
 DETROIT MICH.
 ILLUSTRATED
 BY
 SPECIAL ARTISTS

Van Dyke & Co. Detroit

Its truthful pictures, by both pen and pencil, excite wonder and admiration. A copy bound in a flexible silk cover, embossed in gold, will be mailed by the author on receipt of 25 cents.

Or address C. D. WHITCOMB, Gen'l Pass. Agt., Detroit & Cleve. Steam Nav. Co., Detroit, Mich.

MACKINAC ISLAND, the rock girt, fairy isle, sitting like an emerald gem in the clear, pellucid wave, rises gradually and majestically from the crystal waters, which cover but cannot conceal the glistening, white pebbly depths beneath. It is the central point of the three great lakes. It knows no land breeze, hence the winds are always cool and refreshing, and seem incessantly tossing balls at each other.

They no sooner cease blowing from Lake Michigan than they come from Lake Huron, and Lake Superior is never behind in the contest. Mackinac Island contains two thousand two hundred and twenty-one acres, of which the national park comprises eight hundred and twenty-one, and the military reservation one hundred and three acres. The natural scenery is unsurpassed. Nature seems to have exhausted herself in the manifold objects of interest which meet the eye in every direction. The lover of Mother Earth will hardly grow weary of wandering through its shaded glens, and climbing over its rugged rocks, each day bringing to light some new object of beauty and interest. Longfellow, in his poem of "Hiawatha" has put into English verse some of its wild Indian legends, which people every rock and glen with spectral habitants. Hiawatha is the Mena-bosho of the Algonquins, and the Island of Mackinac was considered his birthplace.

If the poetic muses are ever to have a new Parnassus in America, they should certainly fix on Mackinac Island. Hygeia, too, should place her temple here, for it is one of the purest, driest, clearest and most healthful of atmospheres. The Island shows unmistakable evidence of the water having once been two hundred and fifty feet above its present line. It is a mooted question whether the lake has fallen from its original level, or the island has, from some cause, been lifted up. Springs of water, clear and cold, may be found at the base of the high cliffs, and scattered through other localities.

Mackinac village is a perfect curiosity in itself. Situated at the foot of the bluff, upon the brow of which stands the fort, it extends for a distance of a mile along the beach. The buildings are a mixture of the modern and antique, some of which were brought from Old Mackinaw when the town and fort were removed from that point after the massacre of June 4, 1763. Many of the fences are of the original palisade style.

Schoolcraft, who visited it in 1820, says: "Nothing can exceed the beauty of this island." It is a mass of calcareous rock, rising from the bed of Lake Huron, and reaching a height of more than three hundred feet above the water. Some of its cliffs shoot up perpendicularly, and tower in pinnacles like half ruined gothic steeples. It is cavernous in some places, and in these caverns the ancient Indians were wont to place their dead. Portions of the beach are level, and well adapted to landing from boats. The harbor at the south end is a little gem. In it, vessels can anchor and be sure of a holding, and around it, the little old fashioned French town nestles in primitive style, while above frowns the fort, its white walls gleaming in the sun. The whole area of the island is one labyrinth of curious glens and valleys. Old fields appear in spots which were formerly cultivated by Indians. In some of them are circles of gathered stones, as if the Druids themselves had dwelt there. The soil, though rough, is fertile. The Island was formerly covered with a dense growth of rock maple, oak, iron wood, etc., and there are still parts of this ancient forest left, but all the southern limits exhibit a young growth. There are walks and winding paths of the most romantic character among its hills and precipices. From the eminences overlooking the lake can be seen magnificent views of almost illimitable extent.

From "PICTURESQUE MACKINAC," published and sold by the author.

The late Dr. Drake says: "The island is the last, and, of the whole, the most important summer resort to which we can direct the attention of the infirm or the fashionable. The living streams of pure water, cooled down to the temperature of 44°, gush from the lime rock precipices, and an atmosphere never sultry or malarious, supersedes all necessity for nauseating iron, sulphur and epsom salts. As a health resort it is unsurpassed. Its cool air and pure water are just what are needed to bring back the glow of health to the faded cheek, and send the warm currents of life dancing through the system with youthful vigor." Its natural beauties and historic associations, together with the innumerable lesser attractions which cluster round about, serve to furnish visitors with so much entertainment and variety for either the robust or weakly ones, that ennui which eventually is felt at most resorts need not be experienced here. In Mackinac you eat with a new relish, and sleep like a child. You row, or ramble, scarcely able to keep your buoyancy within bounds. Dr. Mills, once post surgeon at Mackinac, says: "No better place can be found for sickly girls and puny boys, for worn out men and women, whether from overworked brain or muscle, or for those inclined to hypochondria. A change from the tiresome sameness of home scenes cannot fail to benefit all. From the hour of entering Lake Huron, your feelings will indicate that you have passed beyond the reign of miasma, fever, dyspepsia, blue devils and duns, and you look back upon the whole of them with gay indifference, or a feeling of good-natured contempt, as every turn of the steamer's wheel carries you farther into the temperate and genial climate of the lakes, and away from your perplexities. Under these influences real diseases may abate, and the imaginary ones be forgotten. In the celebrated white fish (classical name, coregonus albus, signifying food of the nymphs), is found a native whose acquaintance is liable to but one objection, that of destroying the taste for any other fish, and which, with the trout and potatoes of the island render all foreign delicacies superfluous. We would caution the gourmand, however, against an excessive use of trout, which are said to produce drowsiness, for those who visit Mackinac should be wide awake, lest some scene of interest should pass unobserved.

Besides the agreeable change of climate on reaching Mackinac, there is the new sensation to one who has not before enjoyed the novelty of an insular life, of having found an island retreat. To his jaded sensibilities all around him is fresh, a feeling of security comes over him, and when, from the rocky battlements of the fort, he looks down on the surrounding waters, they seem a bulwark of defense against the host of annoyances from which he has sought a refuge. Thus the curative state of mind begins to act on the body from the first moment, and this salutary mental excitement will not soon die away, for the historic associations, not less than the surrounding scenery, are well fitted to maintain it, and to make the invalid forget his ailments. Dr. Mann says, "A few whiffs of the air would make your lungs give a hygienic laugh. This air must have been left clear out of Eden, and did not get cursed. Children are crazy with animal spirits, and eat in such a way as to demonstrate the paradox that the quantity contained may be greater than the container." These extracts will no doubt meet with a hearty response from thousands who have visited Mackinac.

At watering-places generally, all the features of the surrounding scenery are soon familiarized to the eye, which then merely wanders over the commingled throngs of coquettes, dandies, dancers and idlers, and soon returns to inspect the real or fancied infirmities of its possessor. A visit to Mackinac reverses all this. The attractions of the surrounding region are of a different and more wholesome kind, and draw to them those who seek health and recreation, and offer a delightful hot weather asylum to all who need to escape from crowded cities or a sultry climate. Besides this, the voyage imparts a pleasing excitement to the faculty of observation, curiosity is stirred up to the highest pitch, and pleasantly gratified by the hourly unfolding of fresh scenes of nature, some new blending of land and water, a group of islands different from the last, or a shifting series of painted clouds seen in the kaleidoscope of heaven afford constant variety, while the frequent trips of the Detroit and Cleveland Steam Navigation Company's steamers enable you to return as soon as desired.

Constance Fennimore Woolson knew the charm of the place when she made it the scene of so many romances, among them being the novel "Anne," and the short sketches, "Flower of the Snows," "The Old Agency," "Jeannette," and "Fairy Island."

The beauties of our own country rival those of the Old World.

The New Steel Steamer CITY OF CLEVELAND, now building for the Detroit & Cleveland Steam Navigation Company's fleet of steamers, which run on Lakes Erie and Huron, between Cleveland, Detroit, Port Huron, and the Mackinac Island Summer Resort.

Connecting there with Lakes Michigan and Superior Steamers for Chicago, Milwaukee, Sault Ste. Marie, Duluth, and all lake ports and resorts of the Great Lakes of the North.
