Evidence:

I Biloshtsetova Vera Zinov'yevna, born in 1928, residing in the village Novopol'tavka Novobugskogo region Nikolaev region.

I was met by our secretary of the village council Galina. She asked me: "Do I know about those difficult years of the 41st?"

"A little, but little can be described. As the Germans were humiliated naked people - Jews who lived in our village. All I can not describe, because it's hard to remember those difficult years. "

At that time, we asked the authorities to who might have helped to dry the grain seeds, because it was a rainy summer. And we (at the age of 14 also came to help). Suddenly a look - we are two Germans. On the breast of their chains - a translator, and our manager. Shouts one of the Germans: "Russish - here, Yuda - here." Column separated the Jews and drove to the center, where shops. Drove them into two large stores, and then expelled and placed in a column. Which of the women were full, the aunt, they were beaten and whipped something in German shouted. Then they drove to the end of the column Novopol'tavka. There were two anti-tank ditch, and they shot them there.

In my opinion, there were 642 people there. Girls and boys were taken by the hand and went to these ditches, and they, the Germans shot at them. It was horrible.

Who was at home, hiding from the Germans, but they were found and taken away to the den to shoot.

All, dear, she wrote what she saw and heard. Bless the Got from such human fears.
