

7 - stones # 223 - 253 (the last cadres were doubled in the next film)

8 - stones # 254 - 291

9 - stones # 292 - 327

10 - stones # 328 - 364

11 - stones # 365 - 401

12 - stones # 401 - 419 + some long shots of the cemetery

Note: some stones were photographed twice, because we were not sure if first cadres were o'key. But it is not shown on the plan, of course.

IV. General Notes

There are some more stones and even tombs on the cemetery, but they are absolutely illegible. We photographed only those, which had any inscriptions or probable traces of them. The latter were filmed with some special effects. However, I am not sure unfortunately, that you (I mean your Hebrew experts) will be able to read it. The only chance is that you have very good optical and magnifying systems.

So, I hope you are not disappointed with our cooperation.

Sincerely yours,

Oleg Perzashkevich
